Notwithstanding the numerous sales at auction during the past week, several private transactions have been closed by various brokers during the past few days, but, owing to the increase of speculation in and around Pine street, greater reticence is again observed in regard to the nature of various contracts. We know, however, that one broker has during the week purchased for a capitalist \$200,000 worth of vacant lots, nearly all between the Eighth and Ninth avenues, in the Seventies, Eighties and Nineties.

Three lots on the south side of Seventy-seventh street, 275 feet west of Eighth avenue, have been sold by Mr. H. H. Cammann for \$33,000.

Mr. Richard Arnold has purchased on the east side of Fifth avenue, fifty feet north of Eighty-third street, two lots for \$39,000 each.

M. A. J. Lynch has sold six lots on the southwest corner of One Hundred and Thirty-second street and Fifth avenue, for \$45,000.

Messrs. Scott & Myers have sold the entire front (vacant) on the west side of Madison avenue, between One Hundred and Twenty-ninth and One Hundred and Thirtieth streets, 199.10x110, for \$60,000, also the following improved property: Nos. 137 and 139 West Forty-ninth street, two four-story apartment houses, for \$81,500; also Nos. 15 and 21 East Sixty-fourth street, four-story brown stone high-stoop dwelling houses, for \$45,000 each.

It will be remembered that a few weeks since

Messrs. E. H. Ludlow & Co. sold to Mr. Charles J. Osborne, the late Mayor Opdyke's house, for \$200,000. During the past week they have sold for Mr. Osborne his house, No. 185 Fifth avenue, 18.10x100, adjoining the above, for \$80,000, to Mrs. Decker, wife of the Riverside contractor. They have also sold to Mrs. Margaretha H. Ward, No. 9 East Forty-fifth street, 25 feet front, for \$55,000. The same firm has sold during the week, No. 5 West Thirty-sixth street, 25x60, and extension (furnished), for \$50,000, to John T. Hall, and also No. 58 West Fiftieth street (leasehold) with furniture, for \$20,000.

Messrs. McCafferty & Buckley have sold two more of their houses on East Fifty-third street, No. 77 having a frontage of 16.8 feet, to Mr. L. K. Wilmerding, for \$27,000, and No. 79, same frontage, to Mr. C. V. R. Roosevelt, at same figure.

Messrs. Riker & Co. have sold a full lot on the north side of Fifty-sixth street, about 200 feet east of Seventh avenue, for \$12,000.

Two lots on the south side of Eightieth street, 250 east of Third avenue, have been sold at private contract, by Mrs. Benjamin Willis to Mr. John B. Smith, for \$7,000.

Mr. L. N. Fowler, who, as will be seen in our advertising columns, offers bargains in West Side lots, has sold at private contract for cash, during the week, a lot and frame house on the north side of Ninety-eighth street, 300 feet east of Ninth avenue, 16.8 x 100.11, for \$3,500, also a vacant lot on the south side of Ninety-ninth street, 175 feet east of Ninth avenue, 25x100, for \$1,000 cash.

Mr. S. M. Blakeley, has sold for Mr. R. Darrow, No. 302 West Fifty-first street, a three story English basement house, 20x45x105, for \$10,750, to Dr. Willock.

While it is true that Mr. Wallack is desirous of moving his theatre up-town, and apparently anxious to lease some eligible property up-town, the owner of the property at Broadway and Thirtieth street, had, up to noon yesterday, no knowledge of any lease having been signed as reported in the daily papers.

Neither is it true, that since our last issue, Mr. Jay Gould has bought the corner of Beekman street and Park row, as reported in Printing House Square. Since his purchase of No. 32 Park row, he has secured no adjoining premises. In fact, it is stated upon good authority that the corner alluded to is not for sale.

Mr. Kafka, the well-known architect, has removed his offices to the lower part of the city, as announced in another column.

The excellent lot maps gotten up by Mr. Robinson, the publisher, of 82 Nassau street, are purchased eagerly by leading real estate dealers and brokers. The latest atlas out contains the 16th, 18th, 20th and 21st Wards, gotten up with the same care and as elaborately as the Twelfth Ward Atlas, of which we spoke at length the other day. These maps are far ahead over anything heretofore known in the real estate market.

Brooklyn continues to build new houses at wholesale, as will be noticed by our list of buildings elsewhere. Five new flats on Gates avenue, four on Bedford avenue, and six smaller ones on Fourth place. Mr. Herman Reiners has filed plans for a new brown stone dwelling on Willoughby avenue.

The following are the sales at the Exchange Salesroom for the week ending Nov. 19:

* Indicates that the property described has been bid in for plaintiff's account:

Boulevard, s e cor 62d st, 116.2x146.8x100.5x 83.3, James D. Fish. Partition sale.....	\$78,000

Total	\$38,965

BUILDING MATERIAL MARKET.

BRICK.—Sellers have had another good week on the market for Common Hards, the supply finding customers about as rapidly as it came to hand and commanding a further advance on values all around, with no cargoes unsold at the present writing. The rate: range from \$5 to \$6.50 per M for "Up River," and \$6.50 to \$6.75 for Havershaws, and some of the best of the latter reaching \$7 per M. At the latter rate we also hear of several contracts made for December delivery, a figure not over full when the probable difference in cost of handling is considered. As for some time past the inquiry is reported as coming almost entirely from consumers, and the absence of any important accumulation in yard or on pier would seem to verify this claim. There has, however, within a day developed noticeable symptoms of greater caution among buyers, which lead to an impression of coming diminution of demand. A great deal of work, especially of the heavy kind, is now rapidly drawing to completion, and with but few new jobs starting, the consumption must fall away for a time, while the amount called for on winter account is small and made without hurry. Indeed, dealers say they can "see no money in it" by stocking up at ruling cost, and prefer standing off for the chances of more favorable terms. The is, no doubt, plenty of brick, and it will be coming forward so long as the river continues open. Pale brick do not appear to have changed much, and about \$3.25 per M is all that can be quoted. Fronts are selling well, and on all grades there is a steady tone to values, with no surplus offering of stock.

GLASS.—Reports upon the condition of business are of a somewhat irregular character, but as a rule do not appear to indicate a very liberal movement in a wholesale way, the demand narrowing down to orders from near-by points and local sources. There is, however, quite a liberal distribution going on of both foreign and domestic to meet previous purchases, and our home manufacturers assert that the bulk of the production is absorbed on contract, and preventing other than a light accumulation in first hands. Prices vary somewhat, but the average run of quotations seem to show about 45@50 per cent. discount on foreign, and 60@60 and 10 per cent. on American. The jobbing trade is good on the ordinary run of seasonable orders, and at full rates.

HARDWARE.—Business is somewhat irregular, the demand at times running very slow, and again as suddenly springing into some show of animation. The tendency, however, is toward gradual diminution, and the market without features of decided interest since our last. A good distribution from local jobbers bands is reported, including a full proportion of builders hardware. Values in most cases are quite steady, and no great changes are expected. The manufacturers of Augers and Bits, also Chisels and Drawing Knives, have decided to maintain existing quotations. The following changes have been made in the List price of Ames' Shovels:—Nos. 112@194, 548@572, and 598@702 reduced 50 cents per doz.: Nos. 730@752, 813@816, and 835@865 reduced 75 cents per doz.—discount 10 per cent. Quotations on Peter Wright's Anvils are reduced at 10½¢ per lb, and on German Halter and Coil Chain at discount 40 and 10@5 per cent from list. A combination of the makers of Brass Door Rails has fixed price at 430 with discount 20 per cent.

LATH.—Immediately available supplies have been moderate and the market correspondingly dull, but the tone on prices pretty well preserved. It is reported that a cargo has sold to arrive at \$1.85 per M, and this figure represents about the best bid to be obtained, but the majority of receivers show no disposition to negotiate for less than \$1.90, and some ask even more. Advices are reported as indicating a considerable falling off in the production at the Eastward, and the amount afloat for this port is again estimated of light proportions, with consignors' limits full. Buyers, however, exhibit little alarm, and whatever may be the wants of dealers, either for immediate or prospective use, they are in no great hurry to fill them.

LIME.—The demand is good and exhausting all the stock as it comes to hand, with full former rates obtained, but as yet receivers of Eastern have not felt inclined to advance the cost, and quotations remain as before. State lime has sold higher on some of the finer lots of finishing, and sellers are somewhat indifferent about making contracts, as in addition to the difficulty experienced in obtaining packages, the coming close of the canals, with the possibility of a check to river navigation, renders future receipts quite doubtful.

LUMBER.—The general market continues free from exciting or unusual features, and is indeed somewhat monotonous. With due allowance for the season, business is all that could be expected, and beyond occasional small variations growing out of temporary influences, sellers have no reason to complain of prices current. Supplies in hand are sufficient to insure a quantity against a pretty good consumptive and distributive call, and further additions are expected, but with one or two exceptions there is nothing like a heavy surplus indicated, and we find a very confident expression over the winter trade among most dealers. Domestic shipping orders, local consumption, and a full average export call are all promised on the present outlook, and most buyers appear in a condition to pay prices that will afford a fair margin to bolders of the desirable goods. Some interior advices are weaker, but not at points calculated to add this market in any way.

Spruce meets with a very good demand, but does not settle down as yet in price, owing to the absence of any uniformity of action among receivers. Some are inclined to offer freely and force matters a trifle if needs be, but the major portion are either steady or very firm, and have confidence in the market for the balance of the season. As recently noted, the October runs brought down a great many logs to the mills, but too late for general cutting, and some will not be used until spring. Danger of pressure is thus averted, but enough, it is said, will come forward to meet contracts and give a fair random offering. On random quotations range at \$17@18 10, and special \$19@20, with extra difficult as high as \$21@22 per M.

White Pine has found a somewhat slow demand, but at times was fairly active in meeting export and home wants. The stocks, however, are under good general control, and holders not likely to part with them until they command extreme rates. We quote \$17@19 per M for West India shipping boards; \$23@25 for South America do.; \$15 50@16 50 for box boards; \$17@17.50 for do. wide and sound do.

Yellow Pine is not wanted except on special order for winter and spring delivery, or to fill calls on export account under loadings at primary points. On these, previous rates appear to be secured with little or no difficulty, and the position is steady. It is, however, useless to send in undesirable random. They are not wanted, and either have to be stored or sold at a slaughter on price. We quote random cargoes at about \$22@25 per M.; ordered cargoes, \$21@26 do.; green flooring boards,

\$24@25 do.; and dry do. do. \$25@26.50. Cargoes at the South \$14@17 per M. for rough, and \$19@20 for dressed.

Hardwoods are valued about as before all around. Black walnut does not sell quite so freely on home account, but oak, ash and choice cherry are in demand at full rates. There is a fair accumulation here for regular trade wants. We quote at wholesale rates by carload about as follows: Walnut, \$77@85 per M.; ash, \$33@36 do.; oak, \$35@40 do.; maple \$30@35; chestnut, 1st and 2d, \$30@35; do. do. culls, \$18@20 do. cherry, \$45 @47 do.; white wood, 1/2 and 5/8 inch, \$25@27.50, and do. inch, \$43@35 do.; hickory, \$35@45 do., for Western, and \$65@75 for good nearby stock.

Retailers are doing a good business, and many of the yards present quite an animated appearance. Stocks are larger and more generally distributed, but holders not shading cost.

From among the lumber charters recently reported, we select the following:

A schr., 222 tons, from Savannah to Gibara, lumber, \$9; a schr., 130 M. lumber, from Jacksonville to Martinique, \$11.50; a Br. brig, 293 tons, from Mobile to Ponce, lumber, \$9; a schr., 160 M. lumber, from Jacksonville to Saco, Me., \$11.37 1/2; a schr., 240 M. lumber, from Brunswick to Philadelphia, \$6.50; a schr., 180 M. and a brig, 225 M. lumber, from Savannah to Baltimore, \$5.75; a schr., 285 M. lumber, from Brunswick to Philadelphia, \$6.50; a schr., 281 tons, from Portland to Wilmington, N. C., hay, \$2, and back with lumber, \$6.62 1/2; a schr., from Portland to New York, empty barrels, 11c. each; a schr., same voyage, lumber, \$1.75; a schr., 300 M. lumber, from Darien or Brunswick to Newport News, private terms; a schr., 300 M. lumber, from Pensacola to a Sound Port, \$8; a schr., 342 tons, hence to Savannah, phosphate, \$1.75, and back from Jacksonville, 200 M. lumber, \$9; a schr., 267 tons, hence to Savannah, phosphate, \$1.75, and back with lumber, \$6.50; a schr., 136 tons, from Rappahannock to New York, ties, \$500; a barque, 546 tons, from Brunswick to Baltimore, lumber, \$6.40; a schr., 226 tons, from Pocomo River, Va., to New York, oak lumber and ties, \$5 and 20c.; a schr., 193 tons, from Barren Island to Savannah, phosphate, \$1.75, and back from Brunswick to New York, re-sawed lumber and boards, \$7.25; a schr., 300 M. lumber, from Bangor to Philadelphia, \$3; a schr., 175 M. lumber, from Richmond, Me., to Jacksonville and back to Baltimore, \$9 1/2; option of New York, \$10.12 1/2; a schr., 330 M. lumber, from Pensacola to Boston, \$8.50.

Exports of lumber from the port of New York:

	This Week, feet.	Since Jan. 1, feet.
West Indies	607,780	25,679,674
South America	705,876	16,849,234
East Indies, Africa, etc	6,563,271	6,563,271
Europe, Continent	15,000	2,737,021
Europe, United Kingdom	114,000	7,527,515
Total	1,442,656	59,356,715

CLOSING THE CANALS.

It is announced by the Superintendent of Public Works that Thursday, December 2d, is the day set for closing the Erie, Champlain, Oswego, Cayuga and Seneca Canals. The Black River Canal will be closed on Thursday, November 25th.

GENERAL LUMBER NOTES.

STATE.

The Albany lumber market, for the week ending November 16, is reported by the *Argus* as follows:

We have an active business to report in every branch of the trade in the District; the attendance of buyers from the East and South is large. The shipments are very free and will doubtless continue to the close of the season, and the prospect is that it will be at least to the end of November. The canal receipts have been materially helped by coarse Lumber, and for the week ending on the 14th inst. are slightly in excess of the receipts for the corresponding week in 1879. Stocks of pine, save of inch box of which the supply is much reduced, are ample and well assorted.

Coarse Lumber is in free receipt; the northern mill having an abundance of water are actively at work; yet large as are the receipts at present, they are not more than enough to fill the orders ahead, and as a measure of security receivers are daily refusing to accept new orders. Prices are steadily held.

We learn that Messrs. Allan, Gilmore & Co. have sold the bright Pine Deals to be sawn at their mills at Ottawa next season at \$112@115, \$76 and \$40 for first, second and third, f. o. b.; another account says that the firsts sold at \$114 all round. Another Ottawa mill has sold its Deals intended to be wintered over. Both sales are for England, and they will give a decided tone to the Canada Lumber market.

At Chicago the receipts since January 1st are 1,408,100,000 feet against 1,278,000,000 feet for a corresponding period in 1879.

The stock of Lumber at Chicago on the 1st November was 553,460,000 feet against 466,511,000 feet on 1st November, 1879.

The receipts of lumber by lake at Buffalo for the week were 7,817,000 feet and 95 car loads with advanced canal freights from Buffalo. At Oswego, 3,620,000 feet.

The receipts at Albany by canal from the opening of navigation to November 15th were:

Bds & Setg. ft. Shingles, M. Timber, c.f. Staves, D				
1879..	200,287,700	10,156
1880..	350,777,500	6,379	10,685	638,200

Freights from Bay City to Buffalo and Tonawanda, \$3.00 per M. feet; from Saginaw, \$3.50. From Buffalo to Albany \$3.00; from Tonawanda to Albany, \$2.75 per M. feet. Lake Ontario freights from Port Hope to Oswego, \$1.40 per M. feet, from Toronto to Oswego, \$1.50, and from Oswego to Albany, \$2.25. River freights are without change.

THE WEST.

SAGINAW VALLEY.

Lumberman's Gazette.

The problem just now presented for solution is, has winter really come. There is certainly every indication that the inclement season is at hand. The ground is frozen solid and delicately hid by a thin covering of snow, which is falling as we write. The wind is from the southwest and the thermometer marks 28 degrees above zero. The logs as they come from the booms, are found filled with frost, and unless a steady change in the weather takes place the sawing season must come to a close, for it is impossible to do good sawing with logs in that condition. For the same cause the shipping season must soon close, except as to the more hardy and venturesome seamen and shippers. The amount of lumber manufactured on the river this season is expected to aggregate a large sum total than ever in the history of the lumber trade of Michigan, while it is certain that the shipments will be excessive. The figures showing the shipments to the 1st of November are given in another article.

The market had continued active up to the time when the present spell of weather materialized, causing a quietness to prevail. The choicest grades of lumber are still in active request, but the coarser grades are dull and unsalable. It has been the peculiarity of this season that the demand has called for the better qualities, common and uppers selling readily, but culls dragging somewhat. Yard men have found this especially the case. Last season the case was quite opposite, the cheaper grades being most wanted. The change is quite a good indication that times are indeed better. A few small sales have been made the past week and others have been negotiated but are not yet closed, some of stock to be held over. There is a chance that all lumber will be held over from this date, although the prophetic Vennor promises several weeks of ethereal mildness yet to come. A sale of 300,000 feet was made at East Saginaw Saturday, at \$7.50, \$15 and \$35. Other sales have been made at nearly the same figures and at \$6.50, \$13 and \$30.

LUMBERMAN AND MANUFACTURER, MINNEAPOLIS, MINN.,

The manufacturing season for the year 1880 will practically close next week, and the whole fraternity have reason to congratulate themselves on the result. As compared with several preceding years there will be several thousands of dollars on the credit side of the books, even if there is no large margins left. The lumbermen of the West have simply accepted the better situation without doing anything to contribute to it. They have, and are now exhibiting all their usual willingness to give the public the benefit of low prices upon any reasonable provocation. There is but a small amount of lumber carried over at the mills, and a large part of the logs have been sawed up. The event of the week has been the apparent stiffening up of the Chicago market in spite of the continued heavy arrivals. The reports from there all agree that the new list is very well adhered to by all parties concerned, and no more serious trouble will come from that quarter as long as they can sell more lumber than they can ship, unless they work themselves up into a passion over the western trade.

The logging season has so far commenced that an army of men are in the woods building camps, roads, dams, &c., and a few chopping timber. The mania for log cutting this season is still spreading, and threatens to vacate all tailor and shoe shops of the northwest. Any one can cut logs.

THE EAST.

The Lewiston (Me) Journal says:

There is a lively demand for spruce dimensions at \$15 to \$16 per thousand, and in some cases for long dimensions we have heard as high as twenty being paid. This is owing to the scarcity of logs. There are few logs now in the river at the mills, but a large supply will probably be along in about ten days. The snarl of logs at Livermore Falls has been disentangled, and the logs are now coming this way. The river is still at a good pitch but the lumbermen want to see more rain. About six inches of rain have fallen during the past two weeks, enough in ordinary times to create a high freshet, but not enough, as severe as the drouth was, to fill the sources of supply. The ponds only average a rise of about one foot.

The Boston Journal of Commerce as follows:

The market shows much the same features as during the preceding week. Prices are firm, and except in cases where the supply was excessive, values have tended to strengthen. The demand, while not noticeably improving, shows fair proportions. Western grades are particularly firm, owing to the recent advance in freights. Eastern spruce is in demand, but there is considerable pressure upon prices, owing largely to more liberal supplies. Southern pine is exceedingly strong, with a likelihood of an advance. The demand is very active, and there has been, the past week, numerous inquiries for car timber. Some 10,000 new cars are proposed for New York railroads. Ship stock is in better demand. There has been quite a scarcity of ocean tonnage during the past season, and the ship building interests are likely to be effected favorably thereby.

The Boston Commercial Bulletin says:

The Connecticut River Lumber Company, owing to the extreme low water in the river, has been unable to send any logs to the Hartford mills this season. In the spring the company attempted to bring a drive of 60,000,000 feet down the river. But the snow melted slowly and no rain fell to swell the stream to its usual volume, so that a much smaller quantity was finally launched. As the spring advanced with no rains a small drive of some 15,000,000 feet was pushed on ahead and got to Holyoke without any great difficulty. The main body progressed very slowly and is now "hung up" at McIndoes Falls, N. H. The company are building piers and a boom a few miles below at Wells River, and will hold the logs there until next spring. They are just beginning operations of their woodland and will soon have 1,000 choppers at work, intending to start again as large a drive as possible.

A large number of logs have already passed the Connecticut River bridge, and the river between Brattleboro and Bellows Falls is crammed with floating lumber.

THE PROVINCES.

The Montreal Journal of Commerce reports:

Owing to excitement of Presidential election, trade with the states has been quiet. This being over, a steady demand is in view. We anticipate an active trade all winter. Deals for the English market have run short, and are much enquired for. Prices lately have much improved. Sales for next season's delivery have been made at Quebec as high as \$15 for 1sts, \$75 for 2nds, and \$40 for 3rds, highest price ever known in this country. There is quite a large stock of lumber held in this city, but it is principally of common grades and culls. As little building is going on there is no great demand for local consumption. Navigation being about over, prices must advance somewhat.

The Toronto Lumber Company will take out about five million feet on Manitoulin Island the coming winter. They have three camps under way at present. The locations of those mills are central and convenient for shipping to any point, either south or west. The lumbering business has tended largely to settle up the island, which has increased in population 15,000 during the past eight years.

FOREIGN.

The following prices were obtained at recent Liverpool timber sales:

The St. John spruce deals—16 to 25 ft, 3x11, £8 2s 6d; 12 to 15 ft, 3x11, £7 15s to £8; 9 to 11 ft, 3x11, £7 15s; 16 to 26 ft, 3x9, £8 2s 6d to £8; 12 to 15 ft, 3x9, £7 17s 6d to £7 15s; 9 to 11 ft, 3x9, £7 10s; 16 to 25 ft, 3x7, £7 15s to £7 12s 6d; 12 to 15 ft, 3x7, £7 12s 6d to £7 10s; 9 to 11 ft, 3x7, £7 10s to £7 7s 6d; 9 to 25 ft, 2 1/2 x7, £8 2s 6d to £8; 9 to 20 ft, 3x14 to 15, £8; 9 to 22 ft, 3x10, 12 and 13, £7 15s; 9 to 20 ft, 3x8, £7 12s 6d; 9 to 26 ft, 3x6, £7 7s 6d to £7 11s; 9 to 26 ft, 2 1/2 x6, £7 5s 6d; 9 to 26 ft, scantling 5 and under, £7; deal ends, 8 ft and under, £6 to £6 2s 6d; palings, 5 ft, 3x1, £3 15s to £3 17s 6d per 1,200 pieces.

Pine deals, Richibucto, N. B.—9 to 19 ft, 3x11 to 20, £7 7s 6d; 9 to 21 ft, 3x7 to 10, £7 12s 6d; pine deal ends, £6 2s 6d.

Pine deals, St. John, N. B.—9 to 19 ft, 3x12 to 15, £7 17s 6d; 9 to 23 ft, 3x11 and 10, £7 15s; 9 to 26 ft, 3x7, £7 10s.

Spruce timber, 445 pcs, 9 to 28 ft, chiefly 5x5 and 6x6, 12d per cubic ft.

A parcel of American black walnut wood of good quality sold readily at following prices, the logs averaging about 12 1/2 feet long, viz.: 22 to 29 inches deep, 5s 11d per ft; 20 to 22 inches deep, 4s 11d to 5s 4d per ft; 18 and 19 inches deep, 4s 10d per ft.

Spruce deals, Miramichi, N. B.—9 to 22 ft, 3x11, £8; 9 to 11 ft, 3x9, £7 10s; 16 to 27 ft, 3x7, £7 15s; 9 to 11 ft, 3x7, £7 7s 6d; 9 to 23 ft, 3x8, £7 1s; 12 to 26 ft, 4x8, £9; 9 to 24 ft, 4x7, £7 17s 6d; 9 to 26 ft, 4x6, £7 12s 6d; 9 to 26 ft, 4x5, £8 5s; 9 to 27 ft, 2 1/2 x6 and 3x6, £7 7s 6d; 9 to 25 ft, 2 1/2 x4 and 3x4 and 5, £7; inch deal ends, £6 2s 6d.

Spruce deals, Richibucto, N. B.—16 to 24 ft, 3x11, £8; 12 to 15 ft, 3x11, £8; 9 to 11 ft, 3x11, £7 15s; 16 to 25 ft, 3x9, £7 17s 6d; 9 to 11 ft, 3x9, £7 10s; 16 to 24 ft, 3x7, £7 12s 6d; 12 to 15 ft, 3x7, £7 10s; 9 to 23 ft, 2 1/2 x7, £8 2s 6d; 9 to 23 ft, 3x12 to 18, chiefly 12, £8; 9 to 22 ft, 3x10, £7 17s 6d; 9 to 24 ft, 3x8, £7 10s.

METALS.—COPPER.—Ingot has not been very active on the ordinary form of demand, but supplies were well in hand, and the price firmly maintained. It is expected that the companies and manufacturers will soon come to an understanding (if they have not already done so), over the quantity and terms of delivery for the next three months. We quote at 18 1/4 @18 3/4 c. cash for Lake. Manufactured Copper without much animation, but the call shows seasonable average and former rates remain current. We quote as follows: Brazier's Copper ordinary size over 16 oz per square foot, 28c. per lb; do do do, 16 oz and over 12 oz per square foot, 30c per lb; do do, 10 and 12 oz, per sq foot, 32c per lb; do do, lighter than 10 oz per sq foot, 34c per lb; circles less than 84 inches in diameter, 31c per lb; do 84 inches in diameter and over, 34c per lb; segment and pattern sheets, 31c per lb; locomotive fire box sheets, 28c per lb; Sheathing Copper, over 12 oz per sq foot, 26c per lb and Bolt Copper, 28c per lb. IRON.—Scotch Pig has been fairly active, and made a gain on value since our last report, with the offering from regular importers hands not abundant. Bankers have, however, supplied a fair amount of stock from their hypothecated lots and all calls were met. We quote at about \$21@24 per ton, according to brand, delivery and quantity. American Pig has also been advanced

in price, and ruled quite firm, with a pretty good business doing mainly in the finer qualities. The lower grades have sold to some extent, but were compelled to compete a considerable offering of cheap English Iron. The inquiry has in pretty much all cases come direct from consumers. We quote at \$24.50@26 per ton for No. 1; \$21@22 do for No. 2; and 19@20 for No. 3. Rails have met with a very good demand, including prompt and distant delivery, and covering both iron and steel. Prices were firmer but without further important change. We quote at \$44@45 for iron and \$53@63 for steel, according to delivery. Old Rails \$6@27.50 per ton; scrap, \$25@27. Manufactured Iron has met with a somewhat improved demand of late, and the tone of the market is firmer, though without actual advance. Some pretty full sized contracts have recently been awarded for bridge building, etc. We quote Common Merchant Bar, ordinary sizes at 23@24c. from store, and Refined at 25@26c.; wrought beams at 31@32c. Fish plates quoted at 24@24c.; track bolt and nuts, 3 1/2@3 3/4c.; railway spikes, 3 1/4c.; tank, 3@3.1c.; angle, 3c.; best flange, 6c.; and domestic sheet on the basis of 3 1/2c. for common Nos. 10@16. Other descriptions at corresponding prices, with 1-10c. less on large lots from cars. LEAD—Domestic Pig was for some time offered freely without attracting attention, but finally in securing a further concession, buyers were induced to take hold, and business proved quite full. At the close the feeling is steady and the offering careful. We quote 4 1/2@5c. The manufacturers of lead are steady and quoted; Bar, 6c.; Pipe, 6 1/2c., and Sheet, 7c., less the usual discount to the trade; and Tin lined pipe 15c. Block Tin pipe, 40c., on same terms. TR—Pig been somewhat irregular, and reached a higher price, but of late extreme figures were somewhat modified, and buyers became more careful. There is thought to be quite an effort making looking to a concentration of supplies. We quote 20 1/2@20 5/8c. for Australian, 20 3/4@21c. for Straits, 20 1/2@2 5/8c. for English Refined, 20 1/4@2 3/4c. for do. Common. Tin Plates have found an occasional full sale from first hands, and a very good average jobbing movement with prices ruling fairly steady on most grades. Supplies appear to be ample. We quote 1 C. Charcoal, third cross assortment, \$5.12 1/2@6.25 for Allaway grade, and \$6.37 1/2 for Melyn grade; I. C. Coke \$5@5.12 1/2 for B. V. grade; \$5.25@5.37 1/2 for Yspitty grade; Charcoal terne \$5.37 1/2@5.62 for Allaway grade, 14x20; \$11@11.12 1/2 for do., 20x28; Coke terne, \$4.87 1/2@5 for Gais grade, 14x20, and \$10@10.1 1/2 for do., 20x28—all in round lots. Spelter has continued to sell in a slow and uncertain manner, and without change of a positive character on values, the quotation remaining at 16 1/2@17c. Sheet Zinc selling fairly on the ordinary trade orders, and about former rates ruling with the tone steady at 7 1/4@7 1/2c. according to quantity.

NAILS.—There is not much change in the general situation, buyers moving with care, and the demand showing very uncertain volume and form. The supplies, in the meantime, are full and well assorted, and a number of holders anxious to sell even at the low rates current. There is much competition between Eastern and Western manufacturers, and the cutting on values is unchecked. Quotations range from \$2 75 up to \$3 per keg for 10d. to 6d., according to size of invoice, etc.

PAINTS AND OILS.—Operations are gradually growing smaller, and the market, as a whole, has a pretty dull tone. Some of the extra desirable goods standard makes, etc., now and then have a little flurry in the way of a few full sales, but demand is not lasting, and more likely to fall away than increase, especially so from distant points. Prices undergo no change of a quotable character, but to some extent may be considered nominal, with the tendency, if anything, in buyers favor. Linseed Oil has been moderately active, with the offering of stock fair and prices easy, though without general decline. Some sales of Western are reported as low as 55c., but the general quotation is 57@61c. from crushers hands.

PITCH.—Business keeps within moderate bounds, and shows no new features worthy of note. Trade orders furnish the principal outlet. We quote at \$2@2.25 per hbl. for city delivered, a slight advance over last rates.

SPIRITS TURPENTINE.—A fair distribution has been made from second hands, the consumption keeping up to about the average for the season. In a wholesale way, the market was a little quiet, but supplies well in hand and owners ideas quite firm, the accounts from sources of supply proving very encouraging. As this report is closed, the quotations stand at about 45 1/2@47c. per gallon, according to the quantity of stock handled.

TAR.—Holders remain confident, offer moderately, and quite generally insist upon full former rates all around. The demand is a little slow in view of the cost and the light stock to select from, buyers taking only enough to meet positive wants. We quote \$3.75@4.00 for Newherne and Washington, and \$3.75@4.12 1/2 for Wilmington, according to size of invoice.

CONVEYANCES.

NOTE.—Names in SMALL CAPITALS convey property from husband to wife.

 Birdsall, Sarah G.—Robert L. Saries, adj New York City & Northern R. R., and road from Croton Dam to Pine's Bridge, 60x155.140

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

MISCELLANEOUS.

SPECIAL NOTICE.

On our first page and first column we have inserted the advertisement of an old customer, under the name of Jennings' Sanitary Depot. This house has for several years occupied the building No. 94 Beekman street, from which premises they furnished goods of tested manufacture to all the leading buildings of the country; chiefly worthy of mention is the Palace Hotel of San Francisco, the Post Office of New York, and many buildings of similar note. Having now removed to No. 7 Burling slip, New York, they are desirous of informing their friends and the trade generally. Mr. Alfred E. Jennings is the American agent for all the Jennings specialties, and promises goods worthy of patronage.

STEAM HEATING FOR FACTORIES, PUBLIC INSTITUTIONS AND PRIVATE DWELLINGS.

ANNIN & CO.,

Agents for the
Page Steam Heating Company
OF NORWICH CONN.

This Steam Heater is the most economical in fuel, perfectly safe from any explosion, and requires no more care than a hot air furnace; it can be attended to by any domestic. Personal reference given from those in use. Parties who intend to heat their houses with steam will find it to their interest to call on us, as we guarantee satisfaction or no pay.

TO INVESTORS.

THE NEW YORK & NEW JERSEY RIPARIAN LAND AND DOCK IMPROVEMENT COMPANY, CAPITAL TWO MILLION DOLLARS, divided into shares of TWENTY-FIVE DOLLARS each, offer a limited amount of their working capital stock for sale on very favorable terms.

This company control a large frontage on the New Jersey side of New York Bay, adjoining the New Jersey Central Railroad, and are about to dredge out a Ship Canal, 200 feet wide, 26 feet deep, running out 3,500 feet into New York Bay toward the Narrows; thereby creating a new outlet to the ocean for the produce of the Great West and Southwest. They also are to create upward of 100 acres of solid ground out in the Bay, upon which Grain Elevators, Warehouses, and factory buildings can be erected.

The importance of this enterprise to the commercial and manufacturing interests to New York and New Jersey, as well as to the growing Western country, can well be understood by those who are seeking safe investments if they avail themselves of the opportunity to be thoroughly informed by calling at the office of the above-named company, 64 and 66 Broadway. The few thousand shares of stock now on the market can be obtained through the EXECUTIVE COMMITTEE, or through any Banker or Broker of Wall street, who can communicate with said committee.

ELISHA W. ANDREWS,

President.

Thos. L. James,

Treasurer.

THE UNDERSIGNED, DESIROUS OF FORMING A Limited Partnership, pursuant to the provisions of the Statutes of the State of New York, hereby certify:

1. That the name or firm under which such partnership is to be conducted is H. TILESTON & CO.

2. That the general nature of the business to be transacted is buying and selling on commission stocks, bonds, specie, securities and cotton.

3. That the names of all the general and special partners interested in said partnership are as follows: Henry Tileston, who resides at New Brighton, in the County of Richmond, and State of New York; and James Davis Tileston, who resides at New Brighton, in the County of Richmond, and State of New York, are the general partners; and Cornelius Fellowes, who resides at No. 570 Fifth Avenue, in the City of New York, in the County and State of New York, is the special partner.

4. That the said Cornelius Fellowes has contributed the sum of fifty thousand dollars as capital to the common stock.

5. That the period at which the said partnership is to commence is the 21st day of October, A. D., 1880, and the period at which the said partnership is to terminate is the first day of October, A. D. 1884.

Dated at the City of New York, this 20th day of October, A. D. 1880.

C. W. SWEET,

No. 137 BROADWAY

The purchase of several parcels of real estate by leading capitalists during the past week, reflects the opinion, now steadily growing among investors, that vacant lots or improved property, in and around Manhattan Island, yield better and more permanent returns than ordinary securities. Real estate is, indeed, just now, the very best purchase in our markets, as, notwithstanding the considerable increase of activity, there has as yet been no corresponding increase in values, with every prospect of higher rates after the New Year has been turned. When gentlemen like Mr. Fish, the President of the Marine Bank, Congressman Hewitt, Mr. Munoz, the shipping merchant, and Mr. Iselin, the banker, put their surplus fund in real estate, all within a few days of one another, we may indeed look forward with confidence to the infusion of still more new blood in the market. Again, every builder, who sells a block of houses, such as, for instance, Mr. Hewitt has purchased, of course is at once looking around for new lots of ground, as he cannot afford to sit idle, and between the slight resumption of speculation already noticeable, and the actual demand for lots required for immediate improvement, the continued activity must ere long be accompanied by higher prices.

THE USE OF THE PARKS BY THE WORLD'S FAIR.

It appears by the following section of our State Constitution, that the city of New York is prohibited from giving away its property for the use of a private corporation, and that the Park Commissioners will base their opposition to the use of Central Park by the World's Fair upon this section :

ART. viii. SECTION 11. No county, city, town or village shall hereafter give any money or property, or loan its money or credit to or in aid of any individual, association or corporation, or become, directly or indirectly, the owner of stock in or bonds of any association or corporation, nor shall any such county, city, town or village be allowed to incur any indebtedness, except for county, city, town or village purposes. This section shall not prevent such county, city, town or village from making such provision for the aid or support of its poor, as may be authorized by law.

And, yet, it is claimed that the Museum of Natural History and the Museum of Arts, both belonging to private corporations, are

actually located in the Park by and with the consent of the department. It appears, however, that everything turns upon the word 'give' in above section, and that the commissioners may "loan" the use of the ground for the purpose intended. In how far the seeming difficulty may be overcome, it is apparent that the use of the lower end of the Park will certainly not be granted. A small portion of the north end of the Park above the reservoir may possibly be ceded temporarily, but, then, the fair grounds may have to spread over Morningside Park, and the hill that stretches from One Hundred and Tenth to One Hundred and Twenty-second street. That such a movement is contemplated by some of the commissioners is apparent by the anxious study they have made of the plans for Morningside Park, recently prepared by I. Wrey Mould, and the further fact that all the authentic maps of that section have, during the past few days, been removed to the headquarters of the International Commission, in Broadway.

THE NORTHERN PACIFIC.

We have repeatedly pointed out the tendency to vast railway combinations which might perhaps sometime include the entire railway system of the country. The latest and most startling of these combinations is the syndicate which has been formed for completing the Northern Pacific road within three years. Drexel, Morgan & Co., August Belmont & Co., Winslow, Lanier & Co., Seligman & Co., and Morton, Rose & Co., of London, have agreed to form a syndicate and furnish \$40,000,000 for the completion of the Northern Pacific road in three years time. So much has been told by the newspapers—but this does not tell the whole story. From private sources we learn that the new combination will include the Oregon Navigation Co., the Northern Pacific and the St. Paul & Milwaukee. Mr. Mitchell, of the St. Paul company, is to take a seat in the combined board. Among the gentlemen largely interested is Mr. George Pullman, D. O. Mills, Henry Villard and the other large operators, well known in connection with the St. Pauls and the Oregon Navigation Co. Of the \$40,000,000 loan, more than half will be placed abroad though the subscriptions will be made in New York City. Immense quantities of iron have already been contracted for, much of which will go around Cape Horn. The grade of the Northern Pacific is completed to the Yellow Stone, and the rails are laid to within thirty miles of the great National Park. Next summer, it is supposed, that a large business will be done in conveying parties to that most extraordinary of all the regions of the world. By next spring we shall have two

lines to the Pacific; for, by January, it is announced that the Santa Fe road will effect a junction with the Southern road coming to meet it from New Mexico; and in three years time we shall have three well equipped trans-continental lines. It is almost safe to predict that, by the year 1884, every railroad in the country will be a part of three, or at most four, great combinations of roads. The three lines from the Pacific to the Atlantic being the great stems or trunks, to which all the other roads will be tributary. How incredible all this would seem twenty-five years ago.

HINTS, POINTS AND FORECASTS.

The impression is prevalent in the street that the late "boom" in the market was not originated by Jay Gould. Indeed, it is believed that he was unprepared for the advance in prices. His own stocks were steadily sold down upon every advance.

The real authors of the boom are said to be D. O. Mills in conjunction with Boston and the Central Pacific people of San Francisco. In other words it is alleged that during last summer certain English capitalists had put up large sums of money for building railroads in this country, in connection with the new line to the Pacific, and tributaries thereto. This transfer of capital from Europe to the United States for the purpose of building railway property, occurring simultaneously with the demand for American securities is the real cause of the drain of gold to this side, as well as the sharp advance in high priced railway stocks. Jay Gould was not a party to these negotiations and was not prepared for the great advance in Central, Alton, Burlington and the other high priced stocks.

It is predicted that Delaware & Hudson will be selling at par within sixty days. The road is said to have a surplus of \$2,000,000, has no floating debt and is doing an enormous business.

The point has also been given during the past week to buy Canada Southern for \$90.

Lake Shore \$130 and Michigan Central \$125, are the figures.

Omaha preferred, it is said, will go to \$95. Erie is on the cards for \$55.

A very prominent New York Central Railroad official says, there will be no scrip dividend on Central, no doubling of the stock and no increase of dividends. He says all the surplus money will be used in making improvements and providing terminal facilities in the city of New York, and it is notable that every advance of the stock brings out a great deal of "long" stock.

Marietta & Cincinnati, first preferred, is said to be good for 20, but we don't advise any one to buy it.

Iron Mountain's first and second incomes are said to be among the cheapest securities in the market. A director, and a responsible and respectable gentleman, told the writer that the interest of these income bonds will certainly be paid, and that is intrinsically probable. The increase in population and business in Texas is something phenomenal, and all the improvement is a benefit to Iron Mountain and the Missouri, Kansas & Texas, as these two roads are the only links which connect the Southwest with the rest of the nation. The railroad building alone now going on in Texas will give the Iron Mountain all the freight it can carry for years to come. These income bonds are cumulative and would be a charge against the road if not paid.

The point is to buy the Grangers; Omahas are all right, or else the insiders are all wrong. The story goes that the St. Paul and Omaha Co. is to be consolidated with the Northwest. The preferred of the former will probably sell at 95 shortly.

What smart schemers there are in Wall street. As it would never do to issue a scrip dividend on New York Central, it is now suggested that the Lake Shore lease the New York Central, assume all its obligations, double its stock, and pay five per cent. on \$180,000,000 of capital. This would be an instance of the "tail wagging the dog," and the scheme may be carried out.

As to mines, Findley looks like a good purchase. It ought to be worth 70 in two months time. Last week we said Bulwer was a *buy* when it was 105—as we write it is in demand at 140. Calaveras is a purchase; so is Goldstrike, Cherokee, Green Mountain and Rising Sun.

The two mining boards are to combine; the only hitch being the refusal, so far, of the Stock Exchange to decline dealing in Mining stocks. The new Board will have nothing to do with the Mining Trust Company. It is supposed the seats will be worth \$2,500 after the consolidation is effected. There will be an insurance fund, giving \$6,000 to a member's family in case of death.

All accounts agree that there will be a heavy break in the stock market in December.

The bull movement is not by any means exhausted. It is now currently believed that Russel Sage and Jay Gould are both short of the Grangers. Erie, it is said, is booked for 55 or 60. It is claimed the road is earning \$24,000,000 per annum.

Look out for a movement in Boston, Hartford & Erie common. The lawyers of the old stock-holders, Benjamin F. Butler, Roger A. Pryor and Henry E. Knox, declare that the road was foreclosed illegally, and that a court of any backbone or sense of justice will so decide, when the case comes on for trial. It may come up any day. The stock is selling at one per cent., or a little over, on the dollar, and we hear of several gentlemen, who know what they are about, who are large holders and purchasers of the stock. The road itself, apart from its legal troubles, is doing splendidly. It is called the New York & New England. It is being extend-

ed to the Hudson River and intersects the New York & Northern at Brewster's station. The property is itself potentially very valuable; and the fluctuations in mortgage bonds and common stock are likely to make lively times in Wall street.

C., C., C. & I. stock, now selling at 83, is good for 95 to 100 before February next when a dividend of five per cent. will be paid. It is one of the cheapest stocks on the list.

Oregon Railway & Navigation Company will sell for 175 during the year 1881.

THE AMERICAN STANDARD DOLLAR.

This much abused coin has at last worked its way into public favor. With a unanimity that was extraordinary, the entire Eastern press have done what they could to discredit silver as a metal, and more especially the American standard dollar. We were told in one paper about the "silver curse," and scarcely a day passed but that some one or other of the city journals took a hand in discussing adversely the use of silver, except for very small change. And yet, of the twelve hundred million of people who inhabit the globe, nearly nine hundred million use silver exclusively, while less than two hundred million use gold exclusively. Even in gold countries some silver has to be used for small change. Silver is the metal of the great mass of mankind, especially of the poorer classes, and is universal in all countries for retail traffic. For eighty years, up to 1873, the American standard dollar of 412½ grains, was our unit of value. Every bond issued by the United States up to 1873 was legally and morally payable in that standard silver dollar.

Upon the demonetization of silver in this country and Germany, which occurred early in the year 1873, there was a shock to the business of the whole world. From being prosperous beyond precedent, Germany, in changing its currency from silver to gold, fell into a most grievous panic, and the growth of socialism and communism was the result of the extraordinary poverty which ensued from getting rid of the metal in common use with all mankind. Nor was there any recovery in this country until the American dollar was remonetized over the veto of President Hayes, in April, 1878. Since that time our progress has been upward and onward. The shrinkage of values ceased, and the white metal was utilized with the yellow metal to resume specie payments. Without this help resumption would have been physically impossible. Every prediction made about silver was falsified by the result, for remonetization did not discredit us, it did not prevent resumption, but helped it by reducing the premium on gold. Our securities were more sought for than ever throughout the world, yet to this day the newspapers never miss a chance to try and discredit silver. We rate silver to gold as 16 to 1. It is not generally known, but it is nevertheless true, that the American dollar is a better dollar than the French five franc piece, for the latter's proportion to gold is as 15½ to 1, whereas, as we have said, the

American silver dollar is as 16 to 1. That is to say, we give three per cent. more silver in exchange for a gold dollar than does the Frenchman who tenders his five franc piece at the counter of the Bank of France.

Our press has been in great distress for fear we should coin too many silver dollars, and loud were the outcries at that feature of the Bland law, which prescribed that not less than two millions a month, and not more than four millions a month, should be coined at our mints. We were told that there was no storage room for this utterly unused and useless silver, though strange to say, as yet we have coined less than eighty million of silver dollars; whereas, of the less valuable silver five franc pieces there have been coined in France for the use of the Latin Union *six hundred million pieces*, that is to say, the United States, with a population of fifty million, has less than eighty million silver dollars, while France, with a population of thirty-seven million, has six hundred million of an equivalent, though not so valuable coin, and yet, in France the five franc piece is the equivalent of what would be our gold dollar.

Of course, the reason why our silver dollars do not circulate generally is, because all the channels of trade are gorged with one and two dollar bills. France and England, neither of which produce bullion, do not allow the emission of one and two dollar bills. Nothing in England in the way of paper is permitted by the Bank of England less than five pound notes, and the common coins of the country are small gold and silver pieces, corresponding to our dimes, quarters, half dollars, dollars, five dollars, ten and twenty dollar gold pieces.

But recently a demand has sprung up for silver dollars. The retail business of the country is increasing, greenbacks are scarce, and to make change a call has been made on the government from all over the country for the American standard dollar. The Treasury department has recently been asked to supply silver dollars for the payment of pensions. By law this cannot be done, so the Secretary has been forced to notify those who called for the silver dollars, that they could exchange the government notes they got for the dollars at the nearest bank. It seems that there are now outstanding 21,474,899 one dollar greenback notes, and 21,509,317 two dollar notes, or, in round numbers, \$43,000,000 of less denomination than \$5. Were these withdrawn, as they should be, it would be found that there were not silver dollars enough to go around, and instead of coining barely two million per month, Secretary Sherman would be called upon to coin four million per month, the maximum allowed to him. Should he ever do this the value of silver would necessarily rise. When America began coining the silver dollar, in 1878, the price of bar silver in the London market was forty-six pence to the ounce. It now varies a fraction above or below fifty-two pence to the ounce. It was the American demand that raised the price, as it was the demonetization of the silver dollar, in 1873, by Germany and America which reduced the price of silver.

Should we coin four million per month it is easy to foresee that the price of silver would rise to its own level of fifty-six pence to the ounce, and the metals will resume their old relation which they bore for so many years of our history. Indeed, in 1873, when demonetization took place silver was at a premium of three per cent. compared with gold, and was therefore practically out of circulation for the cheaper gold, of course, was used whenever coined money was needed. It will be noticed that this three per cent. represents the difference between the value of the American dollar and the French five franc piece. Indeed, as a matter of fact, the scientific ratio is the French proportion, and not the American. The history of prices of the relative value of the two metals shows that the normal relation is really $15\frac{1}{2}$ to 1, and that the Americans have undervalued silver in putting $412\frac{1}{2}$ grains instead of $409\frac{1}{2}$ in their dollar.

But it may be asked, why make silver dearer? Because it is an American product as much as coal, iron, copper or any other representative of our industries. It would be an absurd statesmanship that would cheapen any of our productions to our own disadvantage. There is no more reason why silver should be rendered valueless than that gold should be rendered valueless. As a matter of fact, the undervaluing of silver has had the effect of over-valuing gold. In other words, the yellow metal has had to do double duty. The panic of 1873 and the hard times which followed were popularly supposed to be marked by lower prices; but really, as a matter of fact, silver, the great money of the world, in which all the retail traffic of the race was done in, could purchase as much during 1874, '5, '6 and '7 as it ever could. In other words, the ratio of prices of all commodities as compared with silver did not vary much. The real phenomena was that gold would purchase vastly more than it could before. The artificial demonetization of silver, its virtual corner by the great bankers of the world, placed the property of the producing classes at the mercy of the owners of gold who could purchase more lands, houses, ships, all kinds of property with their gold than they could before when bi-metallism obtained. The remonetization of silver would simply put things where they were before 1873. Gold would not be as valuable because silver would be more valuable. The relations of the metals would be changed, but to the enhancement of prices everywhere, and especially to the producing and consuming classes of mankind. There is no curse so terrible as the shrinkage of the circulating medium. It means misery for the mass of mankind. Any Government that will deliberately destroy money is a curse, a nuisance, whether that money be paper, or silver or gold. Of course it is all wrong to have irredeemable paper in circulation. *Fiat* money is a dream and a delusion. Paper money that is not convertible into gold or silver, is radically unsound and dangerous, but we cannot have too much silver, nor too much gold, nor can we have too much paper, provided it is not in such large amounts as to be inconvertible into the

precious metals. The Greenbackers were right in demanding more money. They were wrong in not putting behind every bit of paper afloat, a good gold or silver dollar. The silver men were right in insisting upon the remonetization of silver. The New York banks, bankers, and newspapers were as wrong as they could be in trying to magnify one metal at the expense of the other. Commerce walks on two legs, one of silver and the other of gold, just as human beings find that two legs, two arms, two eyes and two ears are all but indispensable. That is, the man must hop whose one leg is tied. So commerce is crippled when one of its prime factors is eliminated. That commerce did hop; that it was crippled by the action of Germany and the United States with regard to silver is known of all men. That we did not get upon a sure footing and upon a safe basis until silver was remonetized in this country is known to everybody who has given the slightest thought to the occurrences of the last few years.

It remains to be seen whether the policy of economy instituted by the Manhattan Company will interfere with the excellent service that has thus far characterized the management of our elevated roads. While every concern has a perfect right to conduct its business by the light of experience it has gained, it should not be forgotten that the running of elevated roads, their maintenance and so forth, is, after all, as yet only an experiment. All the expenditures of the past cannot be set down in the category of extravagance, and we regret to see, that in respect, for instance, to the painting of the various structures, there has been considerable neglect of late. Along some portions the rust is plainly visible, which is anything but reassuring in a climate like this, where iron ought to be kept in good condition by the constant application of the paint brush. Economy with the paint-pot will never do especially during a season when all signs point to a continuance of cold weather which will make a strain on the iron structure, only the more severe.

WHAT CONGRESS OUGHT TO DO.

An expiring Congress is not likely to take any broad or radical view of the political or financial situation. The tendency always is for the members who have not been re-elected to log-roll and trade their votes for schemes in which there is money. In point of fact, a Congressman is much more likely to be virtuous before than after a Presidential election. But suppose we had an ideally good Congress, we might confidently expect that the following among other reforms would be attempted if not effected:

1st. A thorough reform of our civil service—all minor officers to serve for life or good behaviour—vacancies to be filled after competitive examination.

2d. A refunding bill to take up Government obligations as they fall due in a fifty-year three per cent. bond. This would

insure a low rate of interest and an easy money market for many years to come.

3d. Bi-metallism to be encouraged by a repeal of the silver-dollar coinage law, and the white metal placed on an equality with the yellow metal, by permitting free coinage of both on equal terms, in the proportion of 16 ounces of the one to 1 ounce of the other.

4th. All bills, whether Treasury notes or bank notes, under twenty dollars, to be gradually withdrawn, and in their place a sufficient number of double eagles, eagles, half eagles and silver dollars to be coined to meet all the requirements of retail traffic.

5th. Banks to be required to redeem their issues in gold or silver if demanded; the Government Treasury to accumulate bullion or coin equal in amount to the outstanding greenbacks; in other words, to put behind every greenback afloat a good silver or gold dollar. These measures would give us the best currency in the world, and would prevent gold and silver being drawn away from the country when the balance of trade should turn against us.

6th. The Government to purchase the telegraph lines, provided they can be procured at a reasonable figure. If the demands of the Western Union or the American Union were extortionate, the Government itself to construct lines to be built under the auspices of the engineers of our Army and Navy.

7th. Liberal subsidies to be given for mail service to foreign nations, thus placing our commercial marine on the same footing as that of Great Britain, France and Germany. The purchase of foreign steamships to be allowed for one year, after which all the new lines, which would ask for subventions, should be of American construction.

8th. The tariff to be so readjusted as to permit the building of ships as cheaply in this country as in Great Britain.

9th. Liberal appropriations for the army and navy, coast defences and torpedo service, so as to protect the country from the attacks of other maritime powers, it being notorious that we are now at the mercy of any nation with an armored fleet.

10th. Liberal appropriations for necessary river and harbor improvements, especially for the leveeing of the Mississippi River and its tributaries.

It will be noticed that were this programme to be carried out it would not only increase the national debt, but would add to the annual expenditure of the Federal government. But, then, this is a rich and growing nation, potentially the most powerful, prosperous and wealthy country in the world. Every dollar we would spend in extending our commerce and improving our means of communication would add ten dollars to our future wealth by supplying us with facilities for doing a larger business. It is not likely that the lawyers and small politicians who comprise the majority of our present Congress will adopt any such programme as we have outlined above, but we do know that were it adopted our commerce would be increased, our finances placed on a sound and enduring basis, and nothing but bad crops, wars or pestilence would stand in the way of the continued prosperity of the country.

We are in receipt of a communication from a reader, complaining bitterly of the carelessness of the committee on securities of the New York Stock Exchange, in admitting to dealings bonds and stock of a certain railroad, which, at the time the committee passed upon it had virtually no existence, and, although these securities have been daily bought and sold, the road is to this day actually unfinished. At the time it was first called at the Stock Exchange, the road was really in the hands of the contractors, was run by them and owned by them and nothing but the responsibility of these contractors and the good luck of the times saved the investors from heavy losses. The Stock Exchange is not intended to be an advertiser of new railroad securities, and private bankers should float their own schemes without the endorsement of that body.

ABOUT MINES.

THE BODIE STOCKS.

It is said the insiders are beginning to purchase the stock of the Bulwer mine. The marketing of this stock in this city at prices ranging from \$14 down to \$9 was a dishonest and shameful deal, and it has injured the reputation of Standard, which is partly under the same management. There is reason to believe that the Cook Brothers, when they sold the Standard to New York parties, did not know how good a mine it was. They did a good thing in selling it, and the people who purchased did a better thing in buying it. Bulwer, we think, has been deliberately run down by the insiders, who are now repurchasing it at low figures. There is no danger of an assessment, and, unless we are much mistaken, it is known that there is some ore in the mine which has not yet been worked. There may be a combination made with the Belvidere mine, which has quite a promising ore body of its own. All the Bodie stocks—the Noondays, Oro, Addenda, Mono, Bodie, Bechtel, will all bear watching. There is money in them. But we do not think much of Consolidated Pacific, Boston Consolidated, Union Consolidated, South Bulwer, South Bodie or Bodie Tunnel. These all should be left severely alone. But a great deal of money will be made in wise investments in the Bodie region within the coming year.

THE LEADVILLE STOCKS.

There seems to be a revival of interest in Leadville properties, and with reason. The fire has been got under in Chrysolite, and the mine will be opened honestly and prudently. There will be no attempt to pay early dividends, and when the payment of them is resumed, the amount will not be large, but it is hoped it will be continuous. The settlement of the legal dispute over the Iron Silver is an event of great importance for the district, as this great property can now be properly worked. The Iron Silver will add largely to the output of the Leadville camp. Iron Silver, Highland Chief, Hibernia and Big Pittsburg are probably purchases at present prices. Little Chief, Climax and the Scooper Mine, now that George Daly is the superintendent, are good properties to give the "go-by" to. The Leadville Camp is astonished at Prof. Newberry's report on the Colorado Prince. He did not get anything right, beyond the fact that there was a mine of that name in the place indicated. The people who bought the property on his representations, are not satisfied with their bargain, and they say all kinds of things.

GEORGIA MINES.

A gentleman named G. W. White is trying to

interest New Yorkers in certain Georgia gold mines. He claims that the region is a good one, and only wants proper development. He says S. L. M. Barlow is making a very handsome profit out of a mine he is working in Georgia, and that the Findley, on the New York Mining Board, is worth the par value of its stock, and will pay dividends regularly for many years to come. The mine was poorly managed, but the new superintendent knows what he is about, and the monthly product is large enough to pay handsome dividends were it not that an old debt is being paid up.

STREET OPENINGS.

The testimony of John H. Strahan before the Senate Committee clearly explains the confused system or rather no system under which our streets are managed.

"There are three bodies, he said, which have control of the opening of streets and two of the construction of sewers. These powers are distributed between the Department of Public Works, the Park Department and the Board of Street Openings. The Park Department constructs streets in the Twenty-third and Twenty-fourth Wards; but the Department of Public Works alone has the power to repair them. The Board of Estimate and Apportionment does not receive any estimates for the construction of sewers or new streets. The Commissioner of Public Works has the sole authority to open a sewer, and levies the expense on the property-owners. There is no limit to the cost of constructing sewers or of opening new streets. The comptroller has to issue bonds to pay for the work and then collect the amount due from the several property-owners. Fragmentary legislation has caused this confused system. The subject of street openings is becoming a very alarming one. The bill passed last winter by the Legislature will do some good. The principle of having the fees for street openings named is a good one. Under a law of 1874, not yet repealed, in regard to street openings, if a certain procedure is adopted by the Park Department the cost of opening streets in the Twenty-third and Twenty-fourth Wards will amount to \$30,000,000, and the city will have to pay it. Whenever the city is to be the debtor public officers are not sufficiently careful. The Fourth Avenue tunnel showed that work of this character could be done within the estimates. There is a wide feeling that there is collusion between the engineers and the contractors; that frequently the city pays for the removal of rock when earth has only been removed.

Senator McCarthy—In other words, like the members of the Canal Ring, the contractors know their business better than city officials.

Mr. Strahan—Why, I have known mere boys appointed as surveyors. There is no reason why the character of the subsoil of New-York should not be thoroughly known.

THE ERECTION OF TELEGRAPH POSTS.

The following ordinance passed by the Board of Aldermen on Tuesday last will go into effect January 1, 1881.

SECTION 1. It shall not be lawful to erect any telegraph-post in front of the entrance of any dwelling-house, nor within a distance of fifty feet from the nearest telegraph-post, nor near the corner of any street upon a line with any crosswalk, nor within a distance of ten feet of any public street-lamp; and every telegraph-post now erected or hereafter to be erected within the corporate limits of the city of New York shall be painted a light brown color for a distance of ten feet, measuring upward from the level of the sidewalk, excepting those having a fire-alarm box attached to them, which shall be painted a red color, and the remainder of every such telegraph-post, and the cross-pieces thereon, shall be painted white. The name of the company, or other owner of every such post, shall be branded or painted thereon in a conspicuous place, within the distance of ten feet measured upward from the level of the sidewalk, and no sign, hand-bill, or advertisement of any kind shall be placed, pasted, or otherwise fastened on any such telegraph-post without consent of owners of said posts, such consent to be granted only without compensation.

Sec. 2. Any person offending against any of the foregoing provisions of this ordinance shall be deemed guilty of a misdemeanor, and, on conviction thereof before any of the Police Magistrates or Justices of this city, shall be punished by a fine not exceeding ten dollars, or in default of the payment of such fine, by imprisonment not exceeding ten days.

THE MARITIME FEATURE OF THE WORLD'S FAIR.

TO THE EDITOR OF THE REAL ESTATE RECORD:

DEAR SIR.—In noticing your article on the World's Fair, in your last issue, I would like to make a few remarks. Your proposition to give it a maritime feature, is certainly as grand as it is novel, and meets with universal favor. But, why should we crowd the Hudson, which is already filled to its utmost capacity, with an increase of craft and travel, as to endanger life and property, when we have a much pleasanter site at Port Morris. The latter, with its beautiful scenery of land and sea, is certainly the best of any site to be had, and the only place where an enterprise of your description can be carried out successfully.

Very respectfully,

A. F. SCHWANNECKE.

MARKET REVIEW.

REAL ESTATE MARKET.

For list of lots and houses for sale see pages iv, v and vi of advertisements.

The week has been interrupted by a holiday, which created a temporary hiatus in the closing of transactions. On the days devoted to business, however, a very large attendance was observable at the Exchange Salesroom, even on those days when there were no interesting offerings. An immense crowd faced the stand of E. H. Ludlow & Co. on Tuesday, when, after the disposal of leasehold property on North Washington square, the northwest corner of Madison avenue and Twenty-sixth street was offered. After spirited bidding, the four-story corner dwelling, 30x98.9, was secured for \$79,500 by Mr. J. M. Munoz of the firm of Ribon & Munoz. The adjoining property on Madison avenue, comprising two stables was sold to Mr. Adrian Iselin, the banker, for \$46,200. The total amount realized at this sale is \$125,700, a very fair price, considering that the Union League Club House across the way is soon to be turned into an apartment house, and that the early completion of the new Opera House will necessarily somewhat detract from the class of habitues that frequent the Brunswick and other prominent hotels and restaurants on the other corner. The seven lots on One Hundred and Forty-first street, west of Seventh avenue, sold at the beginning of the week by Horatio Henriques, were purchased by Mr. Patrick Fox for a well-known builder. Mr. Richard V. Harnett sold, during the week, No. 634 Third avenue for \$14,200. The same auctioneer sold, at the Exchange, considerable Brooklyn property, particulars of which will be found in our list at foot.

At the Commercial Exchange in Brooklyn Mr. J. Cole sold on Tuesday four lots on Bedford avenue, near Putnam, for \$1,500 each.

A very important sale of Broadway property will be held on Tuesday by Mr. Harnett, who will then offer 384 and 386 Broadway, an elegant plot of ground running through to Courtland alley, the buildings having been lately destroyed by fire. A plot on Walker street, containing three brick buildings, will be offered on the same day, also one lot on the east side of Broadway, about twenty feet south of Fifty seventh street.

The Grand Boulevard and One Hundred and Tenth street lots once owned by the late Comptroller Brennan will be offered by Mr. John T. Boyd on Thursday next. These lots front on the Boulevard, and are ready for immediate improvement. The sale takes place under the direction of Rufus F. Andrews, referee, and will no doubt attract a large attendance of bidders, as both builders and speculators are anxious to secure them. Further particulars in regard to these lots can be found in our advertising columns.

An important foreclosure sale of factory property, situate on Newtown Creek, between Penny Bridge and Greenpoint avenue, Long Island City, is announced in another column for Monday. The sale takes place at the Commercial Exchange, 389 Fulton street, Brooklyn, and the property comprises about seven acres of land, with twelve buildings. Full particulars of this important sale can be found on our second page.

GOSSIP OF THE WEEK.

The most important sale at private contract made this season was closed on Monday last, when Congressman A. S. Hewitt, jointly with Mr. Cooper, pur-

chased the seventeen houses and the five-story brown stone hotel at Lexington avenue, Forty-second and Forty-third streets, at a cash valuation of \$500,000, from Thomas McManus, the builder. The property takes in the entire front on Lexington avenue, 200.10 feet, 190 feet on Forty-third and 167 feet on Forty-second street. Fourteen of these houses have five-story brown stone fronts and are French flats, each, 20x65x100; three are double French flats, 27x100. The hotel is 40x87, containing fifty-six large bedrooms, diningroom, barroom and other hotel appurtenances. It is understood that the entire property now rents for over \$32,000. In part payment of the above half million, seventeen houses on the southeast corner of Third avenue and Seventy-fifth street, fronting 102 feet on the avenue and 310 feet on street, have been transferred by Mr. Hewitt at a valuation of \$24,000. Mr. Thos. Nichols, of 95 Liberty street, is the broker who brought this transaction to a successful termination.

To sell "five houses in five weeks" is something any builder may be proud of. This is what C. W. Luyster has accomplished. His latest sale is that of No. 5 East Sixty-sixth street, 25x51x100, to Mr. Samuel Harriott, of the firm of Harriott & Noyes, 10 Wall street, for \$60,000. This sale was effected by Messrs. E. H. Ludlow & Co. Mr. Luyster has only four more houses left in the same street.

It is reported that the Williams Brothers, builders, have sold Nos. 7 and 9 East Sixty-third street, for \$105,000.

It will be seen by the transactions following herewith that notwithstanding the partially broken week more than thirty vacant lots have been sold at private contract during the past week:

Messrs. Scott & Myers have sold four lots on the south side of One Hundred and Twenty-eighth street, 225 feet west of Seventh avenue, for \$14,000.

Four lots on the northwest corner of the Boulevard and Eightieth street have been sold for \$35,000, by H. W. Coates.

Mr. W. J. Barnes has sold three lots on the north side of One Hundred and Ninth street, between Lexington and Fourth avenues, at \$3,000 each; also three lots on the north side of One Hundred and Twenty-sixth street, between Fifth and Sixth avenues, at \$18,000 (\$5,000 each).

We hear that the same broker has sold five lots on the north side of One Hundred and Twenty-third street, west of Seventh avenue, at \$2,000 (\$1,000 each).

Mr. Abraham Scholle has sold on the north side of One Hundred and Twenty-fifth street, just 100 feet west of Sixth avenue, four lots running through to One Hundred and Twenty-sixth street, making eight lots, for \$40,000. The buyer has resold them with builder's loan, for \$50,000.

It is also reported that three lots on the north side of One Hundred and Twenty-ninth street, 160 feet east of Fifth avenue, running through to One Hundred and Thirtieth street, making six lots in all, have been sold for \$3,000 each.

Six lots on West Eighty-first and Eighty-second streets, three on each street, were sold by Mr. Howard W. Coates, in January last to Mr. Fred. A. Kellar for \$31,000. The latter gentleman has just resold them for \$45,000.

Three lots on the northwest corner of Eighth avenue and Eighty-second street, one lot on the avenue, and two on the street, belonging to Mr. James I. Fisk, have been sold at private contract for \$35,000.

Messrs. Lespinasse & Friedman have sold the Devlin property at Tenth avenue and Boulevard, One Hundred and Thirty-sixth and One Hundred and Thirty-eighth streets, comprising a number of gore lots, to the Hebrew Benevolent and Orphan Asylum Society of the City of New York, for \$138,000. It is just the plot required for the erection of a building answering the purpose of this society. The same firm has sold a number of West Side lots, between Eighty-fifth and One Hundred and Tenth streets, of which, as yet, they decline to furnish particulars.

Messrs. Siegmund T. Meyer & Sons have sold No. 159 East One Hundred and Twenty-fifth street (16.8x65x100), for \$11,000, to Charles H. Sullivan. The property was owned by the New York Life Insurance Company.

Mr. Randolph Guggenheimer has purchased for Moore & Wilson, builders, twenty lots on the northwest corner of First avenue and Seventy-ninth street,

eight on the avenue and two've lots on the street, for \$107,000. The seller is Mr. John O'Connor.

Adjoining lot owners who have seen the plan of the apartment house about to be constructed on the Boulevard, corner of Sixty-second street, recently sold to Mr. Thompson, are not overpleased at the prospect of being over-topped by the proposed high structure. They are not all disposed to build towering apartment houses there, and before spring sets in they may before instituting building operations induce their neighbors to come to some understanding so as to establish a uniform plan of improvement for that important section.

Even with the approach of the winter season there is no let up in the construction of more and still more apartment buildings, especially on the East Side. Among the latest projected, are five four story brick flats, on the southwest corner of Lexington avenue and One Hundred and Ninth street, and six more on the same street about 60 feet west of Lexington avenue. In Harlem, namely, in One Hundred and Twenty-seventh street, between Seventh and Eighth avenues, several more three-story dwellings are to be erected. More brown stone flats are also projected for De Kalb avenue, East of Tompkins avenue, Brooklyn.

The following are the sales at the Exchange Sales-room for the week ending Nov. 26:

* Indicates that the property described has been bid in for plaintiff's account:

Greenwich st, No. 663, e s, 135 s Christopher st, 20x75, two-story brick dwell'g. Rudolph Neverett. (2d mort. \$1,400, 1st mort. \$3,163).....	\$5,100
Stuyvesant st, No. 46, s s, 33.4x62 7, gore, four-story brick dwell'g. W. J. Morris. (Amount due, abt \$8,870).....	9,950
Washington sq, North, No. 20, n s, 229 4 w University pl, three-story brick dwell'g and two story brick extension, with lease of lot, 31x151 to Washington alley. Lease has 21 years to run from May 1, 1873; ground rent, \$1,040 per annum and taxes. F. Frelinghausen. (Executor's sale)....	25,250
Washington alley, n s, 150 e 5th av, two-story brick stable, with lease of lot, 2x30. Lease has 21 years to run from May 1, 1873; ground rent, \$187 per annum and taxes. F. Frelinghausen (Executor's sale).....	1,000
Water st, No. 273, e s, 76.10 s Doyer st, 24 6x73, three story brick house. Helen K. Laqueer. (Executor's sale).....	4,000
14th st, st, No. 508, s s, 146 e Av A, 25x103 3, five story brick store and tenem't, and five-story brick tenem't in rear. Win. Nelson, Jr. (Amount due, abt \$12,500) ...	12,900
*17th st, Nos. 318 and 320, s s, bet 8th and 9th avs, two three-story brick dwell'gs and two-story brick stable in rear. Henry Adams. 15 part. (Amount due, about \$3,950).....	3,000
*22d st, n s, 50 7 w 7th av, 16.8x49.4. Charles A. Spalding, admr., &c. (Amount due, abt \$6,950).....	7,850
25th st, No. 27, n w cor Madison av, 3"x98 9, four-story stone front dwell'g. J. M. Munoz. Partition sale.....	79,500

Total.....	\$37,231

BUILDING MATERIAL MARKET.

BRICK.—Quite an unsettled tone has prevailed on the market for Common Hards, and while the general tendency was upward, values at times had only a nominal sort of position. The holiday made something of a break in the regular course of business, but the position was affected by influences of a more positive character. The cold and stormy weather had a tendency to diminish consumption, and the attendance of buyers was correspondingly reduced, but the same features brought a neutralizing effect in the form of diminished supply, and, indeed, to such an extent as to carry the balance of advantage in favor of the seller. The ice has not given a great deal of trouble as yet along the portion of the Hudson from which shipments are drawn, but the low water has seriously impeded the movements of boats and detained a great many cargoes intended for market. Dealers, too, in one way and another, commence to show signs of greater anxiety and would, no doubt, be willing to handle supplies for accumulation with some little freedom as the "signs of the times" have given them warning of the necessity of preparing against any sudden shutting off of communication with the primary points. The cost is not satisfactory, and, in some cases, there is a hope that a full arrival of stock may yet send the price back a considerable fraction, but receivers seem to think otherwise, and the majority predict a still further material improvement. As near as can be quoted at the moment "Up Rivers" would sell at \$7.75 readily, and might reach \$7, while in the same way Haverstraws are quoteable at about \$7.00@7.25 per M. Some few cargoes of Jerseys have been selling at \$6, with South Rivers at \$6.50 per M. Pales are about all disposed of, as there was not a very heavy amount offering, but \$3.25 per M. continues the highest figure to be depended upon. Fronts are firm in price, and about everything offering from first hands appears to be wanted.

CEMENT.—The sudden cold snap had a strengthening influence upon the market for domestic. A great many orders have yet to be filled, dilatory buyers are becoming anxious in view of the prospect of a shutting off of supplies, and available offerings are all wanted. As yet prices are unchanged, but gain strength. Foreign is in good demand, and ruling firm on all the leading brands. Recent arrivals comparatively light.

GLASS.—Demand has been quite moderate, and business rather dragging on all grades. This in connection with a somewhat increased supply of foreign has weakened prices, and large buyers could obtain better terms for imported stock. Domestic, however, is still rather scarce, owing to the deliveries on orders and sellers views firm.

HARDWARE.—A spasmodic sort of demand continues, and in the aggregate it moves quite a little amount of stocks. The wants of buyers, however, are becoming pretty well supplied, and business does not show many promising features against the balance of the year for the ordinary run of supplies. There is a fair prospect for fancy goods, choice cutlery, etc., for holiday purposes, and after this is over attention will be given to the taking of inventory, and the revision of lists in preparation for the new year. We learn of no important changes announced this week, and the general expression among dealers is steady and confident, on a basis of about ruling cost.

LATH.—There is not much change reported up to the present writing. A moderate supply has kept business rather quiet and the market nominally as before on values, with, however, all receivers speaking confidently, and evidently expecting an advance very soon. Calculations are based on supposed wants of dealers against winter distribution, and the probability of lighter arrivals, coastwise, at an increased charge for transportation. Actual consumption of late has been very fair, and more than offset the arrivals.

LIME.—There is no change on Eastern, and receivers say not likely to be for the present. Demand very good and exhausts about all the offering. On State lime there is a very strong feeling, the small amounts on hand and shutting off of water communication with primary points, giving sellers much confidence.

LUMBER.—Nothing has occurred to change the general features of the market since our last. The

supplies available during the past six weeks have proven a little in excess of expectations, we should judge, and, as has been shown, the result was to modify values somewhat, but most of the shadings were from what in reality could only be considered as extreme rates, and nothing in the way of actual depression occurred. Indeed, in their relative position to cost on primary points, prices now ruling on most of the leading descriptions of lumber afford a fair margin, though increasing transportation charges would reduce the limit somewhat to those operators who have no special freight contracts either by water or rail. Dealers, both wholesale and jobbing, continue good customers for about all the desirable supplies, and they in turn are distributing full average amounts to home consumptive sources and to meet shipping orders, the latter in part on back contract. All accounts from primary points continue strong and supporting. The boats caught on the canals by the sudden cold snap contained a considerable amount of lumber. As yet, this has not had much influence here, but is, of course, a point of advantage for the selling interest.

Spruce shows few really new "points." In a general way the seller retains the advantage, but we still notice an irregular expression among the trade, previously referred to, and from the same causes. Those who look simply for the highest price without closely calculating the possibility of its being paid when due, quote quite extreme figures, and, no doubt, based on contracts actually made, while others who think good, solid security even at rather low prices is the safest basis, name an easier range. On the average line, however, valuations do not differ greatly from our last, and the range as quoted may be placed at \$17@18.50 for random, and \$19@20 for special, with extra difficult a trifle higher.

White Pine has met with a pretty good sale in the aggregate, but it was somewhat erratic in development, and the market had an unsettled tone so far as business was concerned. On price, however, holders remained steady at former figures all around, and are offering stocks without an effort to realize. We quote \$17@19 per M. for West India shipping boards; \$23@25 for South America do.; \$15.50@16.50 for box boards; \$17@17.50 for do. wide and sound do.

Yellow Pine varies but little on special cuts, there is a showing of steadiness, though manufacturers have been known to shade off late in order to secure a desirable specification, and on random the tone is weak, even where quality is really desirable. There is a great deal of stock in one way and another available if wanted, and holders have no desire to add to it unless they secure very low cost. We quote random cargoes at about \$23@25 per M.; ordered cargoes, \$24@26 do.; green flooring boards, \$24@25 do.; and dry do. \$25@26.50. Cargoes at the South \$14@17 per M. for rough, and \$19@20 for dressed.

Fardwoods rule firm in price, and are not freely offered, but show no unusual animation. Desirable parcels of ash are scarce, and there is a steady call for white oak, but walnut a little slow. We quote at wholesale rates by carload about as follows: Walnut, \$77@85 per M.; ash, \$33@36 do.; oak, \$35@40 do.; maple \$30@35; chestnut, 1st and 2d, \$30@35; do. do. cills, \$18@20 do. cherry, \$45 @47 do.; white wood, 1/2 and 5/8 inch. \$25@27.50, and do. inch. \$33@35 do.; hickory, \$35@45 do., for Western, and \$65@75 for good nearby stock.

Shingles find little demand outside of export orders, but these are keeping up to recent average and at full rates. We quote C. press at about \$6 for saps, and \$8.50@9 for hearts; pine shipping stocks, \$4 for 18-inch, and Eastern saw grades at \$2.50@4.50 for 16 inch as to quality and to quantity. Machine dressed cedar shingles quoted as follows: For 30-inch, \$16@22.25 for A, and \$28.75@33.25 for No. 1; for 24-inch, \$6.50@16 for A and \$16.75@21 for No. 1; for 20-inch, \$5@10.50 for A and \$11.25@11.75 for No. 1.

At the yards there is a seasonable business and a firm tone on prices, and the general feeling quite cheerful.

The Iron Age of this city contains the following item :

The old practice in making boards was to split up the log with wedges, and, inconvenient as the practice was, it was no easy matter to persuade the world that the thing could be done in any better way. Saw-mills were first used in Europe in the 15th century, but so late as 1555 an English ambassador, having seen a sawmill in France, thought it a novelty which deserved particular description. It is amusing to note how the aversion to labor-saving machinery has always agitated England. The first sawmill was established by a Dutchman, in 1663; but the public outcry against the new fangled machine was so violent that the proprietor was forced to decamp with greater expedition than ever did Dutchman before. The evil was thus kept out of England for several years, or rather generations, but in 1768 an unlucky timber merchant, hoping that after so long a time the public would be less watchful of its own interests, made a rash attempt to construct another mill. The guardians of the public welfare, however, were on the alert, and a conscientious mob at once collected and pulled the mill to pieces.

From among the lumber charters recently reported, we select the following:

A schr. 323 tons, from King's Ferry to Demerara, lumber, \$9.50; a schr. 200 tons, from Mobile to Hayti, lumber, \$10, and back to New York, logwood, \$1; a schr. 207 tons, from Wilmington, N. C., to Greytown, Nic., lumber, \$2.300 and port charges; an Am schr, 192 tons, from Bangor to St. Croix, lumber, \$7; an Am schr, 230 M lumber, from St. Mary's to Barbados and a market, \$9.50; an Am schr, 179 tons, hence to Havana, lumber, \$6 Spanish gold; an Am barque, 448 tons, from Boston to Port Spain, shooks, 25c; an Am schr, 305 tons, from Boston to Barbados, shooks, 20c;

a schr. 330 M lumber, from Pensacola to Providence or Fall River, \$8; a schr. 242 tons, from Savannah to Baltimore, lumber, \$5.75; a schr. 280 M lumber, from Brunswick to Philadelphia, \$6.50; a schr. 260 M lumber, from Woodstock Mills to Philadelphia, \$7; a schr, 180 M lumber, from Jacksonville to New York, \$3.75; a schr, 141 tons, from Portland to New York, lumber, \$1.75; a schr, 175 M lumber, from Brunswick to Bridgeport, \$7; a schr, 253 tons, from Acquia Creek to Hoboken, oak ties, 18c; a schr, 300 M lumber, from Bangor to New York, \$3, and laths, 50c; a schr, 207 tons, from James River, Va., to New York, pine wood, \$3.30 7 cord; a brig, 424 tons, to King's Ferry, part cargo, and back with lumber, \$8 for the round

Exports of lumber from the port of New York:

Total.....	992,966	60,349,681

GENERAL LUMBER NOTES. STATE.

The Albany lumber market, for the week ending November 23, is reported by the *Argus* as follows:

The sudden closing of the canals and the difficulties attending shipments by the river have brought matters to a stand still in the District. The hope that the river may become navigable and remain so for some days is more likely to be realized than that navigation will be again resumed on the canals this season. This state of things has brought many parties from New York and the east into the District to look after previous purchases and to fill in what they most need. The trade is placing lumber on board vessels in the hope that it may at once go forward. It is estimated that there is about 25,000,000 feet awaiting shipment from the District or to be wintered over on owner's account. On the canals—Erie and Champlain—there is a large quantity of lumber on the way to tide-water; on the Champlain canal especially.

We have not a word from Saginaw nor from Chicago as to receipts.

Ottawa mills are all closed; the last tows left the Chaudiere last week.

The receipts of lumber by lake at Buffalo for the week were 5,127,000 feet and 80 car loads. At Oswego, 800,000 feet.

The receipts at Albany by canal from the opening of navigation to November 23d were:

	Bds & Sctg.	ft. Shingles.	M. Timber.	c.f. Staves.	D
1879..	311,160,000	10,156			
1880..	361,598,100	6,419	10,635	638,200	

THE WEST. SAGINAW VALLEY.

LUMBERMAN'S GAZETTE, Bay City.

There is no longer any doubt that the shipping season has closed; it is improbable that any more lumber will go forward by water before next spring. At the same time the mills have all shut down, or will have stopped cutting by the time our paper reaches its readers. Winter took a snap judgment on nearly everybody, and all have suffered more or less. To the shipping interests it has been quite disastrous, resulting in losses by detention and casualties, and entailing upon seamen great hardships and some loss of life. There is quite an amount of lumber left on the docks which it was the intention to get forward this fall, and some inconvenience may result from that cause. Trade will remain at a standstill until matters settle down to a certainty, when business by rail is expected to be quite brisk, dealers looking forward to a good trade. Prices remain firm at quotations, but concessions are made on the coarser stock. The range of prices is \$6, \$12 and \$28; \$6.50, \$13 and \$30; \$7, \$14 and \$32.

CLOSING DOWN.

The opinion generally obtaining when the present cold snap set in—that it would prove but a touch of winter, soon to be withdrawn—has not proven a correct one. At this date there is every indication that the reign of the frost king has begun in earnest, and the time for active operations in the mills is at an end. In fact, work has already ceased in nearly all the mills along the river. Notwithstanding the premature closing of the sawing season, by which the cut has been curtailed some 20,000,000 feet, the lumber product of the Saginaw Valley for the season of 1880 will be found to be exceedingly large, when the figures are compiled—a work the Lumberman's Gazette will shortly accomplish. The estimates made by some of the mills which have shut down show that there has been a large increase over 1879. The product of 1880, in this district, will not be far from 75,000,000 feet, an increase over last year of some 50,000,000 feet. The detailed statement will be given as soon as the exact figures can be obtained. It seems probable that, notwithstanding the large shipments of the season, there will be left over unsold a larger amount of lumber than at the close of the season of 1879. It will be of the coarser grades, which have been slow of sale. Should it be as much of a drug next year as this, the accumulation may have a depressing effect on the market. The proper way to prevent such an outcome is to exercise greater care in the selection of timber this winter, to the end that a better quality of stock may be secured for next season's cutting. Taken all in all, however, the season of 1880 will be regarded by the manufacturers of lumber as one of unvarying success. The average

price realized has been nearly two dollars per thousand feet greater than last year, while the additional cost of manufacture has not been to exceed fifty cents. Of course, the increasing value of stumpage must be considered when profits are being counted. The season closes prematurely, but not much fault will be found therewith, as the result will be to merely transfer operations to the woods.

LUMBERMAN AND MANUFACTURER, MINNEAPOLIS, Minn., }

The supply of lumber at the several river markets from St. Paul to St. Louis is considerably less than at the close of the season last year. At St. Louis stocks are at least 15 per cent. less. Hannibal will stop with approximately 50,000,000 feet on hand. Quincy has a fair stock. Burlington will fall short. Muscatine will have no surplus after supplying her trade. If Duvenport can get cars to ship on she will have to sort up her stock early from Wisconsin or the lake to hold the trade. Clinton and Lyons have hardly an average stock, and are not pushing the market. Dubuque stocks are light. La Crosse has barely reserved lumber enough to supply the Southern Minnesota line, of which she has the monopoly. Winona is as well fixed as any town on the river with an assortment, but has no excess. St. Paul is looming up as a lumber market under the influence of the new lumber line. Many Wisconsin mills are represented there besides the St. Croix firms. Minneapolis stocks are not so well assorted as usual because of the large amount of timber sawed which demoralized assortments.

The stocks on the river are being reduced 6,275,000 feet per day. This estimate is based on reported shipments, including the shipments through St. Paul. The stocks on hand cannot be figured up to 700,000,000, including the reserves held in Wisconsin. This disposes of all question of a drop in prices, unless Chicago wants to indulge in another frolic. Business on the river is practically suspended, and rafts being put into winter quarters, and no more sales or deliveries will take place. The season closes with piece stuff at \$10.50@11, and boards and strips at \$12@12.50 at St. Louis.

The weekly review of the general situation by the Northwestern Lumberman furnishes the following:

The past week has been a cold one, and at this writing it would look as though winter had set in for good. We can scarcely credit that the season has really reached its close, and shall feel much surprised if we do not enjoy a couple of weeks yet of open and at least moderately favorable weather. Still, the approach of winter has its influence upon trade, and the condition of things existing when many of our correspondents closed their letters, must be modified by the fact that for the past forty-eight hours the thermometer has been at or about zero throughout a goodly portion of the entire North.

Philadelphia advices are to the effect that the mills of Pennsylvania are in full blast, and while the cut is scarcely available for the trade of this fall, will supply the winter demand from the Southeast to a goodly extent. Prices hold firm and trade is good.

From Maine we learn of good water for sawing; logs arriving at the mills freely; a demand for lumber which cannot be supplied this fall, with prospects for only a moderate stock of logs to be cut for next year.

Canadian advices represent a good local trade at Toronto, Montreal, and Quebec, and a good shipping demand from Ottawa, Toronto, and other leading shipping markets; no great stocks yet on hand to be forwarded and freights advancing. Probably with a continuation of the present weather for a few days no further attempt will be made to forward stocks.

Westward, the cold weather has brought matters to a standstill, vessels are laying up at all the lake ports, and while the lumber stocks are reasonably full at all, there is little disposition to pay freights on the basis of \$5 per day wages to seamen, as is now being paid from Buffalo.

At Saginaw the mill hooms are frozen over and the mills are shutting down, and unless a speedy change in the atmosphere should occur, the sawing season will close with most of them with this week. Mills cannot run to advantage with the logs frozen in the booms. In the woods of Michigan, a heavy snow storm, some days ago, gave a good foundation for the action of frost, and the present cold snap has given good roads to those who were prepared to break them. Vessels still navigate Lake Michigan, but are laying up as fast as they can reach port, except when mill supplies are imperatively demanded, and must go forward. From the Mississippi we learn that the cold snap has severely affected manufacture, but that it has lent an inciting interest to the demand for lumber, and sales are being made more freely than cars are being supplied to carry it. Prices at all points are well sustained.

EASTERN LUMBER FREIGHTS, FROM NOVEMBER 1.

N. Y., per 100 lbs.	35c	Buffalo and Pittsburg. 20c
New York points.	35c	New Haven, Ct. 40c
Albany.....	32c	Providence, R. I. 40c

Washington.....	32c	Sandusky..... 19c
Richmond, Va.	42c	Detroit and Toledo... 18c
Wilmington, Del.	33c	

The minimum weight on 33 feet cars is 24,000 and on shorter ones 20,000 pounds.

The Northwestern Lumberman has the following on Hardwoods :

The present quiet condition of trade will probably continue until after the holidays. There is not the least probability that the let-up is of a permanent nature; on the other hand the indications are that at the beginning of the year the demand will increase

as most of our woodworking industries are running full handed, and many of them will extend their capacity. Prices are as firm as a rock, and while the stocks of all kinds of hardwood are very low, one, to obtain some grades, would have to make a tedious hunt. We have repeatedly heard 1 inch dry, white oak called for, but have not yet heard a dealer say he could furnish it. In the whole catalogue of hardwoods, the kind and grade most easily obtained just now are the higher grades of white wood. As we have previously stated in this department, any quantity of culls would find ready sale, but the calls for clear are fewer than heretofore, and the facilities for furnishing it are improved. Considerable maple has come to hand during the week, and we notice several piles of oak just from the saw.

Last week we noticed the advance in walnut in Indiana, and since then we learn that some mill men are readily selling common at \$55, the same price it is now sold for in this city. At present prices, large quantities of walnut will be cut in that state, several tracts which have been held as a speculation, having been put in the market. Some of the most intelligent dealers in the state inform us that in their opinion the time to sell walnut has come; if held for much higher prices, mahogany will supersede it. But we have not heard one of them put the question: Is it likely that enough mahogany can be obtained to take the place of the walnut that is now used? If the writer of this report owned a tract of fine walnut timber, he would like to feel as sure of everlasting life as that a fair profit would be realized on the investment by the sale of the timber 10 years from now.

In the large cities of the East the demand for mahogany is increasing very rapidly, and manufacturers of fine goods state that more than one-half the goods now made by them are of this kind of wood. The cost of furniture, in the frame, in mahogany, is 25 per cent. more than black walnut. During the month of October, 20 cargoes of mahogany were landed in New York, and the demand is greater than the supply. During the last six months, as many logs were received in Boston as for the two years preceeding those months.

In Quebec oak for next year's delivery is sought for at 48 to 50 cents. Ash is in great demand, and good elm is wanted. No staves are offered, and shippers are holding very few in hand.

THE EAST.

The Boston Commercial Bulletin reports:

The market for Western lumber is only moderately active, though this week shows an improvement over last. It is evident that many of our dealers have supplied their immediate wants, but receipts are not large and stocks are far from excessive. There is a fair movement in Eastern lumber, but many do not readily respond to the present ruling prices.

THE PROVINCES.

The Industrial World has the following on the Quebec market:

No sales to report of Ottawa or St. Lawrence timber this week. The few rafts now in market are being held at very high rates. There is a fair demand for local consumption, and timber has been placed at 14 to 17 cents, according to size and quality. There is at present very little timber in the St. Charles River, the usual place for which supplies are drawn for winter consumption. Good and fresh red pine is in demand, but very little is held in the hands of the manufacturer. Oak.—Sales for next year's delivery continue to be made at about 48 to 49 cents for Michigan, and 49 to 50 cents for Ohio. Good rock elm is in demand; also, good Western ash, the latter being exceedingly scarce. Deals.—The large transaction in deals that we reported some days ago, has been fully confirmed—\$112 to \$115 for firsts, \$75 for seconds and \$40 for thirds. We hear of other sales at \$160 for firsts, \$70 for seconds and \$38 to \$39 for thirds. Spruce for next year has also been contracted for at fair and paying prices. Staves.—The market is bare of staves and good lots to arrive early will be easily disposed of.

New Brunswick papers give some interesting particulars as to the probable extent of lumbering operations in that province this winter. The following estimates are taken from the Chatham (Miramichi) Star: Messrs. Woodman & Miller will get out about 16,000,000 feet this winter. The chief contractors for this will be Joseph Hayes, 7,000,000; J. Yerxa, Hammond & Watson and others, the balance. Messrs. R. & H. Stewart will get out about 20,000,000, for whom Mr. W. Richards will be the chief contractor. G. B. Dunn & Co. will get out about 8,000,000. Hayford & Stetson will get also about 8,000,000. Jewitt will get out about 9,000,000, his chief contractor being J. Hayward. Lesser contractors will get from 2,000,000 to 4,000,000. Guy, Bevan & Co. will get between 20,000,000 and 30,000,000 probably, but the extent of Muirhead's, McLeod's, Morrison's, Richard's or Snowball's operations, it is not easy to determine at present. It would appear that all the "drives" on the Miramichi have been successfully gotten out this season, and the mills are running briskly.

FOREIGN.

The Rio News, just at hand, reports:
Pitch Pine.—No arrivals. Market firm at 38\$000—39\$000 per dozen.
White Pine.—No arrivals. Market firm at 110—113 reis per foot.
Spruce Pine.—No arrivals. Prices nominal.
Swedish Pine.—The cargo of 919 dozen per Union, noticed in our last, was sold at 35\$000 per dozen.
Since then one cargo has arrived, viz: the Hyartan from Westerwick, which is not yet sold

NAILS.—Demand is uncertain, the volume at times running quite full and then falling away again to small proportions. The general movement, however, is not very large, and in the main covers only the ordinary run of trade wants. Prices show the old irregularity, and to cover all sales the line of quotations may be placed at \$2.75@3.00 per keg for 10d. to 60d. The manufacturers recently held a meeting in this city, but took no action to establish a regular line of prices, and there is in consequence no official "list" at the moment. Among other fair exports this week were about 1,675 kegs to China and Japan.

PAINTS AND OILS.—Only a moderate and quite uncertain demand reported on the general market for paints, and nothing of special interest to add to previous reports. Importations and production have been gradually adjusted to the diminished wants of buyers and this prevents any serious pressure to realize, and helps adjust values for most grades. There is, however, occasionally some indications of weakness, and we again hear rumors of "cutting" on the price of leads and zincs. Linseed Oil has been held about steady, and no heavy surplus of stock offered, but the demand proved only fair, and buyers could rarely be induced to handle more than the jobbing parcels required for immediate use. We quote at 56@62c. from crushers' hands, according to quality.

PITCH.—The demand moderate and somewhat uncertain, with the call entirely from regular sources. Supplies full enough for current wants, but not urged. We quote at \$2.25@2.36½ per bbl. per city delivered.

SPIRITS TURPENTINE.—Jobbing movements have been fair but not unusually active, the cost tending to check demand somewhat. From first hands the distribution was a trifle larger and at full rates, as a rule, holders keeping the stock under good control, and gaining confidence through the favorable advices from primary sources, though of late there has been a slight weakening. As this report is closed, the quotations stand at about 45@46c. per gallon, according to the quantity of stock handled.

TAR.—Supplies moderate, well under control, and holders quite firm at full former rates. The demand pretty well up to the average, and meets sellers views readily, buyers finding it useless to resist. We quote \$3.87½@4.00 for Newberne and Washington, and \$4.00@4.12½ for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows: 1st—Q. C. is an abbreviation for *Quit Claim deed* i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing *Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.*

ALPHABETICAL INDEX.

NOTE.—Names in SMALL CAPITALS convey property from husband to wife.

NOTE.—The new rule of the Building Department, requiring that all permits shall bear the affidavit of ownership of the owner, and the authority of the same to the persons appearing upon the document as architects and builders, has elicited some inquiry as to its purpose. It has been adopted simply to protect the Department and the owners against frauds that have been practiced in the past by the insertion of fictitious names as owners in the plans. Very often justice has been baffled where violations of the law have occurred by reason of these insertions of fictitious owners. Suits instituted to compel compliance with the law have been dismissed on the ground of non-ownership of the defendant. Again, instances have occurred where parties without a shadow of authority have altered the recorded plans for work—to the actual detriment of the owners—and this new rule stops all such tampering with the documents. The Department does not require to know how a person acquires his title, or what manner of title he has, so long as he can attest his ownership.

KINGS COUNTY, N. Y.

Plan 886—Pulaski st, No. 384, one one-story frame stable, 18x25, gravel roof; cost, \$100; owner, Mr. A. O'Connor.

MISCELLANEOUS.

SPECIAL NOTICE.

J. H. Serene, 4 and 6 Peck slip and 310 Pearl street, has obtained the contract for Soap Stone Fire Places, for the Capitol at Albany. Mr. Serene is now supplying soap stone by the cargo, and is furnishing some of our largest manufacturers with Soap Stone Base Burning Stoves, he has also supplied some of the largest apartment houses in New York and Brooklyn, with Stationary Wash Tubs. Soap stone is now indispensable to manufacturers for furnishing fire places and stove linings.

DIRECTORY OF

RELIABLE REAL ESTATE AGENTS.

We have carefully investigated the responsibility of all Real Estate Agents named in this Directory, and find them to be in every way competent and responsible. We therefore recommend them to capitalists and real estate operators generally as being the best agents to be secured in their respective section, as shown by letters from prominent business firms, which may be seen at the office of the REAL ESTATE RECORD.

WHAT WILL THE CONSERVATIVE RICH DO?

There can be no reasonable doubt but that the whole world has entered upon an era of cheap money. On all the bourses of Europe it is expected that all government debts will be refunded at lower rates of interest. In this country we have seen money ruling at two or three per cent. during a period of great business activity, at the very busiest season of the year. There is here and, apparently, all over the world, a plethora of new money; that is, capital seeking profitable investment and eager to take less than the old per centage.

The cheap money is due to a variety of causes. The general use of the telegraph is one. Before steam, money had to be transferred in bulk from point to point; and during the time of carriage was lost to the commerce of the world. Steam added to the abundance of available money by increasing its portability; that is to say, it could be used ten times, where formerly it could be employed only once. Then came the telegraph, which has made the money of one part of the globe immediately available in every other part. Then all the improvements in the instruments by which commerce is transacted, have helped to add to the volume of available money. The bill of exchange, the draft, the check, the dealing on margins, all tend not only to increase the volume, but to economize the use of money. The resumption of specie payments in this country has added to all the paper previously afloat some \$612,000,000 of bullion coined, or available for coinage.

And what has been the result?

An advancement of values, of which we have only seen the beginning. All the active stocks doubling up in price, and soon merchandise will feel the inflation, to be followed by an immense rise in realty. A well-known Wall street banker intimates that the next five years will see an addition to the price of well-located farm lands in this country of fully thirty per cent. This rise in values will give an enormous impetus to trade of all kinds, and insure us good times for several years to come.

But is there no other side to be considered—will everyone profit by the advance in prices and in cheap money?

Clearly not.

A very worthy class will be seriously incommoded, if not injured, by the enhancement of values and the difficulty of finding profitable employment for money. We allude to people of fixed incomes, including government officials, army and navy officers, widows, orphans and conservative investors in government and gilt edged securities.

Nominally, some of these classes will be better off. What they have in property will be represented by larger numerals. But their expenses will be greater, due to the rising prices. Their incomes will be less, because of the lowering of the rate of interest.

All this will result in adding to the productive forces of the country, for it will cause the retention in business and the re-entry into business of heads of families who will not, without a struggle, see their standard of comfort lowered. Many young men, who supposed they had securities which would ensure them an income from \$5,000 to \$50,000 per annum, will be prevented from living an idle life by the reduction in their income, occurring simultaneously with the rise in prices. Periods of inflation are useful, because they set the whole social hive at work. Periods of contraction are unfortunate, in so far as they add to the value of money, which, in effect, make the rich richer and the poor poorer.

A GRAND OPERA HOUSE IN RESERVOIR SQUARE.

While the directors of the Academy of Music are endeavoring to secure the Madison Square Garden plot by lease or otherwise and while an effort is being made to induce the directors of the new opera house to abandon the idea of building on Vanderbilt avenue, the city of New York might for once go out of its way and do something for art. Reservoir square is nothing but a playground for noisy schoolboys to-day, and a virtual nuisance to those compelled to cross it occasionally. Let the city donate this ground, which can be done through act of Legislature, for the purpose of erecting a grand opera house. See what Paris has done in this respect, and all France to-day is proud of the noble structure devoted to music that ornaments its capital. We must once begin to do something for the promotion of art in New York, and we might as well begin now. The corporation, by its liberality, has filled our up-town streets and avenues with hospitals for the lame, sick and halt. It is time that those who possess "sound minds in sound bodies" should receive some favor at the hands of New York City's government. The area here pointed

out is the most central for the purposes indicated. The square has a frontage of four hundred and sixty feet on Sixth avenue, and a depth of five hundred feet. Strictly speaking, all that is required for a grand opera house is only 200x250, and a building of this size would not interfere with the idea of turning the remainder of the square into a plaza. Adjoining property owners would gladly favor any movement of this sort, and Forty-second street especially, already containing prominent hotels and clubhouses, would then, indeed, become the great connecting link between the residences of the wealthy and the centre of the city's places of amusement. Is there any alderman disposed to submit a proposition of this sort? If so, it can be acted upon at the legislative session next month, and those now anxiously discussing the propriety of building two rival opera houses may find it to their interests to "pool their issues" and expend their spare funds upon the building proper that ought to be, indeed, a credit and ornament to our city.

THE FRESH BLOOD IN THE REAL ESTATE MARKET.

It is not often that the queer legislation of one State of our Union favors indirectly particular interests in another State. And yet such is, indeed, the spectacle presented to us in this city to-day, by the advent of leading capitalists from the Pacific. We have heretofore shown how the attractions of our metropolis, its parks, drives, opera houses, club houses and general vivacity, were drawing moneyed men from other states to our city. We find, however, that in addition to our own local attractions, other causes, notably the new tax laws of California, have been depriving that flourishing State on the Pacific, of the power, strength and influence naturally following the accumulation of wealth. Under the State laws for instance, recently enacted in California, under the new, extraordinary constitution, several wealthy men after having paid a general tax, which was already fifty per cent. higher than those in the city of New York, had to submit to a special tax, and therefore found it necessary to place their personal as well as their real property in some other states.

Already Mr. D. O. Mills is a resident of the Fifth avenue, and claims by right New York as his residence. Mr. Crocker, the second largest tax payer in San Francisco, having paid tax on over nineteen millions of dollars there, now also claims his domicile in New York. He considers the tax imposed upon him in California as unwarranted and regards the laws in said State as they now exist, unprecedented and unreasonable. The special tax levied on him last year was over

one-half million of dollars, both on his personal and real estate, and the result is that though, as yet, he only makes his headquarters in one of our leading up-town hotels, he will ere long be known as the owner and occupant of the grandest private mansion along our leading avenue. Mr. Crocker's house in San Francisco was one of the largest and best appointed houses there, and he does not intend to be eclipsed, even by the Messrs. Vanderbilt, when he begins to build. Mr. Wm. H. Belden has within a year and a half disposed of so much of his property in California as he could find a market for, and since that time he has purchased several parcels—all excellent business property—in Greene street and Spring street.

But not only from California comes this extraordinary influx. People from Colorado and Nevada are flocking hither also. Even in other Western States there are a large number of people disgusted with local laws and anxious to come and settle in this vicinity. Of the eminent California firm of Stanford, Crocker & Sharon, as we have shown, those who are able to get away do so as soon as they possibly can. Even Mr. Chaffee from Denver, Colorado, has bought in Fifty-eight street a fine residence for \$53,000. Mr. J. W. Mackey, it will be remembered, made an offer for the Bonner block on Fifth avenue, between Fifty-sixth and Fifty-seventh street last year, but owing to the interference of others the purchase came to nought at the time, but when he returns from France with his family he will, no doubt, secure a very eligible block for his private residence.

Aside of the business centre which this city now offers, and of which the Pacific slope men have taken excellent account during the past few months, the advantages of society here presented, the very great opportunities for comfortable winter residences so easily exchangeable for temporary relaxation at the sea beaches during the summer season, all these combined have made and are making New York the great concourse, so to speak, not only for the new rich men of Denver, Chicago and Cincinnati, but also for the Bonanza kings of what was once the El Dorado of the Pacific. There they have made their millions upon millions, but while the fatuity which dictates "the killing of the goose that lays the golden egg" prevails there, the millionaires cannot be blamed for seeking more congenial sections and less oppressive laws.

We bid welcome to them all. They need our lots and our houses, and let the reason of their departure from the Golden Gate be an everlasting lesson to our own State legislators that laws though enacted under the excitement of public clamor, may possibly result in permanent injury to the commonwealth.

Our readers will remember that the Haggerty estate was auctioned off recently under a partition sale. Although the prices seemed good, real estate men regarded them as low. The sale was a forced one, so far as the heirs were concerned, as they did not want to sell the property and were not able to effect

any combination to buy it in for the family. We now hear that the heirs cannot re-invest the money realized from the sale in any security that will bring them the same interest. The result of this and other recent sales shows that well located, improved real estate in New York pays double the interest of any of the sure securities on the market. There is a reasonable certainty of seven per cent income from rentals in real estate, while Governments only yield half that amount, and stocks that are dividend paying and secure, not more than sixty or sixty-five per cent. of that return. The investing public is beginning to find this out, and hence the general belief of a rising market for real estate.

IS THERE DANGER AHEAD?

The *Commercial Bulletin* thinks there is. It views with alarm the rise in prices all over the world; and it seems to think that the break may first occur in conservative France. The *Bulletin's* judgment is entitled to much weight, but still it has been mistaken before and may be again. Early in the season it predicted that the flow of gold to this country would soon cease, and it gave several excellent reasons for thinking so. It showed that the exchanges between the United States and the rest of the world pointed rather to an outflow of gold from this country, and the figures it gave certainly had that appearance. There was, however, a factor in the case which the *Bulletin* overlooked, viz., the large sums of money sent to this country for the purchase of securities and for investment in railway enterprises. It is this which has kept the golden tide flowing to our shores, and not the excess of exports over imports. Now, we apprehend that the gloomy vaticinations as to the future of prices, may result from overlooking some factor in the financial situation, but which we have tried to point out in another article in this journal, under the title of "What will the Conservative Rich do." But the following extract from the *Bulletin* is worth the consideration of business men:

There is sufficient in the state of financial affairs at this and the European centres to put prudent men of business on the lookout. From the extreme of depression that followed the great collapse of speculation in 1873, the financial centres are, in turn, borne along by a reaction that has already reached a higher pitch of inflation than was attained during the wildest periods of the antepanic expansion. On our own Stock Exchange the prices of securities have reached an elevation unknown in the most excited of past speculations. There is the strongest possible reason for concluding that the present prosperity of the railroads will of itself bring about a severe reaction against them, and that probably at an earlier day than the present buoyant temper of Wall street would admit to be possible. The temporary profits accruing under the pool system of management are already inducing an extension of railroad construction far surpassing that which occurred during the mania that exploded in 1873. Not only has the debris of ruined companies left by that convulsion been rehabilitated and extensively disposed of to the investing public at enormous profits, but entirely new projects on a magnificent scale are undertaken, which also meet with ready support from speculators or investors. The immense gains on operations of this character and on the rise in securities of all kinds are reinvested in new speculations, and thus the mania grows by the intoxication which itself produces.

In Europe we find very conspicuous traces of a like drift of finance. At London it is apparent in consols at 100, in a general extreme rise in the price of securities, in large importations of Amer-

ican stocks at their current extraordinary prices, and in a free invitation to the projects of "promoters" and State borrowers. At Paris there has already been an extreme rise in the price of the most solid class of investments, and yet the upward movement continues. The changes in values on the Paris bourse since the beginning of 1879 are indicated in the following comparative quotations for leading securities:

	Nov., 1880, Francs.	Jan., 1879, Francs.
French 3 per cents.....	85.97½	76.80
Austrian gold 4s.....	74.80	63.20
Egyptian Unified.....	341.25	259.
Russians, 1870.....	89.50	84 87½
Bank of France.....	3,570.	3,095.
Bank de Paris.....	1,150.	700.
Credit Foncier.....	1,360.	813.75
Paris Gas.....	1,260.	1,257.
Suez Canal.....	1,293.	725.
Northern Railway.....	1,691.	1,390.
Western Railway.....	822	753.
Orleans Railway.....	1,245.	1,165.
South Austria Railway.....	185.	151.25

The large rise in prices here shown, however, very imperfectly indicates the real condition of speculation at the French capital. The danger to Paris lies not so much in the fact that the best class of investments are abnormally high, but in conditions far more serious. For some time past, French speculators have been creating companies for all sorts of chimerical purposes and with very large capitals. The issues of these associations have been taken very largely by the promoters, with the help of banks doing a large speculative business. These issues have been manipulated on the market so as to give them an artificial premium, and in this way vast amounts have found a speculative currency. The banks of Paris are today stuffed with this comparatively worthless script, and their commitments of this kind compel them to run with the wild current of speculation that controls the bourse. France is consuming in excess of her production, as the great change in the relative amounts of her imports and exports clearly show. Hitherto she has been able to adjust the unequal balance by selling securities to other countries, or by borrowing; but at last a point has been reached at which her stock of gold has to be freely drawn upon for making these settlements. These facts foreshadow an inevitable crisis, sooner or later, at Paris; and it would not be surprising should that usually calm centre prove to be the starting point of a reaction that will check the rampancy of speculation the world over.

Such being the condition of affairs at the three principle financial centres of the world, it may be well to consider how far existing monetary conditions are calculated to support it. Under the banking arrangements existing in the several countries, the prices of securities and the facilities affordable to speculative movements very largely depend upon the supply of coin in the banks, and—since the depreciation of silver—upon the supply of specifically gold coin; for no matter what may be the coinage system of any country, if its banks could not now pay in gold they would be regarded, for all practical or international purposes, as virtually in a state of suspension. What, then, is the present position of the gold supply? Within the last three years, there has been a complete reversal of the current of the precious metals. For many years up to 1877, we had annually made a net export of specie averaging about \$55,000,000, of which about \$35,000,000 was gold and \$20,000,000 silver. According to this ratio, we should, in the ordinary course of affairs, have exported about \$110,000,000 of gold from January 1st, 1877, up to the present time. In lieu of that, however, we have made, within that period, a net import of \$127,000,000 of specie, principally gold. Thus, between the loss of imports on the one hand and the exports to the United States on the other, it may be said that, within the last four years, Europe has been deprived of \$225,000,000 of its customary supply of gold. There is no remaining element of elasticity in banking at any one of these points; and yet speculation has run up values to the highest point of tension ever reached. It is not difficult to see what may be the result of such a state of things the moment any accident puts a sharp strain on the financial machinery.

The *Bulletin* leaves out of view the greater abundance of money throughout the world, due to the telegraph, its utilization by financial devices, and more than all, by the increased production and use of bullion in every nation, especially the United States. We have entered upon an era of cheap money, and nothing but renewed action by several important governments, having in view the demonetization of either gold or

silver, is likely to reduce prices. It is well to heed storm signals, even if you think that the weather is to continue favorable.

THE MONEY IN CIRCULATION.

We have repeatedly pointed out the connection between prices and the volume of coinage afloat. Writers on financial topics are apt to overlook the connection between the one and the other. The following official figures of Comptroller Knox have been published :

	Jan 1, 1879	Nov. 1, 1879.	Nov. 1, 1880.
Legal Tender Notes....	\$326,681,016	\$346,681,016	\$346,681,016
National Bank Notes.....	323,791,674	337,181,418	343,831,107
Gold coin and bullion . . .	278,310,126	355,681,532	454,012,030
Silver coin and bullion.....	106,573,803	126,009,536	158,271,327
Totals.....	\$1,055,350,619	\$1,165,553,503	\$1,302,798,480

This shows that since resumption the national bank currency has increased over \$20,000,000, while the stock of gold has been augmented \$176,000,000, that of silver nearly \$52,000,000.

Nor is this all.

If, from the total amount of currency coined in the country, the amount in the treasury and banks be deducted, the remainder will give the amount of each kind in the hands of the people, outside of these depositories as follows :

	Jan. 1, 1879.	Nov 1, 1879.	Nov. 1, 1880.
Gold	\$119,629,771	\$149,419,016	\$200,379,519
Silver	67,693,895	67,238,714	73,798,701
Currency.....	425,907,051	481,973,478	534,326,898
Totals.....	\$613,230,717	\$698,617,218	\$808,505,118

Thus, it appears that since resumption the actual circulation in the hands of the people has increased over \$195,000,000.

This tells the story of the enhancement of prices and the activity of business during the last two years. It also emphasises the folly of the demand for a single gold unit of value ; for, if silver was demonetized, it would involve a contraction of over \$156,000,000, in other words, it would bring widespread disaster upon every industry in the country.

The true policy of the nation is to use all the gold and silver that can be utilized in the currency, and issue all the paper that can be kept afloat and be convertible. That would give us good times for a decade.

SMALL BILLS AND COIN CURRENCY.

Secretary Sherman has not dealt fairly with the country in the matter of the silver dollars and the coinage of small gold pieces. Under the provisions of the resumption act, when the time of specie payments arrived, the national banks were to be prohibited from issuing notes of less denomination than five dollars. The intention of the law makers was to utilize our gold and silver bullion in the retail trade of the country, room for them being made by the withdrawal of the one and two dollar bills. On the first of January, 1879, the national banks had outstanding of one and two dollar bills \$7,748,747, since that date one and two dollar bills have been withdrawn to the amount of \$4,219,025. If the national treasury had co-operated with the banks and had also withdrawn one and two dollar notes, we would

to-day have been using nearly sixty billion of gold and silver coins in the retail trade of the country. Of one and two dollar green-back notes there are it seems nearly \$48,000,000 afloat. Instead of withdrawing these small notes when the bank notes were being cancelled, Secretary Sherman increased their issue three million five hundred thousand. It really seems as if the treasury department was used to keep up the clamor about the excess of silver dollars. Of course, the silver dollars could not have remained in the treasury a day if the one and two dollar notes had been withdrawn from circulation.

The Latin Union, with a less population than the United States, has coined and keeps afloat 600,000,000 silver five franc pieces, whereas we have coined less than \$80,000,000. It is very desirable that we should use all the gold and silver possible in our retail traffic ; we are a bullion producing nation and we should encourage its use at least to as great an extent as do France and Germany and Great Britain, neither of which have gold or silver mines. But Secretary Sherman persists in gorging all the channels of trade with small bills, while he encourages the coinage of gold double eagles, which no one wants, and declines to furnish eagles and half eagles, which could be used in the payment of small sums of money. If we do not use the gold and silver in our possession, it will eventually leave our shores for localities where it is in more demand.

FINANCIAL NOTES.

The stringency of money was to have been expected, and we have repeatedly in these columns pointed out the possibility of trouble in the stock market during December. Towards the close of the year local taxes are paid ; farmers lay in their supplies and market their crops. All this calls for the active use of money, and withdraws it from the centers. At the present moment all the domestic changes are against New York. The following from a recent issue of the *Chicago Tribune* is worth reading and noting :

"The shipments of currency from Chicago to the country were enormous last week, and those best able to judge estimate the present exodus of money, almost all of it gold, at not less than \$1,000,000 a day. Chicago is drawing this gold from New York, which in its turn is drawing it from Europe. The New York speculators are basing their expectations of higher prices in part on the return flow of this money to New York in the spring, as usual. We venture the prediction that there will be a good deal of disappointment about this return current. This gold has not been loaned to the West, it belongs to the West, and a great deal of it will stay on the land that produced the wheat and pork that paid for it. The experience of last spring, when the money that had been sent into the interior was expected back but did not come, will be repeated this spring. The West is no longer the borrower it used to be. Its capital has increased enormously. It has become a veritable sink of money, and is to-day accumulating and hoarding more specie than any other part of the world. Loans are in more active demand. Banks that have been glad to lend on stock collateral now decline to make any further discounts of that nature, as they wish to keep their funds for the accommodation of their regular business customers. The Chicago banks have probably little, if any, surplus now that could be loaned to Wall street, which last year secured several millions of Western money for its speculations. The packers are borrowing much more heavily than a year ago, but the supply of commercial paper has not greatly increased."

We announced in these columns over a

month since that the Standard Mining Company would declare an extra dividend this month as a Christmas box for its shareholders. The directors have advertised a double dividend. Instead of seventy-five cents a share, a dollar and a half will be paid on the 14th of December. Yet the stock of this mine sells for only twenty-three on this market. Mr. Charles Quincy, of the firm of Heath & Co., has just returned from a visit to the Standard Mine of Bodie, and he reports, it is said, five years' dividends at \$9.00 per annum per share in sight.

The Mining Market continues dull. A movement is promised in the Big Pittsburg. The property is heavily founded, but is well located, and no doubt has a great amount of carbonate ore which will be developed as soon as worked.

CALIFORNIA IN WALL STREET.

AN OFF-HAND TALK.

Operator—I tell you, sir, that this booming market is due to the Californians. It is their new blood on our Exchange which has taken away the control from Jay Gould and Russell Sage. Jim Keene was the first of these Pacific slope fellows to come here, and he made his mark at once. It was he who made the combination to keep up the price of stocks in the face of the labor riots of 1877. True, he had Gould's and Sage's help to perform that feat. But he has since paddled his own canoe, and has more than held his own down to the present time.

Outsider—But was not Keene roughly handled last spring ?

Opr.—Yes; the story goes that Gould, Cammack and Woerishoffer nearly cleaned him out because of Keene's embarrassments, due to his operations in wheat, cotton and other outside ventures. But Gould scored his last success against Keene when he drove Jersey Central down to 45 last May. Since then Keene has had the best of it every time.

Out.—What other Californians have made their mark in the street ?

Opr.—D. O. Mills, for one. He came to New York with a gigantic fortune to begin with, and made his connection with Vanderbilt and the New York Central crowd. He is the one operator who has never lost a cent on any venture in this market.

Out.—Surely that is rather an extravagant claim to make on behalf of any buyer and seller of Wall street stocks, which fluctuate so widely and so extremely !

Opr.—If a very rich man loses money in Wall street, it is because he lacks nerve. Whether he is a bull or a bear the time always comes when he can make a profit if he holds on to his stocks and can keep his margins good. Undoubtedly the market must have been against D. O. Mills last spring, but he held on and made money, as I have said before, on every venture.

Out.—Who else on the Pacific coast has made money in this market ?

Opr.—Huntington, of the Central Pacific, and all his associates. Then there are swarms of minor operators who follow these leaders, and who have been generally very lucky. These Californians have been trained in a school which calls for great nerve and quickness. The fluctuations on the Comstock have been so violent that the operators there do not get panic-stricken at a fall of a few points. Certain it is that to-day it is the Californians who are among the leaders of our market. The Northern Pacific deal and syndicate, which is to embrace the St. Paul, the Oregon Navigation Company, as well as the Northern

Pacific, was a California conception; and the profits will inure to Pacific slope operators. It was Californians who built the Central Pacific road; or, perhaps, it would be more correct to say it was they who got the United States Government to build it and make it a present to them. It is the Californians, with the aid of some Bostonians, who are now constructing the Southern Pacific road; and mark my words, future railway combinations and consolidations will binge on the Northern Pacific line, extending from Puget Sound to the lakes, or on the Southern Pacific, extending from San Francisco to Norfolk.

Out.—Well, I supposed that Gould will have the monopoly of the Union Pacific and its eastern connections.

Op.—Yes; but don't you see, west of Omaha he is at the mercy of Californian capitalists. He has no through line. Nor has he yet made any connection between Toledo and the Atlantic coast. Jay Gould will be at a disadvantage in not having a terminus to his system of roads on either the Atlantic or Pacific oceans. Luring the recent rise of values the roads that profited were those which could form connections with the Northern or the Southern Pacific.

Out.—You think Gould has lost money then?

Op.—Gould is naturally a bear. He was in his element during the hard times. He is a man of great courage and shrewdness, but he is sickly and apt to take gloomy views of the future. When resumption took place, Gould was convinced it would be a failure, and he bought gold largely, expecting a rise in the premium after January 1, 1879. He was caught short of New York Central, and his shortage of Northwest would have broken him two years ago were it not for the good offices of Russell Sage. The syndicate which was formed to take his Union Pacific stock got him out of the Northwest scrape. Usually he has had wit enough to change with the turn of the tide. But he was a bear last spring, and has continued so up to the present time. He and his friends must have lost money steadily for the last six months, and his successful rivals on every movement of the market have been the great California operators. The rise in Union Pacific was against his wishes, but it was forced upon him.

Out.—What did Jay Gould overlook in his calculations?

Op.—The enormous purchases of our securities by European capitalists. Looking at the exchanges, that is, the difference between the exports and the imports, Gould has supposed that gold would leave our shores, instead of coming to us. A drain of gold the wrong way would kill a bull market, and that is what Gould has been expecting.

Out.—Where do these American securities go to?

Op.—To the continent, principally to Germany. The government owns the railways and the telegraphs in continental Europe, so there is no outlet for speculative capital in those investments. Hence European investors, especially the Germans, have been putting their money into our transportation lines. It is this which has made our bull market to the disappointment of Jay Gould and his correspondent loss.

Out.—Did you see the article in last Sunday's Sun, puffing up Jay Gould, and telling of his enormous wealth and power over the market?

Op.—Yes, and I was surprised to see it. It was clearly done to help Gould and give an impression of his immense resources. Then, for some weeks past, Gould's and Sage's brokers have been ostentatious lenders of money. The Sun article told nothing of Gould's tremendous losses during the last six months and it omitted all the discreditable episodes in his life, including the suicide of Mr. Loup, the leather dealer, who

killed himself because he supposed that Gould had compromised his good name and ruined him. It was a stroke of genius on the part of Gould to use the Sun to bolster up his fortunes. Such an article in the Tribune or World would have had no effect on the public mind, as it is supposed they are under Gould's control. These great operators seem to be able to do what they please with our city papers.

SOMETHING ABOUT MINES.

BODIE AND MONO.

The last weekly report from the Bodie mine is to the effect that \$15,500 worth of ore was mined and milled during the previous week. This very large output is keeping up the price of the stock, although there is no new development going on in the old workings. The new Bodie-Mono shaft is located some 700 feet to the east of the present shaft. This new combination shaft is down 200 feet, and is making about 70 feet a month. It will be next April or May before the ore-body in the Jupiter is reached. The ore bodies discovered in the Jupiter really belong to the Bodie, as they commenced in the ground of the latter. Then the Bodie claims the Jupiter ground, and will get it when the proper time comes. It is not unlikely that work will be stopped in the old Bodie workings and the mill shut down. Indeed, an assessment on Bodie is not improbable. It may be manipulated to higher figures, but the management should not be blamed if the mill should stop, as a great saving will be affected in working the mine through the new shaft. Mono at \$1 ought to be very cheap for a long turn, but there will be several assessments called for.

BULL DOMINGO.

All the reports from this mine are good, yet the stock weakens, due to sales, it is said, by certain lawyers who are eager to realize. The mine has the advantage of good management, and the people who hold the stock, like ex-Senator Barnum, David Dudley Field and his brothers, Superintendent Dutcher, the Dickinson Brothers and ex-Governor Dorsheimer, are not men who usually sell out at a loss.

HORN SILVER.

No dividends yet, but the price of the stock has been bid up to satisfy the English holders who were put in at from \$16 to \$20. As we have repeatedly pointed out, the Horn Silver is a splendid property, honestly but inefficiently managed.

CALIFORNIANS IN NEW YORK.

An important addition is soon to be made to the California colony in this city. Mr. Robert Barton, who owned one of the finest houses in San Francisco, overlooking the Golden Gate, has sold out and is coming to New York. He will stop at the Windsor, where also will be found Captain George Hall, a well-known Pacific coast millionaire. Mr. Barton made his fortune on the Comstock, and was originally a civil engineer.

ASSESSABLE COMPANIES.

The laws relating to manufacturing and mining companies in this State require careful revision. All our mining companies are organized upon a dangerous basis; for the general law and the precedents established under it were designed originally for manufacturing companies only. There is a liability on the part of officers which the latter have not yet realized. Under the law, officers and stockholders are liable to the full amount, that is, the par value of the stock they subscribe for. If it can be proved that any stockholder or officer have paid less than the face value of their securities, they are legally liable for the difference. As a matter of fact, nineteen out of every twenty of the mining companies organized in this city have issued stock at high nominal valuations; and if the par value was demanded it would ruin nearly everybody who has subscribed for mining stocks in this

city. James W. Gerard, ex-State Senator, delivered an excellent lecture on this subject before the Bullion Club, in which he pointed out the defects of the law and showed the officers of companies as well as stockholders the perils they ran under our defective law and the rulings of the judges. But the mining fever was then under full headway, and no effort was made last winter to amend the law.

Another defect is in the provision which prevents the levying of assessments. No doubt this privilege has been greatly abused on the Pacific coast, and many innocent stockholders have been injured and robbed by dishonest officers. But still the enormous development of deep mining on the Comstock lode and elsewhere would have been impossible without the assessment system. It is safe to assert that the bonanzas on the Comstock would never have been uncovered were it not for the power given the Pacific coast companies to distribute the burden among all the stockholders.

Our Eastern system of non-assessable stock has put a premature stop to the development of mining properties. It is safe to say there are five hundred splendid properties on the New York market which cannot be developed because of the un-assessability of the full paid stock. The bonding of the mines has not turned out fortunately, and the habit of making advances simply means that those who do so get possession of the property reduce its value to the stockholders. Hence an effort should be made to so amend the law as to permit occasional assessments; guarding the stockholders, if possible, against being robbed as they have been on the Pacific coast. Then the law requires amendment in other ways, as it was originally designed for manufacturing, not for mining corporations. Some organization, like the Bullion Club, should take this matter in hand and bring it to the attention of the Legislature and Gov. Cornell.

DOES MINING PAY?

One would say not, from the history given of fifty mines on the Comstock lode. These have levied assessments to the amount of \$58,728,000. Then eighteen other Comstock mines have collected \$750,000. Fifteen of these mines have paid dividends amounting to \$125,342,900. Fourteen of these mines have taken more from stockholders than was paid in dividends. Only six mines, the Belcher, Crown Point, Consolidated Virginia, California, Gould and Curry and Kentucky have paid more dividends than they have received assessments. The Comstock lode is confessedly the richest bullion bearing ledge so far known in the world, but the chances are twelve to one that an investor will lose his money if he purchases the shares of its mines. Most of the Comstock mines are run, not to develop mineral wealth, but to give employment to the officers of the companies.

It does not follow from the above exhibit that mining is unprofitable. It is in dealing in mining stocks that people lose money. He would, indeed, be a benefactor of his race who could find some way of insuring corporate honesty in the management of mines.

A DEATH IN THE MINING WORLD.

Mr. H. C. Bidwell is dead. He represented a group of mines which were high in public favor, and, had he lived, they would have realized for himself and his association very large fortunes. The mines are situated in Plumas County, California, and were known as the Green Mountain, Gold Stripe and Cherokee properties. These mines are noted for the abundance of their ores, which are free milling—gold of low grade and which can be economically worked—as wood and water are abundant.

A good property, however, is only one factor in mining ventures. The management must be

efficient and honest, or the shareholders will eventually suffer no matter how good the mine. While Mr. Bidwell lived there was a certainty of intelligent management, but his successors are Californians, unknown to the New York public. It would be wise for these gentlemen to reorganize their companies and put them in charge of New York business men known to be honest and capable. The stocks sold down—upon the news of Mr. Bidwell's death—and will not again secure the confidence of investors, unless gentlemen better known to the public than the present officers will guarantee the stocks of the companies. Until this is done, we cannot advise anyone to invest in Plumas County mines.

MUNICIPAL NOTES.

Corporations that have not as yet handed in annual reports of their financial condition, will, under the law of 1880, find 10 per cent. added to their tax.

Marketfield street has been closed from Broadway to a new street, which will be a continuation of New street. The latter street, however, should be called "stock-yard."

Brooklyn's value of real property, as returned for the use of the Census Bureau in Washington, is \$235,101,272; its expenditures are, per annum, \$3,715,807, and its bonded debt, \$3,111,000.

The Receiver of Taxes asks for more room to accommodate tax-payers, tax-books and assessment rolls. Why not secure Stewart's building, corner of Chamber street, and make a decent looking tax bureau of it?

The elevated railroads have made up their minds to pay the taxes on their structures as real estate, but they have applied to the courts for permission to review the action of the Tax Commissioners, who, it is averred, have unequally and erroneously valued the various parts of the roads.

Captain Williams has received \$1,800 for defending himself during his trial last year. The money has, no doubt, all been expended in the purchase of new brooms. They did good work when they were new. He had better ask for another \$1,800 to purchase a fresh supply.

The application of owners of property near Gansevoort market that Gansevoort street be widened on the north side, from Washington to Thirtieth street, and the latter street be widened on the south side from Gansevoort street to Eighth avenue, should be granted without delay by the Board of Aldermen.

The last veto of the mayor, preventing another steam-heating company from laying pipes in our streets, comes timely. The Prall Company, under severe municipal restrictions, has the call first. Their experimental square mile will soon be operated upon, and then we can practically test the usefulness of this latest method of heating our cities.

Collector of Taxes Tanner, in Brooklyn, better known as Corporal Tanner, who had both of his feet shot off at Gettysburgh, and who since the war has been busily engaged in fighting the Brooklyn politicians, deposited, on the first of December, about a million and a half of dollars for taxes. The way in which he succeeded in collecting such a large amount is due to a new plan just adopted by him, that of sending bills to taxpayers and receiving the amounts in return.

DEMANDS OF PROPERTY OWNERS.

SHARP CRITICISMS OF MUNICIPAL DEPARTMENTS BY THE PRESIDENT OF THE WEST SIDE ASSOCIATION.

On Wednesday last, Mr. Dwight H. Olmstead, president of the West Side Association, appeared before the State Senate Committee charged with investigating the expenditures of our local government. Mr. Olmstead, who for years past has made a study of municipal affairs, and who, by the virtue of his position, is entitled to speak on behalf of leading property owners, after having been sworn said:

"Department heads should be single, and I know of no real estate owner who thinks otherwise. The Department of Public Works is the best managed in the city, and it is under one head. The heads of departments should be appointed by the Mayor, and removed by him without the concurrence of the Board of Aldermen. The Park Department ought to be reorganized at once. The records of its meetings for five months show that at nine meetings the Commissioners disagreed fifty times; it would seem that they meet to disagree; nothing is done as it should be done. I have been a resident of New York for thirty years and I never knew the parks to be in worse condition than they are in now. In the interest of economy the streets north of the Harlem River should be placed under the care of the Department of Public Works. The Mayor and the heads of the different departments should constitute a board, which should hold regular meetings for reports, conferences and recommendations. Recommendations to the Board of Estimate and Apportionment as to the expenditures of the several departments should come from the board presided over by the Mayor. The present condition of the Register's office is an incubus upon real estate in this city, through the delays, dangers and cost of searches there. It sensibly depreciates the value of the real estate for the purposes of taxation, and causes taxes upon real property to be more burdensome than they otherwise would be. The office is now in a bad condition; the books and records are poorly kept, the engrossing is bad, and the method of indexing is defective. There are over 1,500 volumes of deeds and about the same number of mortgages; they are increasing at the rate of sixty or seventy a year. Forty clerks are employed transcribing these documents, and there are twelve searchers whose sole business it is to find what these men have been writing. In 1855 an act was passed authorizing the printing of indices; they were printed at a cost of \$600,000, and made 86,000 volumes. This system was found inadequate, and the duplex index system was adopted, but it is uncertain."

DECORATED FRONTS.

The decoration of fronts has recently received an impetus from Messrs. Artmann & Fechteler, fresco painters and designers, of 966 Sixth avenue. These gentlemen have just completed their work on the building at the southwest corner of Broome and Mercer streets in this city. We have seen much decorating here and elsewhere, but none that so successfully combines richness with neatness; none that can so well stand the test of rigid criticism. We are not alone in this opinion; it is that of everybody who has seen their work. They have demonstrated that it is possible to decorate a front without making it gaudy and painful to the eye. We desire to call particular attention to the columns which are painted and polished in imitation of Scotch granite, an imitation so exact that it is difficult to believe they are other than they appear. Messrs. Artmann & Fechteler are the leaders in a movement that bids fair to break the monotonous uniformity in our business districts, for decorating, and when properly done, vastly improves an otherwise unattractive building. The severely plain and commonplace white front that requires frequent painting to keep it clean, must soon give way to the decorated front, which is not only more pleasing to the eye, but also much cheaper, when the expense of constant repainting in white or other colors is taken into consideration.

MARKET REVIEW.

REAL ESTATE MARKET.

For list of lots and houses for sale see pages v and vi of advertisements.

The auction sales held at the Exchange, though largely attended, did not come up to the views of those whose entire mind seems to be given up to a study of the real estate market. Whether it was the gloomy state of the weather and the consequent inconvenience of personally inspecting the speculative property that was offered during the week, or another and more plausible reason that the speculative mania has not, as yet, reached the point where sanguine holders of property desire it to be, the fact remains that lots well located in the upper part of the island, though attracting many bidders, were knocked down below the estimate made by excellent experts. First-class business property was also withdrawn from sale during the week, owing to the inadequacy of the bids offered. The list at foot tells in hard figures the actual result of these sales and yet there are local and special causes which should never be overlooked in regard to certain parcels of real estate, when offered at public auction. Thus, for instance, the encumbrances on a piece of property, prospective as well as actual, should be more generally known, and any assessment to which a purchaser may be liable should be stated openly in the auction room. This fact was particularly brought to our understanding during the past week, when quite a number of new investors were noticed in the Sales-room, but not fully comprehending the *modus operandi* of referees, especially at foreclosure sales, hesitated to bid. Again, "restrictions" so called, which may have been very judicious a quarter of a century ago, are considered by the investor of the period as so much "hunkum" to-day. The parties who are buyers of real estate to day, especially below Twenty-third street, do not want the restrictions made a quarter or half a century ago. New York is growing regardless of precedent or old time notions, and though the Stuyvesants and Terwilligers of old, no doubt, considered it a good thing to put "restrictions" in their deeds, the investors of 1880, have no more respect for such parchments, than the value which is placed upon such documents by the librarian of the Historical Society. Live men as they are, they eschew them while looking at the changed condition of Manhattan Island, and, hence, abstain from bidding when eligible parcels are offered. The various causes above stated had some sort of an influence on the public auction sales of the week, and gave an unfavorable aspect to the real estate market, not borne out by the state of affairs existing outside of the auction room. Mr. Richard V. Harnett offered on Tuesday last, six houses, with every improvement, on Seventy-second street and Eastern Boulevard, and he only sold one, for \$6,900; the rest were withdrawn. He did considerably better with a lot on Broadway and Fifty-seventh street, which he sold for \$25,000. The great attraction around his stand, however, was the assignee's sale of Nos. 384 and 386 Broadway, 41 feet on Broadway and 175 feet in depth. A large number of capitalists, among whom were representatives of the Astors and Morton, Bliss & Co., watched the sale, but, notwithstanding extraordinary exertions on the part of the auctioneer, he could not overtop the figure of \$190,000, when the assignee ordered the property to be withdrawn from sale. A plot, 6 x 100, on Walker street, containing three brick buildings, known as Nos. 9, 11 and 13, was subsequently sold by Mr. Harnett, for \$43,000. Messrs. A. H. Muller & Son sold during the week No. 15 Jay street, for \$15,750, to Mr. Pangburn. Messrs. Ottinger Bros purchased at auction No. 278 Pearl street, for \$16,350, Mr. Bernard Smyth being the auctioneer. The sale by Messrs. E. H. Ludlow & Co., held on the last day of November, attracted a great deal of attention; No. 837 Sixth avenue (20.4 x 80) being disposed of at \$21,800, and a vacant lot on Eighteenth street, only 225 feet west of Fifth avenue, but thoroughly "restricted," being sold at \$10,100. On Thursday, there were offerings of considerable Boulevard property, Messrs. Scott & Myers disposing of two lots on the west side of the Boulevard, just south of One Hundred and Thirty-first street, for \$7,100. The sale of the northwest corner of the Boulevard and One Hundred and Tenth street, once the property of the late Matthew T. Brennan, containing about four

lots, elicited considerable bidding on the part of speculators and investors. The auctioneer, Mr. J. T. Boyd, exercised great patience in waiting for his bids. Several of those, however, anxious to purchase, did not know the exact dimensions of the lots nor the correct amount of encumbrances actual or prospective, and, hence the lots were secured by Mr. Boyd, a party in interest, for \$19,000.

During the coming week Mr. Bernard Smyth will sell at auction valuable property on Ninety-seventh and Ninety-eighth streets, west of Ninth avenue. These lots are just in the line of improvement, and ought to command a good figure. The sale takes place on Tuesday next.

No. 533 Madison avenue, northeast corner of Fifty-fourth street, is to be sold at auction on Wednesday, 15th inst., by V. K. Stevenson, Jr. The house is 27x33x100, and contains all modern improvements.

We call the attention of investors and dealers to the announcements of E. H. Ludlow & Co. in another column. This firm offers, at private sale, some of the very best paying business property in the lower section of the city, and also is ready to sell a number of first class residences in the most select part of the city, at fair and equitable rates. Full particulars of the bargains they offer can be found in our advertising columns.

GOSSIP OF THE WEEK.

More than two hundred thousand dollars was loaned on first class mortgages during the week at 4½ per cent., and, as the week closes, we hear of two blocks of money anxiously awaiting investment at 4 per cent., on the same class of securities.

The largest sale at private contract made during the week, has been effected by L. J. & I. Phillips. They have sold to Dinkelspiel & Lightstone, eight lots on the north side of Seventy-second street, between Madison and Fourth avenues, for \$20,000 each, and four lots on the south side of the same street for \$18,000. These lots formed part of the Lenox Estate, and were recently owned by Mr. Tiffany. Since the above contract was made, the purchasers have resold them, it is said, at an advance of 10 per cent. to Messrs. Lynd Bros., the well-known builders, who intend to build there, without delay, first-class residences. The Messrs. Phillips have also sold at private contract, three lots on the Eighth avenue, between Sixty-fifth and Sixty-sixth streets, for \$51,000; also No. 20 White street, for \$18,500.

The well known carpet man, Mr. John Sloane, has purchased a plot of ground on the east side of Fifth avenue, between Sixty-ninth and Seventieth streets, measuring 33x175, for \$100,000. The seller is Mr. Bliss, of the firm of Morton, Bliss & Co. Mr. Sloane intends to build a fine mansion there, on the block now occupied by Messrs. David Dows, H. R. Bishop, and Josiah Fisk.

Mr. T. H. Beeckman, of Cedar street, yesterday sold at private contract to Mr. I. E. Doying, the well-known builder, the southwest corner of Madison avenue and Sixty-second street, fronting 100 feet on the avenue and 95 on the street. Mr. Doying, we understand, intends to erect on this corner one of the most elegant apartment houses yet seen in this city. The property was owned by a Mr. Thompson, at one time a resident of California.

Mr. John D. Crimmins has sold the northeast corner of Fourth avenue and Seventieth street, 100 feet square, to Mr. W. Croft, for \$55,000. The same gentleman has sold another corner on Fourth avenue, north of the above, for \$75,000.

The Schloss Brothers, of Broadway, have sold two lots on Fourth avenue, between Eighty-first and Eighty-second streets, 53 feet front, for \$15,000.

It is also reported that sixteen lots on Ninety-third and Ninety-fourth streets, between Third and Lexington avenues, part on each street, have been sold to Mr. Henry Burchell, at about \$4,000 each.

Mr. A. C. Lamson has sold for Mr. C. W. Luyster, No. 7 East Sixty-sixth street, 22x61x100, for \$52,000. Not a week passes but Mr. Luyster sells one of his houses.

Mr. S. D. Jennings has sold the four-story brown stone house, No. 25 West One Hundred and Twenty-fourth street, to Lewis Maddox, for \$30,000.

Mr. V. K. Stevenson, Jr., has sold the four-story high stoop brown stone residence, No. 762 Madison avenue, 20x50x100, between Sixty-fifth and Sixty-sixth streets, for \$30,000, to William H. Guion.

Mr. Robert L. Stuart proposes building on the northeast corner of Sixty-eighth street and Fifth ave-

nue, a private residence, 55x130. The depth of the ground is 200 feet. He has now before him for revision, the plans drawn for that purpose by a prominent architect.

Mr. John D. Crimmins, it will be seen in our list of projected buildings, has filed plans for sixteen three-story brick and stone dwellings, ten of which will be 18.2 front, each, and six 16.8, on the south side of Sixty-eighth street, east of Third avenue. The Inman Steamship Company are about to construct a freight shed, offices, etc., to cost \$80,000, at Pier 36, North River.

The following are the sales at the Exchange Sales-room for the week ending December 3:

** Indicates that the property described has been bid in for plaintiff's account:*

Broadway, e s, 19.6 s 57th st, runs northeast 60.6 to 57th st, x east 51.6 x south 23.3 x west 102 to Broadway, x north 22.2. L. Morris. (Public auction sale).....	\$25,000
Broome st, No. 548, n s, 75.3 w Clarke st, 28x84, three-story brick building. Jacob Weeks. (Executor's sale).....	9,000
*Boulevard, w s, 24.11 s 131st st, 50x100, vacant. Abraham Voorhis. (Amount due, about \$9,000).....	7,100
*Hudson st, No. 288, e s, 58.8 n Dominick st, 18.4x100, irreg. Henry Sidenberg. (Am't due, abt \$9,100).....	6,000
Jay st, No. 15, n s, bet Staple and Greenwich sts, 25x95.2, three-story brick dwell'g, and brick stable in rear. Jere. Pangburn. (Public auction sale).....	15,750
*Oak st, No. 28, n s, 130.9 w James st, 28.6x197.7, irreg. David Dinkelspiel. (Amount due, about \$12,400).....	10,000
Pearl st, No. 278, e s, abt 90 s Beekman st, 19.10 x90.6, five-story brick building with one-story brick extension. Ottinger Bros. (Public auction sale).....	16,350

Total.....	\$26,8600

BROOKLYN, N. Y.

In the City of Brooklyn, Messrs. T. A. Kerrigan and J. Cole have made the following sales for the week ending Dec. 1:

*Degraw st, n e s, 275 n w Smith st, 25x100.....	7,000
7th st, s s, 104.4 w 5th av, 47x100.....	
East River Savings Inst.	
Maujer st, s s, 150 w Lorimer st, 50x100.....	1,100
Teneyck st, n s, 175 w Lorimer st, 50x110.6.....	
P. F. Spencer.....	1,000
*Wyckoff st, n s, 117.6 e Troy av, 48x255.7 to Bergen st. Manhattan Life Ins Co.....	
*9th st, n s, 175 w 9th av, 175x200 to 10th st. Moses M. Robinson.....	1,100
*Clason st, w s, 130.11 n Fulton st, 20x63.9. Susan A. Lawrence.....	4,300
Greene av, s s, 275 w Patchen av, 25x200 to Lexington av. Henry Davidson.....	3,825
About 7 acres situated in Long Island City, on Newtown Creek bet Penny Bridge and Greenpoint av, contains 12 buildings, being property of the N. Y. Kerosene Oil Co. N. Y. Guaranty and Indemnity Co.....	150,000
Total.....	\$268,000

VIEWS OF CITY REAL ESTATE.

A PREDICTION MADE A YEAR AGO BY A WELL-KNOWN BROKER—THE SITUATION REVIEWED IN ALL OF ITS BEARINGS.

The following letter by Mr. V. K. Stevenson, Jr., on City Real Estate was published in the daily *Graphic* during the month of October, 1879. It is so exhaustive, and in many respects has proved so accurate a prediction of the situation as it is found to-day, that we publish the same in full.

When one considers the immense Real Estate interest of New York City, the vast volume of capital locked up in its Real Estate, most astounding is the fact of the lack of intelligent, accurate information, as to its present and its future values. There is no interest in America about which there are so few people posted accurately, and about the value of which the public is so poorly posted in, in proportion to the blocks of capital invested.

As a Real Estate Broker I ask one man what he thinks of Real Estate? and he answered me, there is nothing in it. Why, Mr. Stevenson, upon my mother's death the estate brought not over the mortgages, &c., &c.; while, for instance, he says, one store in — street, down-town, facing the Elevated Road, did not bring one-third its former value.

Now, this man knows nothing of property. I at once tell him, you sell to soon? You ought to have waited till the coming November, when the great Real Estate interests of this Metropolis will begin properly, that gradual, sure, upward rise in values, based upon trade revivals and sure causes, such as the increased mileage of completed railways, connecting direct with New York City, additional steamship trade, elevated railways, &c. And when I ask him if he does not think the commercial seaport of America will be the first to feel the great enhancement of values of Real Estate, caused by the balance of trade being so immensely in our favor, and increasing yearly, then this great, wise man, who foolishly sold out at the wrong time, stares me in the face, and remarks hesitatingly: There may be something in it! turns and walks off, possible to put up his little five thousand in the Mining Board or on a future in cotton; either of which, with a hundred more investments I can name, where unposted outsiders "go in," is as sure to cause the poor fellow to blow up in the end as it is for "a man to walk into a powder magazine with a lighted segar." Not one-hundredth part of the advantages of all these Rapid Transit lines have yet been felt by our property owners!

The Bank of England, around Angel Court, and through all that vast, valuable business centre, property improved year by year as each new rapid transit road placed said centre, in point of time, nearer to the suburbs of the city. And what do we find our rapid transits are doing for lower Broadway, Wall, Broad streets, &c.? Why, that entire lower portion of this island has been improved greatly already in rents and values, and will slowly and surely continue to improve year by year. Had it not been for Rapid Transit, our financial centre would have been moved up—Stock Exchange and all, in ten years more—to Madison Square, and such world-renowned structures as the Equitable, Boreel and many other buildings would have tumbled immensely in value and rents. *Rapid Transit make trade centres permanent!*

We find, now, an able committee of our Produce Exchange advertising recently in your paper for a large block of land right in the heart of this section, and from the continuation of the advertisement, and the enhanced value of land there, it is fortunate, and they are only to be congratulated in being so rich as to be able to pay the round price they will be compelled to.

Nothing will help Broadway, from the Battery to Union Square, so much as a surface horse railway, and retain the stages too. It is absurd that some property owners there should still object to this road, because common sense ought to tell every owner that, as his merchant-tenant has goods to sell, the more he sells the more rent he is enabled to pay; and, unless I am greatly mistaken, the more people that pass his door, the more goods he will surely sell. "It is the masses that give value to business property." Put a fifty dollar note in the pockets of most people of either sex, and it generally burns till some of it goes; and the women especially, are more apt to jump out of a horse car to spend it, even than a stage, for the cumbersome nature of their costume naturally makes ingress and egress from stages awkward and dangerous. And did not the horse-car lines build up the immense trade and business we find to-day on Fourteenth and Twenty-third streets?

Going on north, up the line of Broadway, we find the best and most ready sale and rental of stores between Union Square and Thirty-fourth street—the *creme de la creme* of the finest business

street the world ever saw. The line of Broadway, from Thirty-fourth street to its superb entrance into Central Park, we find being improved with the present admirable style of apartment houses, and that property is immensely valuable; where one family, of say eight persons, occupy a lot, 25x100 feet, on Murray Hill and near Fifth Avenue, by this Broadway system of five apartments in each building, say eight persons in each apartment, we thus are now having on this Broadway line forty people to occupy each 25x100 feet, and those forty people on said lot gives the Broadway shop-keeper just thirty-two more chances from each lot to catch a customer; therefore, lots and values there are not to-day one-third of what we will find them in a very few years, as this will be one of the most densely populated portions of our city.

The width, position and location of the Grand Boulevard makes it an ornament to New York, and it is only a question of a very short time until that property will be in great demand, now that one can take his choice of two rapid transit lines to go to Wall street in thirty minutes. While along the Boulevard, going north, on its right lies the beautiful Central Park, as well as Morning Side Park, soon to be completed, and to the left lies the majestic Riverside Park. And just here let me add, that were I not morally opposed to betting, I would wager twenty to one that not over one man in New York City in one hundred knows that to-day this beautiful Riverside Park actually exists.

Nature has done so much more for Riverside Park and the superb views, which can never be obstructed by building in future are such that, should the reader want to see how impossible and idle it would be for me to attempt to describe that Park, I can only say let him go up the new beautiful macadamized drive, now just about completed from Seventy-second to One Hundred and Twenty-sixth street, and then he will say the *Bois de Boulogne* of Paris is nothing compared with this new Park presented to our great and growing city; and that they could never before fully appreciate Washington Irving's superb descriptions of the world-renowned, unrivalled views and wild grandeur and beauties of scenery of the Hudson from this Park and its main drive, on an immense elevation, overlooking, as it does through natural woodland and forests, this sublime picture of Nature, impossible to duplicate by art.

I see that our eminent engineer, and the Chairman of the West Side Association for the improvement of land west of Central Park—General Viele, and the man, by the way, who designed Central Park, and gave to New York his celebrated typographical map showing every water course in the city—has just completed and now occupies the beautiful mansion facing this new Park. He is, without doubt, a shrewd, well-posted pioneer.

Now, my dear sir, on the line of Fifth avenue we find both rents and values greatly improved.

In New York, as in London, as our city grows older, the rich become richer and the poor become poorer. Therefore, we find the line of Fifth avenue for both improved and unimproved property greatly enhanced in value, and continuing upward, especially as our rates of interest become lower. When we do float down to a four per cent. money market, the interest on a \$300,000 Fifth avenue establishment is but the trifling sum of twelve thousand dollars a year. And what is that to man after man on that avenue, we can count to-day, worth from three to ten millions, and that, too, invested so, that with the South now rapidly recuperating, and our great West growing, hundreds of these men will find their fortunes doubled and quadrupled.

See the magnificent improvements on and near Fifth avenue and Central Park, and around the beautiful library Mr. Lenox so generously presented to our city. I venture to say there is not as fine a house of its size in the world as the new Bostwick mansion on the Park!

While on Fifth Avenue, below the park, we find the characteristic enterprise and liberality of the Vanderbilts improving and beautifying the finest dwelling-house avenue in the world, with house after house for its different members, now building at a cost, including lots, per house, of from say \$600,000 to \$1,000,000 each. These are grand improvements! "We live in a grand age!" and from the outlook it is regarded as a certainty that the next ten years in city property will show the most remarkable improvement every witnessed since the civilization.

Eighty thousand miles of railway and the finest harbor in the world to improve the commerce and future value of Real Estate on this island! While with rapid transit, to-day, having made a lifetime study of Real Estate, I venture the assertion that a man can take a horse blindfolded, and start him over the bridge into our new annexed district, and let him roam around loose, and, no matter where he stops, buy the land he haunts on, pay its present owner all he ask for it, and in a few years double his money.

In the face of all the croakers croaking, we have to-day, in comparison with cash values of property, one of the lightest taxed cities in the world, being an average of about one and one-half per cent. upon cash valuations, and we find, too, a sure, gradual reduction in taxes each year.

Having the finest Hotels and Parks in the world, combined with the forty odd places of amusement kept open nightly, our city, we find to-day, the Paris of America; and strangers in great quantities spending their money with us will rapidly add to the value of our Real Estate, as it has done to theirs in Paris.

These general facts, my dear sir, I have hastily thrown together about the continuance of the present upward movement in New York City property, are based upon actual sales made by me of late of City Real Estate, the reports of which have been duly made in your valuable paper.

NEW YORK, October, 1879.

BUILDING MATERIAL MARKET.

BRICK.—The higher cost reached on Common Hards at the date of our last, has been well maintained, indeed, somewhat exceeded, and a pretty firm tone maintained during the greater portion of the interval. The consumption was good, which coupled with the increasing anxiety on the part of dealers to get in stock, afforded a steady outlet for supplies for some time. Finally, however, the arrivals became so full that even the liberal demand could not entirely exhaust them, and cost has weakened a fraction, though without leading to any serious pressure to realize. The inconvenience from ice on the river has not been so great as anticipated, the tides have served better and with an unusually large number of vessels offering, manufacturers have been enabled to ship with more rapidity, and in larger volume than could have been expected, and hence the sudden accumulation. There appears to be some doubt of the probabilities of how much stock will follow and the tone is in consequence unsettled. Should the volume of supply not be checked, it will be difficult for the market to stand the pressure even in its generally healthy condition, but there is an impression that the shipments will show a shrinkage, and this is likely to check the decline. Unusual amounts for the season continue to be called for by consumers, and dealers still have room for a considerable quantity of stock. As high as \$7.50 or even a fraction better was at one time easily obtained on Haverstraw's, but as we write \$7.25 appears about all that can be depended upon, and \$7 for Up Rivers, the two grades selling close together. Pale Brick are a shade firmer and quoted at \$3.25@3.50 per M, but find no very important demand, indeed, scarcely any at all on city account. Fronts are steady, and there is a place for all coming forward.

HARDWARE.—The orders received are not large, nor do they come in with any regularity, and the general market has a dull sort of tone for all kinds of stock except fancy. Of the latter there is a little more selling, and especially such as can be considered as coming within the line of holiday goods, with the distribution mostly local and nearby. The closing of the canals and the consequent advance in freight charges will have a tendency to curtail the movement of hardware. On price lists no changes of importance were of late announced, but several are now undergoing careful revision.

LATH.—Supplies have been somewhat larger, but there was a demand ready for the offering, and the cost has made quite a little increase. One full cargo was sold at \$1.90 per M, but immediately thereafter the rate was advanced to \$2 per M. with several smaller sales, and this figure is now the lowest at which it is worth while to approach sellers. Indeed, receivers report that their orders are to "get two dollars or pile out," and they propose following instructions. We can hear of very few lots on the way, the demand is certainly good, not only from local sources, but from out of town buyers, and the market appears to have secured elements of strength calculated to carry it well through the winter. The consumption is pretty full at the moment, and will gradually increase.

LIME.—"No change," is about the only report made. Sellers are not likely to lose much advantage at this season, but appear to make no gain, and former rates remain current all around. Accumulations only fair.

LUMBER.—The search for new items on our market brings but a poor harvest, most of the trade reporting the "same old story" all around. No one seems to be laboring under any serious depression, indeed, on the contrary, the feeling continues quite cheerful as a rule, and in some cases may be heard expressions of great expectations for the winter. The majority of the yards free and bonded, are very well stocked, and additional supplies are to come coastwise, but the pressure is over, and such amounts as are likely to yet arrive can have no serious influence. Our local consumption shows no signs of disappointing previous calculations, and the export outlet just now is quite promising, though the shipping trade is subject to sudden and unexpected turns, and the

actual passing of contracts is the only positive assurance of business. We hear of some offerings of stock from the interior by rail, but nothing of magnitude or in any attractive form.

Spruce has been somewhat irregular, but, on the whole, with the average tendency in buyers favor under the pressure of larger supplies. The last shipments from primary points were pretty much all made together, and agents trying to place the cargoes led to competition. This alarmed the timid ones, and induced them to occasionally break on price quite decidedly, while others have refused to concede, and by careful management obtained a fair figure. Quotations are a little nominal, but may be placed at about \$17@18 for randoms, and from this up to \$20@21 asked for specials, but the latter quiet.

White Pine is held quite firmly, several large parcels intended for this market, it is now certain, will not get through, and this has a strengthening influence. Still, the accumulation on hand is full and well assorted, and when owners can obtain former figures they sell. Demand a little irregular with a slight tendency to fall away, though to no greater extent than common at the season. South American advices are steady. We quote \$1.19 per M for West India shipping boards; \$23@25 for South America do.; \$15.50 @16.50 for box boards; \$17@17.50 for do. wide and sound do.

Yellow Pine finds a very poor market for the stock accumulated here awaiting attention, and even at quite low figures it would be difficult to secure customers. Contractors, however, are making engagements for specials to arrive during winter and early spring; and there is a fair sale at steady rates of cargoes for export direct from the South. We quote random cargoes at about \$23@25 per M.; ordered cargoes, \$24@26 do.; green flooring boards, \$24@25 do.; and dry do. do. \$25@26.0. Cargoes at the South \$14@17 per M. for rough, and \$19@20 for dressed.

Hardwoods have not been available to any great extent, and could probably have found a good sale, as there appears to be a number of customers "looking around," both on home account and for shipment. Prices naturally are quite firm, and full former figures may be retained. We quote at wholesale rates by carload about as follows: Walnut, \$77@85 per M.; ash, \$33@36 do.; oak, \$35@40 do.; maple \$30@35; chestnut, 1st and 2d, \$30@35; do. do. culls, \$18@20 do. cherry, \$45 @47 do.; white wood, 1/4 and 5/8 inch, \$25@27.50, and do. inch, \$33@35 do.; hickory, \$35@45 do., for Western, and \$65@75 for good nearby stock.

The distribution from yard goes on steadily and in the ordinary form, with a good sound tone on values and some sellers commencing to talk about an advance.

From among the lumber charters recently reported, we select the following:

A Br brig, 237 tons, from Brunswick to Montevideo, \$19, option of Boca wharf, Buenos Ayres, \$20, or up river ports \$22, net; a Br barque, 315 tons, from Wilmington, N. C., to Rio Janeiro, lumber, \$20, net; an Am schr, 160 M lumber, from Mobile to Mayaguez, \$11; a schr, 185 tons, hence to Charleston, general cargo, at about \$2 per ton, and from Bucksville to Porto Rico, lumber, \$10.50; a schr, 380 tons, from Pascagoula to north side Cuba, lumber, \$8; a schr, 105 M lumber, from Jacksonville to New York, \$9; a schr, 199 tons, hence to Key West and Cedar Keys, general cargo, \$800, and back with lumber to New York, \$9.50, option of Boston \$10.50; a schr, 220 M lumber, from Mobile to New York, \$9.50; a schr, 108 tons, from Mattawana Creek, Va., to Bath, oak timber, \$5 per ton; a schr, 131 tons, from Kennebec to New York, lumber, \$3; a schr, 250 M lumber, from Fernandina to Portland, \$7.50; a schr, 300 M lumber, from Calais to Baltimore, \$3; a schr, 400 M lumber, same voyage, \$2.75; a schr, 150 M lumber, from Cedar Keys to New York, \$9.50.

Exports of lumber from the port of New York:

GENERAL LUMBER NOTES. STATE.

The Albany lumber market, for the week ending November 30, is reported by the *Argus* as follows:

Business in the district has closed for the season of 1880. Many of the trade have already left the district and taken up their winter quarters in their city offices.

It is estimated that of pine lumber there is at least 15,000,000 feet sold which will be wintered over here, of which about 5,000,000 feet is afloat.

Of hard woods from 300,000 to 350,000 feet have been sold, but not delivered; some of it will go forward by rail during the winter.

It is estimated that between Albany and Whitehall there are thirty-five boat loads of coarse lumber frozen in on the Champlain canal bound to Albany. Shipments are being made by rail to New York and South.

THE WEST.

SAGINAW VALLEY.

LUMBERMAN'S GAZETTE,
Bay City. }

The week has brought no change in the situation so far as the weather affects it. There is no longer

any expectation of a break-up which would permit the resumption of manufacturing and shipping. The mills have all shut down and navigation has entirely ceased, the ponds and river being closed fast by an icy embargo. "To the woods" has been the cry of the past week, and all thoughts have been turned thither. Nearly every manufacturer expects to get out more logs than he did this year, and in the aggregate the few more will count a good many. Indeed, there is nothing to discourage lumbermen from extending their business. Reports from all the markets depending on this for their supply indicate continued activity and a firm feeling, with prices fully maintained. The prospects are that the next season will be as this, only more abundant, it is quite true something may occur to disturb the serenity, but the chances are in favor of stability. The grand burrh with which operations in the woods are being undertaken is not calculated to help the trade very much, since it may create an impression that a stupendous excess of logs is going to be gathered under the weight of which the market will break. The logging season is not yet over, and until it is, the amount of logs which will be got out is a problem. There is time for a good deal of disappointment between now and the next driving season.

The logging streams from which the mills on the Saginaw River are supplied have done nobly the past season, the Tittabawassee, the monarch of them all, yielding 577,000,000 feet, against some 455,000,000 feet in 1879, an excess of 122,000,000 feet. The Rifle River yielded 74,144,651 feet, against 72,112,111 last year. There were 3,573,438 ft over in the boom, and some 8,000,000,000 in the river.

There is but little doing in the trade at present, except in the way of car delivery. Sales for next season's delivery are not yet in order. The commission men and yard dealers are preparing for their usual winter trade, which they expect will be quite heavy. Indeed, it is now fully up to the supply of cars. There is considerable lumber left over, but the bulk is of coarser stock. Choice lumber is held firmly at former rates, but a shading can be obtained on coarser common. The ruling rates for stock for future delivery is \$6, \$12 and \$23 to \$7 50, \$14 and \$35.

From the weekly summary of the Chicago Northwestern Lumberman we obtain the following:

Winter has settled down upon the country at a date considerably earlier than was expected, and has found but few saw-mill men or lumber dealers in any portion of the land who were ready for it. The entire month of November has been hard on navigation, and has made its rigors felt in all departments of trade. The western supply points had yet on hand large quantities of lumber which, it was fully expected, would find its way by lake and canal to eastern points, and the mill booms yet contain large quantities of logs which it was hoped, and fully expected, would yet be sawed into lumber and piled upon the mill yards ready for the spring demand. Since the 12th inst., however, these hopes have been dissipated by zero weather, which, from that date, has been unintermitting—freezing up the logs in the mill booms, closing the harbors and canals of the country, and bringing lake navigation to a hurried and unready close. At this writing a milder temperature appears probably, but with six inches of ice in such large bodies of water as those of the Saginaw and Green Bay regions, it is not at all likely that for the possible one or two weeks which might yet be vouchsafed of weather favorable to navigation, that vessels will again fit out, or any extensive amount of navigation be again inaugurated. Of course, mill operations in the entire Northwest are suspended, and the manufacturing season is at an end. Perhaps it is as well that the close came suddenly, for while all the distributing markets of the country have good supplies of lumber for the winter demand, there is now no danger of an excessive accumulation at any point, and with a lively demand reported from all directions, the winter's trade cannot but be a healthy one, unmarked by any fluctuations warranted by reason of overstock.

Boston advice shows a firm market, with a good distribution of supplies. Spruce is in better supply, with prices steady and a good demand. Southern pine is held stronger, but without actual advance, the receipts being about 1,500,000 feet for the week.

The mills of Maine and the northern waters of the Connecticut had scarcely begun to feel the advantages of a stage of water to bring them their stock, and to run their mills, before it came in volumes too great for comfort, and the ice king following with rapid stride, their season's discomfort has reached a culminating point. There will be an early start, however, in the spring, together with a probable endeavor to do some winter sawing, and the discomforts of this year will, it is to be hoped, redound to greater prosperity next season. The fall demand has been a lively one, and these who had lumber to sell got good prices. Spruce is the prevailing timber in these regions, but hemlock enters largely into production.

The Philadelphia and Baltimore regions have lacked a supply of coarser pine and hemlock, such as Williamsport district was accustomed to give, until late in the season, but as the trade there is largely confined to car shipments, the early closing of the season will have but little effect except on sawing, which is naturally at an end for the season.

Canadian advice points to a large amount of lumbering to be done this winter, in view of good prices already offered for next season's cut. Pine deals are already contracted in large quantities at \$11 1/2 to \$15 for first, \$7 1/2 for second and \$4 for third quality. The contracts of which we have heard were on English accounts, and the favorable prices quoted have lent an added stimulus to the operations of the winter in getting out an increased stock of lumber. The home demands for deals for English shipment during

the past season, was greater than the supply, and an endeavor will be made to answer all the possible requirements of another year. We learn of great activity upon all the streams of Ontario and Quebec, as well as in the lower provinces.

At Buffalo and Tonawanda canal shipmen's have ceased and even although that which is now afloat in the canal may by extraordinary effort be got through to tide water, no more shipments can or will be undertaken. Toledo reports its mills shut down with the cold weather, but with the hope and anticipation of enough pleasant and mild weather to enable another start to saw out such orders as were behind, and with a large quantity of lumber yet afloat, to enable the barges to reach port and discharge.

At Saginaw there has been a general closing down of the mills, as is also the case on the entire shore of Lake Huron. The mill booms have become solid with ice, and the endeavor to get logs into the mills from the booms involves too much labor and risk to warrant its being thought of. The season has been a highly satisfactory one to all, and while the mill booms yet contain a large quantity of logs, and even the river booms are not so clean as it was hoped they would be, the close of the season sudden as it was, is regretted by but few.

In the West we find the shutting down of mills has become pretty general, although not so universal as in the more eastern districts. Stocks as a rule on the Mississippi are less than they were a year ago, and that in the face of a present and prospective increase in demand. There is no point of which we can learn where there is an amount of lumber equalling an excess, and none where it is not thought the demand will exceed the ability to supply. In fact, it is asserted that Chicago holds nearly as much lumber to day as all the river points combined from St. Paul to St. Louis. To state actual figures at this time would be but to give a guess, but well-informed operators think that the river points hold about seven-twelfths to Chicago five-twelfths of a stock aggregating between 1,200,000,000 and 1,300,000,000 feet. At no point on the river do we discover any signs of weakness in price, and from all, including Wisconsin points, is there the uniform statement that the demand exceeds the supply of cars for transportation, and that prices are firmly maintained. The present status of stocks will hardly be disturbed by any further material additions to it, and the trade has but to deal with the factor of demand, unhampered for months to come with any uncertainties regarding what probable supply may militate against the maintenance of firm quotations.

LUMBERMAN AND MANUFACTURER, MINNEAPOLIS, MINN.,

The most important item connected with the lumber business is the commencement of the logging season, which is now fairly inaugurated. It is a low estimate to say that the prospective cut is 25 per cent. larger than that of 1879-80. The rivers cannot increase their output very much, because the driving capacity of most of the smaller streams has been taxed for some years past, as well as the handling capacity of the booms, but the chief increase will be from the railway mills, which are multiplying wonderfully in the States of Wisconsin and Minnesota. We venture to predict that there will be over 200,000,000 feet more produced by the railway mills in these states in 1881 than during the past year. The bulk of this will come from new mills.

There is no surplus lumber in the country anywhere more than will be needed to sustain the enormous trade of the present and, prospectively, of the spring. Everywhere the carrying capacity of the railroads is being taxed to carry lumber out of, and grain into the markets. Prices are steady for all standard grades. The raft trade on the river is suspended clear to St. Louis, where a few belated strings have been "pulled" during the week. Chicago is smiling over a large trade and feeling relief at the early close of navigation, which brings a suspension of lumber receipt. The Lake Michigan mills have all suspended, with only small stocks in their yards for early shipment. The eastern markets are all firm, and report a prosperous year's business, which has left them with only moderate supplies on hand, notwithstanding the large receipts of summer and fall.

Reports from Canada are to the effect that the lumbermen, encouraged by the large sales to the States during the last season, are preparing to increase the cut of lumber very largely; perhaps the reciprocity treaty in prospect has something to do with their increased cut.

The Northwestern Lumberman's report on Hardwoods is as follows:

Business at the yards is somewhat heavier than it was last week. Common 1st, in whiteoak, is advanced \$1, and bolsters and reaches are now worth \$40. Oak wagon felloes are worth \$1.25 per set, and are this week included in our price list. Some of the yards which, until now, have had a fair stock of 1st and 2d walnut, are very low on these goods, and are concerned as to where the next will come from. One of our leading firms have received by water 600,000 feet of ash, which must be good news to the manufacturers of agricultural implements, as some of them are in sad need of it. Beyond this arrival, we hear of none of large size.

We hear of many contracts having been made for oak, and some others who are anxious to contract for satisfactory lots we fear will meet with disappointment. The purchasing agent of a railroad, with whom we had an interview recently, asserted that oak is still plenty, but anybody who is acquainted with the status of the hardwood business of the country, knows that such an expression ought to be modified. Any one who has oak to cut the coming season can readily find purchasers.

The average oak, when cut up, yields about 30 per cent. 1sts and 2ds, 50 per cent. common, and 20 per cent. culls. The common is usually cut into billstuff, the culls go for sewerage, drive-ways in alleys, etc., where a cheap lumber is wanted which will stand wet and exposure, and the 1sts and 2ds are cut into wagon stuff.

THE EAST.

A Boston journal reports as follows:

The market for Southern pine is very firm, with a good demand, and limited supplies. Receipts are readily absorbed on account of existing orders, and hence there is no accumulation. The increasing export trade at the South tends to curtail the arrivals here. The supply of foreign ocean tonnage engaged just now in the lumber business at the South is said to be exceedingly large. Floorings, Nos. 1@2s, readily command \$22@32, while dimension factory sells at \$24@30. Western grades are rather quieter, owing to the intervention of a holiday, but the demand continues quite good, and prices are sustained. The close of navigation restricts the receipts here to a considerable extent, and to this the stability of prices is partly attributable, as available supplies are not sufficiently ample to meet the current requirements of dealers. Eastern lumber is not hardly as firm, owing to better supplies, but there is no promise of a material decline in prices. The demand maintains a fair degree of activity. Other grades are notably unchanged.

THE SOUTH.

The Savannah Morning News reports:

TIMBER.—Arrivals this week light; demand good at quotations:

Shipping timber by the cargo f. o. b.—

700 feet average	\$ 9 00@10 00
800 "	10 00@11 00
900 "	11 00@12 00
1,000 "	12 00@14 00

Shipping timber in the raft—

700 feet average	\$ 7 00@ 8 00
800 "	8 00@ 9 00
900 "	9 00@10 00
1,000 "	10 00@11 00

Mill timber \$1 below these figures.

LUMBER.—Mills are supplied with work for the present. Demand good. Prices range about as follows:

Ordinary sizes	\$16 00@18 00
Difficult "	18 00@20 00
Flooring boards	18 00@20 00
Shipstuffs	18 00@20 00

FREIGHTS.—Lumber.—By Sail.—The arrival of coastwise vessels are fully equal to shippers requirements and rates are easy, without change. Mediterranean vessels wanted at an advance. We quote: To Baltimore and Chesapeake ports, \$5 75@6 25; to Philadelphia, \$6 00; to New York and Sound ports, \$6 50@7 00; to Boston and eastward, \$7 00@8 00; to St. John, N. B., \$8 00; [Timber from \$1 to \$1.50 higher than lumber rates]; to the West Indies and Windward, nominal; to South America, \$19 00; to Spanish ports, \$14 00@15 00; to United Kingdom for orders, timber, 36s., lumber, 25 5s @25 10s. From 5% to \$1.00 additional is paid here for change of loading port.

The Charleston News and Courier:

Timber and lumber.—A fair inquiry prevails for these articles which may be quoted at \$10 per M for docking, \$5@7 for mill and \$2@8 for shipping qualities. Lumber may be quoted at \$1@15 per M for city sawed, \$10@12 for railroad and \$9@11 for rafted qualities.

FOREIGN.

The London Timber Trade Journal reports:

The great sale of Messrs. Churchill & Sim has evidently borne down the market; Quebec first quality dry floated at £16 per standard was a very low figure; thirds to £8 10s. on the second day, and in the face of the selling broker's earnest appeal to the room not to let goods of such quality, and getting now so scarce, be sacrificed, when next year, in all probability, they would be difficult to obtain at all. In point of fact, pine deals are now to be had on very nearly the same terms as they were twelve months ago. In the London market the best qualities that come here are even cheaper, but perhaps the lower classes are slightly better in demand than they were then.

But the immense quantity disposed of unreservedly in so short a time is only producing its natural, and indeed almost inevitable, effect: 1,760 lots, if only averaging 10 standards each (and some were over 50 standards), would give a total of 17,600 standards, and if only half of these were bona fide disposed of, the quantity changing hands would amount to 8,800 cargoes, averaging 300 standards, and the money the trade would have to find for the three days' buying would, at an average of £9 per standard, amount to near £80,000. But the fact is nearly two thirds of the whole changed hands, and therefore the actual outlay buyers were pledged to would be upwards of £100,000. Many a one bidding freely the first day would be more cautious the second, and have to look carefully to his banking account, on the third he would hold his hand hard, and perhaps retire from further competition. Thus buyers thin off, and prices droop, ere the sale ends.

LIVERPOOL TIMBER SALES.

On Friday, the 5th inst., Messrs. A. F. & D. Mackay held their auction sale, as advertised, of spruce deals, birch timber, and other wood goods, at which they offered five cargoes of spruce deals, pine deals, birch timber, and other wood goods. The attendance of buyers was somewhat meagre, and there was no dis

position to purchase largely. The sale throughout was slow and dragging, buyers being unwilling to give the prices demanded by the brokers, who, though not unwilling to meet purchasers in the way of price if it approached fair value, consequently withdrew nearly all of the spruce deals in two cargoes, nearly half of one and the whole of another cargo of Richibucto. The birch timber sold fairly well, and prices of this wood seem to have a firm aspect.

Latest mail advices from Rio Janeiro (A. C. Nathan & Co.) are, to November 5th, as follows:

Pitch Pine Deals.—No arrivals since our last report; for one or two cargoes to arrive rs. 40\$000 is asked and 35\$000 offered. We quote rs. 39\$000 per dozen 3x9x14; market strong.

Spruce Pine Deal.—The only arrival we have to note is the David Babcock from Bangor with 409,518 feet, which were for dealers' account. We quote rs. 34\$500 per dozen; market firm.

White Pine Lumber.—15,124 feet have arrived from New York per Southern Home, and some were sold at 115 rs. per foot. We quote 115 to 120 rs. per foot, according to quality; market strong and advancing.

METALS.—COPPER.—Ingot has been in fair average jobbing demand and firmly held at full former rates. The companies and the manufactures have failed to come to any understanding regarding future deliveries and are said to be wide apart in their views. We quote at \$19@19½ cash for lake. Manufactured copper has retained the average share of attention and continues to be firmly held at full former figures. We quote as follows: Brazier's Copper ordinary size over 16 oz per square foot, 28c. per lb; do do do 16 oz and over 12 oz per square foot, 30c per lb; do do, 10 and 12 oz, per sq foot, 32c per lb; do do, lighter than 10 oz per sq foot, 31c per lb; circles less than 84 inches in diameter, 31c per lb; do 84 inches in diameter and over, 31c per lb; segment and pattern sheets, 31c per lb; locomotive fire box sheets, 28c per lb; Sheathing Copper, over 12 oz per sq foot, 28c per lb and Bolt Copper, 28c per lb. IRON.—Scotch Pig has remained about steady in tone, a fair control of the supply and favorable accounts from abroad inducing confidence among holders. The movement, however, was comparatively light and confined in the main to small lots required for immediate and positive use. We quote at \$21@24.50 per ton according to brand, delivery, and quantity. American Pig has sold to some extent, but also in small parcels only, and the tone of the market was rather slow at all times. The offerings have been fair, and could be reached at former, or easier rates, without much difficulty, though no pressure was used to realize. We quote at \$24.50@26.00 per ton for No. 1; \$21@22 do do for No. 2; and \$19@20 for forge. Rails have continued to sell well, the call running principally to steel, though wanting a fair quantity of iron and, with the capacity of the mills engaged well into next year, prices are very firm all around. We quote at \$44@45 for iron and \$58@62 for steel, according to delivery. Old rails \$26@28 per ton; scrap, \$25@27. Manufactured Iron has sold less freely and with considerable pressure to realize upon foreign stock, prices are weak and uncertain for wholesale parcels. Stove rates are nominally unchanged. We quote Common Merchant Bar, ordinary sizes at 2 3 @ 2.4c, from store, and Refined at 2 5 @ 2.6c; wrought beams at 3¼c. Fish plates quoted at 2¼@2½c; track bolt and nuts, 3¼@3½c; railway spikes, 3¼c; tank, 2@3.1c; angle, 3c; best flange, 6c; and domestic sheet on the basis of 3¼c for common Nos. 10@16. Other descriptions at corresponding prices, with 1-10c. less on large lots from cars. LEAD.—Domestic Pig met with a moderately active demand as wanted for ordinary trade consumption, and values were not very firm, though in most cases the quotations is still made at about former figures. We quote 13¼@15c. The manufacturers of lead are steady and quoted: Bar, 6c; Pipe 6½c., and Sheet, 7c., less the usual discount to the trade; and Tin lined pipe 15c. Block Tin pipe, 40., on same terms. TIN.—Pig sold fairly in part for consumption, but there is evidence that a number of lots have been quietly picked up, and brought under control as the basis of a speculative movement. We quote 20¼@21c. for Australian, 21@21¼c. for Straits, 21@20¼c. for English Refined, 20¼@20½c. for do. Common. Tin Plates have shown some irregularity both as to movement and price, but as a rule the tendency was in buyers favor. The demand in the main for consumption on the regular and ordinary outlets. We quote I C. Charcoal, third cross assortment, \$5.00@6.12½ for Allaway grade, and \$6.37½ for Nelyn grade; I. C. Coke —@— for B. V. grade; \$5.12½@5.25 for Yspitty grade; Charcoal terne \$5.25@5.50 for Allaway grade, 14x20; \$11@11.12½ for do., 20x28; Coke terne, \$4.75@4.87½ for Glais grade, 14x20, and \$11@10.12½ for do., 20x28—all in round lots. Spelter has shaded a little on cost, but closes pretty steady at 4½@5c. for desirable brands. Sheet Zinc rather easier with valuations placed at 7½@7¾ according to quantity.

Latest mail advices from Rio Janeiro (A. C. Nathan & Co.) are, to November 5th, as follows:

Pitch Pine Deals.—No arrivals since our last report; for one or two cargoes to arrive rs. 40\$000 is asked and 35\$000 offered. We quote rs. 39\$000 per dozen 3x9x14; market strong.

Spruce Pine Deal.—The only arrival we have to note is the David Babcock from Bangor with 409,518 feet, which were for dealers' account. We quote rs. 34\$500 per dozen; market firm.

White Pine Lumber.—15,124 feet have arrived from New York per Southern Home, and some were sold at 115 rs. per foot. We quote 115 to 120 rs. per foot, according to quality; market strong and advancing.

METALS.—COPPER.—Ingot has been in fair average jobbing demand and firmly held at full former rates. The companies and the manufactures have failed to come to any understanding regarding future deliveries and are said to be wide apart in their views. We quote at \$19@19½ cash for lake. Manufactured copper has retained the average share of attention and continues to be firmly held at full former figures. Other descriptions at corresponding prices, with 1-10c. less on large lots from cars. LEAD.—Domestic Pig met with a moderately active demand as wanted for ordinary trade consumption, and values were not very firm, though in most cases the quotations is still made at about former figures. We quote 13¼@15c. The manufacturers of lead are steady and quoted: Bar, 6c; Pipe 6½c., and Sheet, 7c., less the usual discount to the trade; and Tin lined pipe 15c. Block Tin pipe, 40., on same terms. TIN.—Pig sold fairly in part for consumption, but there is evidence that a number of lots have been quietly picked up, and brought under control as the basis of a speculative movement. We quote 20¼@21c. for Australian, 21@21¼c. for Straits, 21@20¼c. for English Refined, 20¼@20½c. for do. Common. Tin Plates have shown some irregularity both as to movement and price, but as a rule the tendency was in buyers favor. The demand in the main for consumption on the regular and ordinary outlets. We quote I C. Charcoal, third cross assortment, \$5.00@6.12½ for Allaway grade, and \$6.37½ for Nelyn grade; I. C. Coke —@— for B. V. grade; \$5.12½@5.25 for Yspitty grade; Charcoal terne \$5.25@5.50 for Allaway grade, 14x20; \$11@11.12½ for do., 20x28; Coke terne, \$4.75@4.87½ for Glais grade, 14x20, and \$11@10.12½ for do., 20x28—all in round lots. Spelter has shaded a little on cost, but closes pretty steady at 4½@5c. for desirable brands. Sheet Zinc rather easier with valuations placed at 7½@7¾ according to quantity.

NAILS.—Some dealers report a good trade, others complain of the slow movement and an irregular tone is the characteristic of the general market. Supplies appear to be full enough, and we learn of no difficulty experienced in completing orders. On prices the old irregularity continues, and quotations range from \$2.75 per keg up to \$3 for 10d to 60d, according to quantity of stock handled.

PAINTS AND OILS.—Demand continues moderate for pretty much all kinds and from all sources, and the market has a dull tone. This, however, is not out of the usual course at this season of the year now at

hand, and fails to disturb dealers, either wholesale or jobbing. Prices have undergone the ordinary toning down on the difference between an active and dull business, but production has also been diminished, and there is no pressure of supplies upon the market. Linseed Oil has not sold to any extensive amount in full parcels, but a pretty good distribution took place, and with the supply under very good control holders maintained a firm tone on prices. We quote at 56c @61c. from crushers' hands.

PITCH.—An ordinary distribution on regular orders has been made, with the offering ample and former rates accepted, the tone ruling about steady. We quote at \$2.15@2.25 per bbl. for City, delivered.

PLASTER PARIS.—On Lump there is no regular market, and quotations are nominal and useless, as most of the supplies are contracted for at the eastward. The addition to the cost of transportation for stove, however, commences to reflect itself upon the market for Calcined, and the latter is somewhat higher, the standard brands of common being now generally held at \$1.25 per bbl., with the upper grades in proportion. The demand is good for the season, and grinders generally appear well satisfied with the condition of business.

SPIRITS TURPENTINE.—The general market is slow and uncertain, and buyers not much inclined to operate beyond early and positive necessities. Stocks, however, have been kept well under control, with owners more or less indifferent, and values in consequence, found fair support until latterly, when a weakening at primary points found a same sympathy here. As this report is closed, the quotations stand at about 45@46c. per gallon, according to the quantity of stock handled.

TAR.—The market is unchanged, a moderate supply keeping advantage in sellers favor, and supporting former values. The demand is mostly for jobbing parcels, as the extreme cost induces care among buyers. We quote \$4.00@4.12½ for Newberne and Washington, and \$4.00@4.25 for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows: 1st—Q. C. is an abbreviation for Quit Claim deed i.e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty. 2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

YORKTOWN.

Horne, Richard W.—Odile A. Horne, on highway from Peekskill turnpike to Gilbert Mott's (Hog lane), 1 acre. ... 350
Welde, Emma A.—Odile A. Horne, plot on e or rear side of above premises, 1 acre. ... 100

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date

*29 Seaman, Arnet and John H.—Squire Van Buren.....	776 52

** To the Editor of THE REAL ESTATE RECORD :*

This judgment is in reality not against us. We bought two cargoes of brick from one Squire Van Buren, but, before the brick were discharged, one James E. Member called upon us and told us not to pay Van Buren, as the brick was his, *Member's*. Van Buren then called for settlement, which we refused. We felt satisfied that the brick was the property of Mr. Member, after his statement to us. We paid Mr. Member for the brick, upon his giving us a bond of indemnity, signed by himself and William K. Hammond; then Van Buren brought suit against us. Mr. Member's own lawyer defended it for us, but through some way Van Buren obtained a verdict. He, Van Buren, you will see, had to bring the suit against us, but we are not actually the ones to suffer, as we have the bond to secure us against loss in every way. Mr. Member has authorized us to carry the case up.

Yours respectfully,

A. SEAMAN & SON,
Foot of Horatio street.

DIRECTORY OF

RELIABLE REAL ESTATE AGENTS.

We have carefully investigated the responsibility of all Real Estate Agents named in this Directory, and find them to be in every way competent and responsible. We therefore recommend them as capitalists and real estate operators generally as being the best agents to be secured in their respective section, as shown by letters from prominent business firms, which may be seen at the office of the REAL ESTATE RECORD.

STEAM HEATING

FOR FACTORIES, PUBLIC INSTITUTIONS AND PRIVATE DWELLINGS.

ANNIN & CO.,

Agents for the
Page Steam Heating Company
OF NORWICH CONN.

This Steam Heater is the most economical in fuel, perfectly safe from any explosion, and requires no more care than a hot air furnace; it can be attended to by any domestic. Personal reference given from those in use. Parties who intend to heat their houses with steam will find it to their interest to call on us, as we guarantee satisfaction or no pay.

ANNIN & CO.

Foot of ADAMS St., Brooklyn.

Steam Stone Works.

All kinds of Cut-Stone Furnished and Set.
LITTLE 12TH STREET, NORTH RIVER.

FORDYCE & BROWN

RYAN BROTHERS,

64th Street Steam Stone Works,
Dealers in Brown Stone
and ALL KINDS OF FREE STONE,
Nos. 388 to 392 East 64th Street,

No. 137 BROADWAY

NEW PHASE OF THE TRANSPORTATION QUESTION.

What will be the relation of the railway transportation lines in the future to the express companies, the palace car combinations and the fast freight lines? These organizations were formed inside the railway systems to effect what the companies were not prepared to do for themselves—the palace cars to carry passengers from one end of the country to the other, the express companies to transport parcels, valuable and light articles of freight to different parts of the country at an advance upon the ordinary rates, while the transportation lines dealt with the several roads and formed practically a trunk connection between the farm regions of the interior and the great markets of the country and the ports on the sea coast.

It must be borne in mind that these organizations sprang up and were in active operation before the railway system was developed, and prior to the consolidations and pooling arrangements which are fast limiting the number of railway systems to three or four. Now, that all the roads are becoming either transcontinental or feeders to great interstate lines running from the Atlantic to the Pacific coast, is it not probable that they will change their relations to the palace car companies, the express companies and the transportation lines? Already the Wabash system of roads is carrying express packages. The Baltimore & Ohio Road is fighting the Pullman Palace Car Company, and the pooling arrangements made by the great trunk lines are doing away with the necessity for freight transportation lines—the Merchants' Express and the like. In other words, as the combinations of railway direction becomes greater and have a larger area of country to cover, they have been enabled to provide for the freight and passenger traffic, which has heretofore been monopolized by these parasitic organizations. The profits which legitimately belonged to the railway companies, have in the past been frittered away upon organizations which lived only because the companies themselves could not transact all their business.

But, will the public be benefited?

We judge not, for the present. The gains of the express, palace car companies and transportation lines will, in all probability, hereafter be divided between the inner circle of railway officials. This generation will never know the profits made by the leading railway magnates from what may be termed the secondary business brought into existence by the railway lines. Apart from their interests in the roads, the Vanderbilts and others are holders of palace car stock, of stock yards stock, they all will also be large holders of refrigerating car stock when these come into more active use. Then, they are enabled to provide immense fortunes in land for their heirs by investments in real estate in the neighborhoods of depots they propose to establish. Thousands of vast fortunes are being rendered possible within the next twenty years by the selection of sites on the new lines running to the Pacific. All along the Southern, Union, Central and Northern Pacific Roads the land has already been appropriated, which, in the fullness of time, will bring colossal fortunes to the descendants of the present race of railway directors and manipulators.

When the roads begin to do the express, palace car and transportation business, it will inure to the benefit of the immediate associates of the great railway magnates. But, in time this abuse will be corrected. The unifying of the railway systems will enforce the responsibility of the directors not only to the public, but to the government. These facts cannot be always hid—they will be too palpable, and, after a period of abuse, in which the people will be exploited, proper legislation will bring about a remedy. It is not improbable that some of the great railway lines will purchase the good will and business of the express and palace car companies, but yet it must be remembered that corporations, literally, have no souls. In dealing with the government they exact a heavy premium for their vested rights. In dealing with one another they have no compassion. On several of the roads the express companies have already been peremptorily ordered off. The courts have so far taken the conservative view and have admitted that they have some rights which the existing corporations must respect. It is, however, safe to predict that within the coming decade the railways will themselves do their own express and palace car business, as well as secure the profits now absorbed by the freight transportation lines.

THE INWOOD SITE.

The quaint saying of the Hibernian gentleman that "the site for the World's Fair would be selected after the Fair has been held" will not prove true after all. We

must congratulate the various committees that they have at last agreed upon a site, and now fervently hope that they will succeed in raising the funds requisite for this vast enterprise, within the time specified by law, January 10. It is a pity that an agreement as to a site was not reached at the very outset, and the disagreements may have led to the withdrawal of capital that ought to have been subscribed ere this. Nevertheless, this tardy but unanimous selection of Inwood may yet induce capitalists, hotel keepers, railroad magnates and others to supply the money necessary to make the exhibition a grand success. Without this preliminary assurance, of course, it would be idle to anticipate great results from an undertaking that must be excelsior in all its various details, so that New York can be proud, indeed, of the International Exhibition to be held within its borders. Its projectors have the very best of wishes for success. It depends upon their energy and intellect now whether they will or can take judicious advantage of the good will that bids them God speed. Time is short; two years pass by very rapidly, and with due foresight success may yet be assured.

Inwood, the site selected, can be reached from the Grand Central Depot in fifteen minutes. Some of the Hudson River steamboat companies own land near by and have only to drive piles down to make landing places. There is forty feet of water at the landing. The tract selected has a mile frontage on the King's Bridge road, and a mile frontage on the Harlem River. In the 250 acres which it contains there are 4,250 lots. The land is held by about fifty owners.

RAPID TRANSIT ON THE HUDSON.

We have heard a great deal of late of the transval district, which includes the region known as Carmansville, Washington Heights and Inwood. There can be no manner of doubt that there is a grand future for this district, situated as it is on the borders of the Hudson, and embracing some of the most beautiful grounds known on and around Manhattan Island. An effort has been made recently to bring this section more prominently into the real estate market and to urge upon investors the propriety and advantage of lodging their spare funds in the soil of that section. No one, of course, can find fault with the efforts of those interested to bring this locality more prominently to the front. But the sound proverb that "God will only help those who help themselves," comes in quite appropriately right here. Why do not the owners of property in and around Inwood, which extends from Fort

George to Spuyten Duyvel, and those owning real estate at and around Carmansville and Washington Heights, do something practical to bring this section into prominence? There are splendid opportunities all along that streak of land to build several first-class docks on the Hudson, docks that will not only be ornaments to that locality, but will attract business, that has heretofore been denied it owing to non-accessibility. With docks like these constructed on most approved principles, the time will not be very far distant when we can have rapid transit to that section by water, and a fleet of fast steamboats, equal in swiftness to those that ply along the Thames river in London, will bring The Transval without delay in close communion with the lower wards of the metropolis. No locality, in fact, contains property owners of greater enterprise than his identical section, and they are men who need not go outside of their own circle to raise the capital required for this line of fast steamboats. We only mention the names of James Gordon Bennett, Wm. H. Hayes, William Libbey, Joseph Fisher, Joseph H. Goodwin and the estate of Geo. H. Peck, to denote the capital that is centred right in and around this Inwood, Carmansville and Washington Heights section, and if these owners only knew and saw the advantages that will accrue to their own particular property, they would readily subscribe the amount required not only for the building of the docks but also for the construction of the swift steamers that must, ere long, establish rapid transit on the waters of the Hudson.

A DANGER SIGNAL.

We warn the investing public to scrutinize closely every new scheme for the employment of their money. Said a well-known railroad promoter, "there will be no difficulty in making money for the next five years, for any piece of paper with a picture on it representing a new railway enterprise will sell readily."

There are two schemes now being pressed upon public attention which the public may as well understand, first as last, are simply magnificent bubbles. One of these is De Lesseps Panama Canal, the other the Northern Pacific railroad.

We have repeatedly in these columns pointed out the tendency towards inflated and magnificent schemes. These never fail to come to the front when there is a plethora of money and much speculative activity. We all know what occurred during the paper inflation. A new generation has grown up since then, and the vast volumes of gold, silver and paper are ready to be poured into any tempting scheme which comes along. In Europe the shares of De Lesseps company are at a premium. Yet look at the gigantic folly of that enterprise. Granted that the canal can be dug and new harbors made on the Pacific coast as well as the Gulf of Mexico, the fact still remains, that nearly all the material interests of this country will be unfriendly to the prosecution of the work. President Hayes' message on the subject very fairly represented the average American sentiment upon that project. We now

virtually control the traffic between Western Europe and Eastern Asia. We would lose all that lucrative and growing trade if the steam vessels were to ply directly between the ports of Europe and the eastern coasts of India, China and Japan. The vast trade of the Pacific would be almost wholly lost to the United States. All the great corporate interests of this country would insist upon the government putting a stop to the prosecution and completion of this work. Yet here are the bankers of London and Paris actually paying a premium for what is sure to bring them disappointment.

Then look at the Northern Pacific Railroad. Has it not been from the start the most doubtful of all the enterprises of the age? Granted that there are some excellent wheat lands in the Red River valley; conceding that as we near the Pacific coast there is timber and arable soil of potential value, still the fact remains there are vast uninhabitable spaces which are without minerals and useless for any productive purposes. Then even the good lands are unsettled. True, there is a show of activity in the stock; but this is due to the sales of land which must in time become exhausted, to the work of the road itself in laying tracks and the opening of some few farms. But this will not support a railroad permanently. There is nothing more certain than that the \$40,000,000 which is to be subscribed will be an almost total loss to the investors.

But, says a credulous investor, "see the respectable banking houses which are in this North Pacific Syndicate. Surely they would not countenance a scheme which will eventually injure their patrons."

The business of a banker is to buy cheap and sell dear, the same as any other merchant or broker. The immense fortunes of banking houses are built up from the profits they make in inducing investors to purchase bonds at high prices which cost them very little. The Panama Canal bubble and the Northern Pacific bubble will neither of them burst until long after the bonds are sold. The close of the year 1881 will see the bonds and shares all marketed, and then the bankers will then disavow all responsibility for the future. Jay Cooke reaped the first harvest from the crop of fools who went into the Northern Pacific at the termination of the war. The second crop of unwise investors will be exploited by the very respectable bankers who formed the syndicate to place the \$40,000,000 of new bonds. It is not improbable but there will be a third and a fourth crop to be fleeced, for it must be remembered that this has been the experience of nearly all the great transportation lines of the country. The Northwest has been reorganized three times, and yet the road ran through a much more settled country even at first than the Northern Pacific is likely to do for the next twenty years. Then look at the history of the Iron Mountain, of the Kansas Pacific, of the Fort Wayne, the Union Pacific and the Wabash, all of which were in every way more promising properties than the Northern Pacific can be for a generation. And, yet, it is easy to see that the Northern Pacific syndicate will

be successful. Their inside price will probably be from 60 to 75. They will sell to the jobbers at from 90 to 95. The innocent investors will take them between that figure and par. All will go well for three or four years—the road will be completed—then will come the failure to pay interest, foreclosure proceedings, reorganization, more bonds, to be followed by another failure further along and another reorganization, the investing public the victim every time, the great contractors, manipulators and bankers reaping the rich harvest. If, in this connection, our readers would take up Poor's Manual since it was first published, and carefully follow the history of every railroad company west of the Alleghanies, they will find that we are justified in our forecasts of the future history of this road.

Of course, what we have said above will not be heeded. These bankers are powerful, and their advertisements will secure them the co-operation of the press. It is really no one's interest to protect the public, for the small bankers will aid the larger ones, expecting to get their one or two per cent. in the placing of the bonds. Those who speculate in them will expect to get out before the deluge comes.

Of course, in time even the Northern Pacific will pay, but certainly not in our generation. The country will become more and more settled, local and through traffic will increase, and then feeders will be built and connections made which will make it a profitable road, but certainly not this side of 1900.

VALUES THEN AND NOW.

Along with the study of the actual state of the real estate market, it is important for investors to take occasionally a retrospective view of values in the city of New York. A few weeks ago we gave the result of an examination of a lot book of 1854, showing the small number of buildings then constructed above Twenty-third street. We there and then showed the increase of improvements in our city during the past quarter of a century. To-day we give an instance of the great increase of values, and print the following account of an auction sale of Broadway lots belonging to the estate of Jacob Harsen, held by Cole & Chilton, on Thursday, November 22d, 1849. The sale was held at the Merchants' Exchange, under the authority of the court; I. I. Terrell, Wm. B. Lawrence and S. L. Bradley being the commissioners in partition, the firm of Gerard & Platt the attorneys. At this sale, the southwest corner of Broadway and Fifty-fourth street was sold for \$1,025, the two adjoining lots for \$735 each, the next for \$710, the one adjoining for \$620, and the two following respectively for \$690 and \$800, the Fifty-third street corner being disposed of for \$1,180. The last corner was the northwest corner of Broadway and Fifty-third street. Now, as to the Eighth avenue front, the northeast corner of the avenue and West Fifty-third street was there and then sold for \$1,125, the adjoining four lots fronting on Eighth avenue for \$845 each, until they reached

December 11, 1880

within seventy-five feet of the corner of Fifty-fourth street. Then they dropped off to \$775 each, the southeast corner of Eighth avenue and Fifty-fourth street being sold at \$1,000. In fact, the entire block, containing twenty-eight lots, was there and then disposed of at an average of \$500 for each lot, calculating the values of the twelve additional lots on Fifty-third and Fifty-fourth streets.

We need not point our readers to the significance of the above figures, compared as they easily can be to the values prevailing to-day. Broadway fronts on said block are worth at least \$18,000, and, thirty years have hardly passed since the above sale was effected.

In this connection we are at liberty to publish the following statement, made to us recently by Gen. Egbert L. Viele. He said: "When, in 1856, I first began to lay out the Central Park, an entire block at Sixty-fourth street, between Fifth and Madison avenues, was offered to me at six hundred dollars per lot. I tried in vain to get a capitalist who had plenty of money to see it in the same light as I did, but he did not, and declined to purchase it. Since that time one single lot in this identical block has sold for \$50,000, and the entire block averages to-day fully \$30,000 for each lot."

Comment, indeed, is unnecessary in the presence of figures like these. Let those who have surplus fund on hand study the above facts. Add on even the amount of taxes and assessments paid on them since the years mentioned, and regard the values which lots like the above command in this market to-day, and that, too, in the absence of anything that is generally known as "a boom" in the real estate market.

ABOUT TELEGRAPH STOCKS.

We advise investors to give Western Union, Atlantic and Pacific Telegraph and American Union a very wide berth. The progress of invention is so rapid that there is danger every day of new modes of telegraphing or telephoning which may render obsolete the patents and methods at present in use. We mentioned a short time since, the work of a new company which had almost completed a new set of telegraph poles and wires from Boston to Washington. These wires were for the use of brokers and business houses which wanted direct communication between headquarters and the various agencies throughout the country. The present telegraphic system is not quick enough. The operator in the interior cities wants to know immediately the price of stocks as well as all market values. In other words, he wants to be placed on an equality with the operator who stands over the tape in this city. This the new company proposes to give him by leasing wires for the exclusive use of the bankers and brokers who telegraph directly between their own offices and branches in other cities.

Nor is this all.

Inventions have been perfected for cheapening the laying of cables, not only on the water but under land. We have seen several

specimens lately of copper wire insulated, protected, and not by steel as in the old cables, but by a lead composition. The value of this new cable is its cheapness, its greater durability, for lead does not oxidize so rapidly as steel, and its flexibility. It is believed that the time cannot be distant when all telegraph communication will be under ground. Telephonic communication is now all but impossible because of the myriads of wires needed to string along the poles. Then the interruptions by weather is a serious item. The laying of these cables, which will be forced upon the companies, will cost a great deal of money, and there are other changes imminent which makes telegraphy a risky business for those who dabble in the stock of the companies. There is scarcely a question but that the Western Union has lost its monopoly. Its rival is taking away much of its business and then the private wires will encroach upon its monopoly of commercial news. Decidedly telegraph stocks are not investments for prudent people.

SECRETARY SHERMAN'S RECOMMENDATIONS.

Secretary Sherman wishes to refund such of the public debt as falls due during the coming year in short time bonds, bearing 3.65 interest or less. In other words he wants to be empowered by Congress to have the option to give as high as 3.65 should the market not admit of better terms. But the committee of Ways and Means of the House, have unanimously decided that a three per cent. bond can be floated at par. But in that case, instead of a ten year bond, one payable in twenty and redeemable in forty years will have to be issued. Upon the action of the committee becoming known to Wall street, an advance in the price of all securities followed, as the marketing of a three per cent. bond would force the government to bend all its energies to keeping money easy throughout the year.

We doubt the wisdom of any scheme which looks to the manipulation of the market by Government for its success. This steady "Bulling" of the price of Government securities by the Secretary of the Treasury has an unwholesome effect upon the general trade of the country. Money is made unnaturally cheap, and a stimulus is thus given to the price of commodities not warranted by their intrinsic value. Some time or other the government must withdraw from its support of the bond market, and then will come depreciation and loss, not only in government securities, but in general trade. The time has come when the United States might adopt the same financial policy as that of Great Britain, and refund its debt in consols, having no specified date of payment. A British consol is really a transferable annuity, or rather, it is a perpetual debt, to be liquidated only by purchase in the open market by the government. An American three per cent. consol would soon command a premium.

On one point we agree with Secretary Sherman: there should be no reduction of the income of the government. The present

Congress, during its short life, could not act intelligently on the subject of tariff reform. There is no time for fiscal legislation that would wisely readjust the burdens of taxation. Indeed, we ought to stop paying the public debt before it is due, and use our surplus means in developing the business of the country. We want steamship lines encouraged, a navy created, our seaboard cities put in a state of defence, the telegraph lines bought up and made a part of our postal system. There are public works also, that should be undertaken, instead of paying our debts before they are due. We should take advantage of our unequalled credit and borrow more money to add to the power, commerce, prosperity and security of the nation.

INTERNATIONAL COINAGE.

France, which declined to back the demand of the United States at the international conference for the establishment of the same ratio between gold and silver in the coinage of the world, is now evidently about to take the back track. In a recent debate in the French Chambers, it was admitted that France was losing its gold, and that the wise course would be for an agreement between Germany, France and the United States for a standard of value recognized in these three countries. The United States and France are both decidedly bi-metallic. Germany has tried the single gold standard and it has proved a disastrous failure. Prince Bismarck is now satisfied that he made a mistake in adopting an exclusively gold currency and is, it is understood, willing to come to some agreement with other nations so as to use both metals in the general business of the world. This is a golden opportunity for Secretary Evarts. The matter could be arranged by treaty and concluded before the close of the present session of Congress. The American standard of sixteen to one undervalues silver as compared with the French standard of fifteen and a half to one, but a union of the bi-metallic states would probably agree to the French rather than to the American standard. Secretary Sherman's proposition to still further undervalue silver by putting more additional grains in the dollar is not to be thought of. It is a preposterous proposition. There is no reason why we should pay the public creditors in any more grains of silver than we agreed to liquidate the debt in when the present obligations of the country was contracted. The American dollar of 412½ grains was then the standard and we are not called upon to do better by creditors than the bargain we made with them.

OUR GOLD COINAGE.

Why will not Secretary John Sherman give us some small gold coins? Since the first of January, 1849, the total of our gold coinage amounts to \$1,050,000,000, \$925,000,000 of that large sum has been coined into double eagles, a coin that no one wants to handle. Only \$30,000,000 are in \$10 pieces. Of the gold coinage of the last five fiscal

years ninety per cent. were in \$20 pieces; five per cent. in \$10 pieces and five per cent. being in \$5, \$2.50 and \$3 pieces. If we are to have a general coinage of bullion, it is clear that the mint should furnish us the small rather than the large pieces. There will be no need of using the standard or the trade dollar if there was an abundance of \$5 and \$2.50 gold pieces. It seems to be the craze of the Treasury Department to flood the market with small notes. On the first of November, 1880, out of a circulation of \$347,681,016 of legal tender or greenback notes, twelve per cent. were in notes of the denomination of \$1 and \$2; nineteen and a half per cent. of \$5, and twenty-two and a half per cent. of \$10 notes. In other words, fully fifty-four per cent. of our paper circulation being in notes of the denominations below \$20. Now in other countries there is a prohibition of paper money below \$20 and \$25. For instance, in France there is a specie circulation, according to the *London Economist*, of \$2,000,000,000 in gold and of \$600,000,000 of five franc silverpieces. The great stock of gold in France is mainly in a coinage of less than \$4 of our money. We are importing gold and retaining the gold and silver which we take from our mines but we do not use it. We put it in our sub-Treasuries and bank vaults and then turn to and issue paper money which is not needed. Yet we produce bullion while England, France and Germany do not produce it. Our press is active in denunciation of the coinage of the silver dollar, which, at least, is worth almost par in gold simply as bullion, yet has no word to say against the emission of immense quantities of paper money, which has no intrinsic value whatever. The press ought to represent our bullion interests in this matter.

MOVEMENTS IN THE METAL MARKET.

It is rumored that the next great "bull" movement will be in metals. The consumption of iron all over the world is unprecedented. The business was overdone last fall and winter, but the reaction killed off all speculation, and the price has been kept back in face of an enormous consumption. There has been a flurry in tin lately, but copper and lead are said to be the next metals to be advanced to very high figures. The extraordinary development of building all over the country calls for lead for a variety of uses besides plumbing, and it is believed that the next few months may see millions of pounds of copper used for electric lights. The Vanderbilts have already contracted with Edison for four hundred electric lights in their new houses. By next January the "Wizard of Menlo" expects to have his invention perfected, and the universal adoption of the electric light will call for millions of pounds of copper. If the telegraph companies are forced to put their wires under ground it will create an unusual demand for both lead and copper. Those who think stocks very high, and wheat and cotton uncertain, because of over-production, would do well to turn their attention to the metal market. Speculation is dead in iron, tin, copper, lead and spelter up to date, and a few millions, invested would

make a great difference in the price. Lead, which is under five cents a pound may sell for eight before next May; copper, which is nineteen cents for lake, may reach twenty-five, as it did last February, while tin may be worth twenty-four. We ought to have a regular metal exchange in New York. They are safe products to deal in, for they are less subject to fluctuations than railway stocks, provisions, or cotton.

WALL STREET NOTES.

The course of the stock market for the past week will not be a surprise to those who have followed the vaticinations and forecasts of this journal. We pointed out that December was more apt to be a "bear" than a bull month. Of course there are exceptions to all rules. What is called the January rise sometimes comes in February, but it is true, as a general thing, that as money accumulates in mid-winter, due to its non-employment, productively there is apt to be a movement in stocks so as to keep it employed. Hence the theory of a January rise. The first of the year sees a large amount of money disbursed in the form of dividends. The investor must do something with it. It cannot lay idle in the bank for a very long period, as some line of stocks generally get the benefit of this necessity for the investment in securities. Then, again, it has been noticed that December rarely sees an excited stock market. This has been attributed to the demand for money which exists during that month for the payment of taxes all over the country, especially of local taxes, which amount in the aggregate to a very large sum. Then at the close of the year prudent business people take an account of stock and are indisposed to engage in new business ventures. Farmers lay in their supplies for the winter. That also temporarily locks up a good deal of money. Prudent housewives spend their cash, also, for winter stores, and then even the holidays abstract a good deal of money into an unusual channel for two or three weeks. The tight money which threatens the market all the time has therefore a real excuse. It can be accounted for without supposing that Jay Gould and Russell Sage or any bear operator has anything to do with it. They probably take advantage of these times to sell stock short. But, with all, there is a strong undertone. True, the higher rates for money has reduced margins. The poverty of the banks has had the effect of contracting the loans. The "bears" have made some headway, yet, with all, there is a disposition to buy stocks for a permanent rise. Foreign exchange is very low and hence gold not only continues to come but the amounts promise to be large even during January. Last year the gold shipments stopped before this time. True, they had been larger in amount than they are likely to be this year, but the drain now is continuous. We do not believe that stocks are too high considering the large amount of business done and the cheapness of money. We feel satisfied that before next summer, perhaps in the early spring, the price of securities will range on a much higher level

True, much depends upon the action of Congress. If a proper funding law is passed money will be easy during the whole year. If a serious attempt is made to demonetize silver, then we must expect financial alarm and a lower range of prices. But the indications point decidedly in the other direction.

THE JAY GOULD STOCKS.

There has been a notable advance in what are known as the Jay Gould stocks, viz.: Missouri, Kansas & Texas, Wabash and Union Pacific. The point was given out on Wednesday to buy U. P., M. K. & T. and Western Union, but the war of rates between the telegraph companies, which commenced on Thursday, put Western Union stock down eight points, but Union Pacific and M., K. & T. scored a handsome advance.

It will naturally occur to the lookers on, that it is strange Gould did not take advantage of the bull movement during the last of November to market his stocks, but they were steadily sold down and kept back when the whole market was advancing. The present movement is a suspicious one; more especially as it is accompanied by a "drive" at Iron Mountain. Gould is interested, as we all know, in railroads to the City of Mexico via the Laredo Pass. A glance at the map will convince any one that the trunk line to the Laredo Pass will not be the M., K. & T., but the Iron Mountain. The opening of the Indian Territory, as foreshadowed by Secretary Schurz's report, would make the stock of the M., K. & T. very valuable, but, for all that, it is not unlikely that Gould is at present, using the stock of the one road to depress the other, in order to buy it in, and so control all the traffic to the City of Mexico.

It seems the Californians and W. H. Vanderbilt are again punishing Jay Gould and Russell Sage. Gould and his friends went long of Western Union from 96 to 90. The point was given that the stock was going to par, and the Wabash crowd bought heavily. W. H. Vanderbilt, L. O. Mills and their California followers sold the stock short, against their own holdings. The price was down to 82½ on Thursday evening, and it is understood that Gould and his followers are heavy losers so far. Two weeks ago negotiations were pending between Gould and Vanderbilt for a consolidation of telegraph interests, but there was a misunderstanding, and war has now been declared. As a property the Western Union is in excellent condition, for the report shows that, after paying its 1½ per cent. quarterly dividend, it has spent nearly two million dollars in improving its surface and adding to its poles and wires. Still, the public are justly apprehensive of the future value of the stock, which will always be subject to such fierce competition, and which may be rendered valueless by some new scientific discovery.

A GREETING TO THE GOOD TIMES.

[Contributed.]

The following article has been handed in by a young contributor. It seems to indicate a slightly excited frame of mind:

The good times are coming! Exalt your horn, O prophet, of prosperous prospects. The thundering hoofs of the "Bulls," awake the echoes of the "street," and there is joy and gladness where brokers trade and merchants do most congregate.

Prosperity is coming, coming! See, the golden tides are already streaming over the ocean! Soon our coffers will be full to overflowing, with th

silver of the East and the gold of the West. The earth has yielded, oh, so abundantly. The farmers' graineries can hold no more. The cattle from ten thousand plains and prairies are being utilized to feed the world. The flocculent fibre whitens the southern harvest field, contrasting picturesquely with the ebony-faced laborer flitting in and out among the cotton bushes. Our warehouses groan with the weight of our productions; vast cargoes of grain and provisions await shipment at every port; locomotives puff and tug and scream, vainly trying to haul the myriads of cars called for by the commerce of the world.

Rejoice, oh money changers! Your great harvest has come. "Paul may plaut, Apollo may water, but to you will come the increase." Let your heart be glad, also, oh merchant, for your ships will come and your ships will go filled with a barter and spoil of every race and every clime.

Bring out your fast horses, youngster. Let the high stepping steed be seen on the avenue. Hurrah for the race course. Hundreds of thousands must be paid for each second gained on old Time. Don't be satisfied with the gait until the mile is made in two minutes.

Import lavishly of the rarest and choicest brands, oh wine merchant. Don't fear. They will be called for. What, ho, jewellers, where are your ornaments of gold, your gems, your sparkling diamonds? The very costliest and daintiest, mind you!

Do you hear? The good times have come and all the wealth of Ormus and of Ind which showers on her kings Barbaric, pearls and gold, is now ours, and why should not the hearts of a prosperous people be glad?

Now is your time, oh, Society Belle! Where are your dresses from Paris, the shawls and laces from Belgium and Spain, India and Persia; where the ravishing lingerie and dainty ornaments with which to dazzle the ball-room and charm the coveted consort?

And now is your chance, oh magnificent hussy! The victim is ready. Go for him. Adorn yourself. Put on the seductive robe; weave nets with the angles of your shining hair, for, behold the dazed and drunken monied fool is at hand for you to bewitch, bewilder, and pillage. He is ready with his wines, his purses, his diamonds, and will give all he is worth for your alluring smiles and poisonous embraces.

Now is your chance, schemer, speculator, promoter. See that eager crowd! Not satisfied with enough, they ask for more. Only let your roguery be plausible and the credulous fools will be easily entrapped. Away with your conscience. See, there is the widow, eager to increase her store for the good of her fatherless children. Rob her then, pitilessly. And here comes the country rustic! Dazzled with the glitter of the town, he wants to make his fortune in a week. Skin him. He has youth and health, and can go to work again.

Yes, the good times have really come and to stay. There is a fowl in every poor man's pot. The honest tramp is at work again; the rich are prosperous; the humble contented; the land is filled with plenty; our future ways are pleasant, and all our paths are peace.

THE LATEST ABOUT MINES.

THE COMSTOCKS AGAIN.

There seems to be a movement on foot on the Comstock. The rise in Alta was not entirely due to a deal. There is undoubtedly ore in the neighborhood of Devil's Gate. Still Alta is famous for deals. The movement in Belcher has more backbone. It will be remembered that this was once one of the most productive of the Comstock mines, but it finally gave out, and then commenced assessments and the sinking of the shaft through barren quartz for over one thousand feet.

At length rich ore again appeared, but hot water prevented the progress of the work. This has now been overcome, and there is every appearance of an ore body in the present workings of the mine. Hale and Norcross has taken a jump during the past week, upon what seems to be a bona fide opening of a twelve foot wide ore body. When the miners were driven out by the water some three years since, the H. & N. was in ore, and we should not be surprised if a small bonanza was found in its ground. An improvement is reported in the Mexican workings. We rather expect that the time has come for renewed activity in these favorite mining gambling stocks. It will put life in the mining share market on this coast should the Comstocks go up to high figures. There is renewed activity in Sutro Tunnel stock, and the price has risen during the week. Sutro may be handy to have in the house, to anyone who is willing to take a big risk. Fortunately, the stock is unassessable.

PLUMAS COUNTY STOCKS.

The Bidwell stocks, as they are sometimes called, that is, the Green Mountain, Cherokee, Gold Stripe and Rising Sun, have had their prices fairly sustained during the present week. Mr. Brewster, a partner of Col. Bidwell, has been made president of the several companies. He is a Californian, and nothing on this coast is specially known in his favor. We cannot recommend these properties until they are reorganized, and directors, known in New York for their business capacity, are put in control. We believe all the mines are good, but there is no present assurances that the management will deal fairly with the public. Dr. Ernest Mellis, a mining engineer, has examined the Gold Stripe and Green Mountain, and, while he speaks well of the mines, he says his report was garbled by the management.

COLORADO STOCKS.

Silver Cliff was in demand at higher figures during the week, but the mine is bonded for a debt which represents seventy-five cents on every share. The people who subscribed for the stock of this mine two and a half years ago at \$7.50, have so far been sorely disappointed, for within the month it has sold below \$2. The Plata Verde mine has also gone into debt to continue its development, and, altogether, the Silver Cliff region just now is under a cloud. Bull Domingo has sold off recently, notwithstanding good reports from the mine. President Barnum and Director Dorsey have both recently been at the mine, to examine into its working. It is out of debt, but nothing is now said of the dividends which were promised for January. The Chrysolite, Climax, Amie and the other Leadville properties are slow of sale, and are mere footballs for the speculators.

MISCELLANEOUS MINES.

The movement in Bulwer continues. There is considerable inquiry for Bodie District stocks. People who profess to know what they are about, are buying the Noondays and Mono, but those who purchase the shares of the latter must expect assessments. There is some talk of a meeting of the Bodie stockholders, at which, it is understood, that Mr. Wm. M. Lent will make a statement about the condition and prospects of that famous mine. It is strange that respectable papers like the *Tribune* will continue to notice Boston Consolidated, which certainly is not in good hands.

Findley is in demand among the knowing ones. The mine is, we understand, really doing well. Calaveras, it is claimed, will very soon be in demand, for it promises from this time forth to become a paying property.

The Ontario pays its sixty-second monthly dividend of 50 cents. This stock was marketed originally at \$20. Those who subscribed have got all their money back and \$12 a share in addition,

while they have stock in a mine which promises to last many years. Judged by the developments on the 700 foot level just opened, the Ontario is the greatest silver mine in the world. In view of the \$2,320,000 paid in dividends by the Standard of Bodie, that mine must be pronounced the greatest gold mine in the world. The Richmond of Eureka is unquestionably the greatest base metal mine in the world. Indeed the Richmond, which is owned in England, has more available ore in sight than any mine at present known. The Horn Silver has a very large ore body, but it is feared that much of the mineral is unavailable because of its uncertain character; the ore in different parts of the same vein not being amenable to the same treatment.

THE MINES OF MAINE.

Prof. W. Frank Stewart, of Nevada, told a very remarkable story to the Bullion Club last Tuesday evening. He has been visiting the mineral regions of Maine and Newfoundland, and he declares that there is a world of wealth on our Northeastern coast, the existence of which has never been suspected. In Newfoundland there are immense copper mines now being successfully worked, which promise to rival in time the productions of Lake Superior. But the new silver bearing regions of Maine are a marvel. Heretofore the silver mines of New England were of argentiferous galena, but the mines along the coast, the Sullivan and others are black sulphurets of silver. At depth gold is also found, a sure sign of the permanence of the bullion bearing ledges. As yet no shaft is deeper than 200 feet, but the farther they are sunk the wider becomes the vein, the better the formation, and the richer the ore. There is every present reason to believe that mines of great magnitude and great value are here, as it were, at our very doors. Among the new discoveries in Maine is a tin mine, which may or may not be of value. The daily papers failed to make any notice of this important lectures.

MUNICIPAL NOTES.

The attention of property-owners is directed to the notice of the Receiver of Taxes, printed in another column. Money can be saved by paying taxes before the 1st of January.

The new assessment commission is rather slow in getting into regular harness. Another meeting was held during the past week, and also another adjournment—this time to December 21st.

Several banks have begun suits in the United States Circuit Court against the city, restraining the Mayor, &c., from collecting or attempting to collect any of the taxes that are regarded in excess of the amounts justly due and payable.

It has been decided in the Supreme Court that a district court justice has no jurisdiction in summary proceedings to remove a tenant where the premises which are the subject of controversy are not within the district in which he was elected.

The Central Gas Company has obtained the contract for furnishing light to the Twenty-third warders at \$10.75 per lamp. The good citizens of the Twenty-fourth Ward have made up their minds to pay the Northern Gaslight Company \$13 per lamp.

Property-owners on Brook avenue, between One Hundred and Sixty-third and One Hundred and Sixty-fourth streets, now have permission to regulate and grade this avenue at their own

expense, under direction of the Department of Public Parks.

It now appears that a title to the property on Vanderbilt avenue and Forty-third street cannot be obtained for the new Opera House Company on account of certain covenants in the deed forbidding the erection of a theatre on said ground. Good for the deed; now for Reservoir square.

A petition was presented some time ago to the Board of Aldermen to reconstruct and remodel the nuisance block adjoining the Mount Sinai Hospital, in the very centre, almost, of Lenox Hill. This resolution, if carried out, would, long before now, have remedied the evil, but action was deferred and the matter laid over.

Our Police Commissioners are now engaged in studying the subject of cremation. They have inspected a furnace built, not on the Le Moyne principle, that will consume the garbage of the city and the foul gasses therefrom in an incredible short space of time. The company owning the furnaces want, however, \$100,000 before they instal Captain Williams as the Cremator in Chief.

Long Island City has a floating debt of about \$100,000 and a funded debt of about \$1,000,000. The city does not own a building, but rents such as are needed for police stations, engine houses, schools, city hall, and court rooms. Notwithstanding the city's heavy debt, with the exception of the First Ward, streets have not been paved, sewerred, or guttered, and are in a wretched condition.

The town of Gravesend has begun an action in the Supreme Court, against Thomas E. Cable and others, to eject them from property on Culver Plaza, Coney Island. It appears that, in 1875, the ten acres of land occupied by the defendants were condemned for railroad purposes, but instead of this, have been leased to the defendants. The town of Gravesend now claims that the land should be returned to its custody.

We are informed that the West Side Association have secured quarters at Seventy-third street and Ninth avenue, so as to have a permanent office open in the very locality that comes under the jurisdiction of the association. Members requiring the attention of this organization in regard to any particular improvement for the West Side will then not have to go to the centre of the city, away from the district under consideration.

Broadway, from Fourteenth street to Thirty-fourth street, will be illuminated with electric lights on or before Christmas. The Brush Electric Light Company have received the permission from the Corporation to try the experiment, and they are erecting iron lamp-posts all along the line ceded to them by the authorities. The lamps are five feet in height and surmounted with an iron hood. A building has been secured in West Twenty-fifth street, whence the circuit will be controlled, electrically. The experiment costs the city nothing.

The General Term of the Superior Court has just rendered a decision in an ejectment suit brought by David C. Carlton against Thomas Dorsey, holding that Carlton, who took possession of a block of land bounded by One Hundred and Twentieth and One Hundred and Twenty-first streets, Third avenue and Sylvan place, which had been used for a public park, had a good title, simply from the fact of such possession, as against Dorsey, a lessee of the city, and against the city

itself, because the proceedings by which the city purported to acquire title to this land forty years ago were invalid, as not being in compliance with the statutes authorizing them, and also because such statutes were unconstitutional.

A FINE BLOCK OF MADISON AVENUE HOUSES.

The block of ten elegant houses on the west side of Madison avenue, between Sixty-second and Sixty-third streets, built by Mr. J. E. Doying, is now completed, and the houses are in the market for purchase by investors. Mr. Doying, it will be remembered, has been quite successful in the building of houses in the Sixties, between Madison and Fourth avenues, nearly all of which have since been resold at higher figures by parties who purchased them originally from the builder. In his Madison avenue houses, now completed, he has paid the same attention to detail of construction which led to the speedy sale of his other houses. The block which he has now finished are all 20-foot houses, four stories high, the corner houses being 20.5. The brown-stone is exquisitely finished, and the elaborate portico, stoop and brown-stone rails unite in giving all of them a decidedly solid appearance. Double floors are provided in the various stories, and, while seven houses are finished in walnut, three of them are trimmed in mahogany. The main halls and vestibules are all laid with encaustic tiles, giving the entrance to the front parlors a peculiarly cheerful aspect. The dining rooms are all finished in oak and burl maple, the floors are elegantly inlaid, and great pains have been taken with the finishing of the wainscoting. The mantles and mirrors are all of artistic design, the carving in the front, as well as back, parlors being of a superior order. The butler's pantry, on this floor, has been constructed and finished with due regard to a family's comfort, and here, as well as on the upper floors, ample closet room is provided. The second, third and fourth floors contain front and back bedrooms connected in the modern saloon style, while the lighter colors here met with afford a contrast pleasing to the eye of the visitor.

It should be borne in mind that the plumbing in all of these houses has been done by day's work, under the direct supervision of Mr. Doying, and that the material used in this connection is the very best that can be found in the city. The cellars in these houses are all excellently finished in Portland cement, refrigerators are built in the various walls; dumbwaiters and electric bells abound in all of them. The very best of ranges have been secured, and the most approved heating apparatus can be found in each of the ten houses. The grates and fenders, all of the most artistic design, are from the well-known house of J. S. Conover & Co., which, in itself, is a guarantee for their attractive pattern. In a future article we will allude to some further details of these really excellent houses, and only now desire to call the attention of investors to the fact that Mr. Doying offers the inside houses at \$45,000 each, and the corner houses at \$55,000. There are not so many houses just now in the market that can be secured in a locality so preferable like this, and at terms so advantageous to the purchaser.

THE FOURTEENTH STREET SAW AND PLANING MILL.

That men working with energy and intelligence in the lumber business can find ample reward in the city of New York, is fully illustrated by the standing in the trade now occupied by Messrs. Bucki & Hirsch, 534 to 537 West Fourteenth street, and 532 to 536 West Fifteenth street. This firm started in business in August, 1878, and now are compelled to work more than twelve hours every day to get through with their orders. Lately they have been supplying 120,000 feet of flooring for Mr. Amos R. Eno's new building in South Fifth avenue. They are now furnishing all the lumber required for Mr. Rothschild's building, at 620 and 622 Broadway, a contract amounting to \$12,000. In addition to the above contract, the firm has also a number of minor contracts, and employ continually from thirty to thirty-five men. They have now on hand a stock of one million feet of flooring and are busily engaged in the manufacture of yellow pine flooring, ceiling, wainscoting and step plank. They also take charge of all kinds of sawing, planing

and turning, and take a pride in completing all orders with promptness and dispatch. Owners, architects and builders will find it to their own advantage to transact business with this energetic firm.

MARKET REVIEW.

REAL ESTATE MARKET.

For list of lots and houses for sale see pages v and vi of advertisements.

The public sales at the Exchange during the past week were unimportant, and nothing further need to be said in regard to those that were not adjourned, except the details as given at foot in this column. The Ninety-eighth and Ninety-seventh streets lots, 150 feet west of Ninth avenue, sold under foreclosure by Bernard Smyth, realized \$2,325 for the two 25 feet lots, and \$2,450 for the one 23.6 wide on Ninety-seventh street. A vacant lot on Twenty-ninth street, west of Tenth avenue, was sold by Mr. Kennelly, during the week, for \$3,000.

A very important sale of Broadway property is announced by Messrs. E. H. Ludlow & Co for Tuesday next. The property includes the northwest corner of Duane street, and for investment is the very best that can be secured just now. We refer our readers to the advertisement in another column, where full particulars in regard to the locality and terms of sale are given.

GOSSIP OF THE WEEK.

Builders who have been successful during the year now about closing, and there are quite a respectable number of them, can now be met in Pine street almost daily, on the lookout for new lots, whereon to build. They are, however, the most cautious buyers in the market, as they cannot afford to let their spades lie idle for a long time after they have secured more ground on which to build houses that are sure to find a ready market during the coming year.

Life has set in at last in the district known as upper or North New York, otherwise called the Transval. Messrs. Lespinasse & Friedman have sold for and on behalf of the French heirs of the Jumel estate, the five blocks of land, bounded by One Hundred and Fifty-ninth street, and One Hundred and Sixty-fourth street, by Ninth avenue and the bulkhead line of the Harlem River. This tract of land contains about 420 lots, or twenty-six acres, a good deal of which is under water which the above firm has sold to Mr. Daniel E. Scannell. It could not be definitely ascertained yesterday at which figures the contract had been closed, but it is reported that the average price per lot paid by Mr. Scannell is about \$500. The Marquis of Chambrun represents the French heirs of the Jumel estate in this country, and the other heirs, residents of the United States, are Mr. Elliott, of Riggs & Co., Washington bankers, Nelson Chase, Wm. J. Chase and Mrs. Caryl.

Considerable Fifth avenue property has been disposed of at private contract during the past week. Mr. McRae has sold the northeast corner of Fifth avenue and Sixty-sixth street, 50x100, for \$125,000 to a gentleman who intends to improve it with a magnificent residence.

We also hear of the sale of a lot on Fifth avenue, between Eighty-ninth and Ninetieth streets, 25.2x102.2, effected by Riker & Co., for \$33,000 cash.

Mr. H. W. Coates has sold three lots on Eighth avenue, between Eighty-second and Eighty-third streets, for \$13,500. These lots belong to the estate of Geo. H. Peck.

Mr. Bernard Smyth has sold at private contract five lots on the south side of Eighty-second street, between First avenue and Avenue A, for \$3,000 each, to Mr. Chas. Hall.

The same broker has also sold during the week the northwest corner of Sixth avenue and Forty-eighth street, 100.10x75, containing five four-story brown stone stores, for \$150,000 to Mr. D. W. Bruce.

Messrs. E. H. Ludlow & Co. have sold at private contract No. 14 West Forty-eighth street, house and lease of lot (twenty-one years from January 1, 1865, Columbia College lease) for \$28,000; also No. 602 Sixth avenue, lot 19x100, with four-story brick building, fifty feet, for \$25,500.

Messrs. McCafferty & Bulkley have sold No. 83 East Fifty-third street, a 16.8 foot house, for \$25,000, to Mr. Erastus Clark, freight agent of the New York Central

road. This disposes of Mr. McCafferty's houses in Fifty-third street, all of which have been sold with advantage to first-class parties.

Mr. C. W. Luyster has sold another of his houses in East Sixty-sixth street, this time a 19 foot house, for \$12,500, to Mr. Geo. L. Ingraham. Two more of his houses are for sale, when this builder will also have disposed of the supply he had on hand at the opening of the season.

In regard to the purchase made by Mr. Henry J. Burchell in Ninety-third and Ninety-fourth streets, reported in this column last week, we are authoritatively informed that he bought seventeen lots, and not sixteen, for \$5,000 each, and not \$4,000 each as erroneously reported. The lots are west of Third avenue, and the cellars are now being excavated.

Messrs. McManus & Doke have sold their three brown stone front houses in One Hundred and Thirty-first street near Sixth avenue, to Mr. Thomas Smith (firm Hicks & Smith), of South Fifth avenue, for \$11,000 each.

Mr. Theo. M. Roche has sold at private contract for the Episcopal Church Fund, the five-story front and rear brick tenement, 516 East Fourteenth street, 25x50x103.10 to Mr. E. E. Gibbs, for \$12,000.

Messrs. Daniel Birdsall & Co. have sold to Mr. Chas. Fries at private sale, the lot and building No. 92 Reade street, for \$32,500 cash.

Messrs. Alden & Sterne report the sale of No. 77 West Eleventh street, 20x50x100, to Mrs. H. P. Barton for \$12,500; also No. 78 Fifth avenue, 30x100x107, to Mr. P. Brunner. Purchase price not given.

In our previous issue, in the list of foreclosure sales, the house No. 68 West Thirty-eighth street, was erroneously printed as for sale. It should have read No. 60. No. 68 is not for sale, and belongs to Dr. R. R. McIlvaine, of 75 West Forty-seventh street.

Among the contracts filed at the Register's office during the past week we find the sale of a vacant lot on the south side of Fifty-ninth street, 225 feet west of Fifth avenue, by Isaac P. Martin and Chas. H. Fiske to Edwin A. Gibbens and Dennis Beach for \$37,500.

Four lots adjoining the Presbyterian Church on Lorimer street, Brooklyn, have been sold for \$6,500.

Mr. Jay Gould, as owner, has filed plans for the alteration of Nos. 31 and 32 Park row, recently purchased by him. He will add a two-story brick extension, 50 and 52x62, costing \$10,000.

The following are the sales at the Exchange Sales-room for the week ending December 10:

* Indicates that the property described has been bid in for plaintiff's account:

29th st, No. 507, n s, 100 w 10th av, 25x98.9, vacant. James Moore. (Amount due, \$3,700).....	\$3,000
30th st, No. 238, s s, 175 w 2d av, 21x98.9, irreg., five-story stone front store and tenement, and three-story brick tenement in rear. Patrick Murphy. (Amount due, abt \$9,800).....	16,500
34th st, No. 157, n s, 166.8 e 7th av, 16.8x98.9, four-story stone front dwell'g. Miss M. L. Henry. (Amount due, abt \$16,250).....	17,150
42d st, No. 504, s s, 200 w 10th av, 20x98.9, three-story brick dwell'g. James Temple. (Amount due, abt \$8,700).....	10,750
*31st st, s s, 125 e 9th av, 35.3x100.9x27.4x100.9. Max Hartman. (Amount due, abt \$3,625).....	7,867
53d st, centre line, n s, 375 e 7th av, 25x130.5, vacant. Thomas McCahill. (Amount due, abt \$8,600).....	5,500
86th st, No. 340, s s, 200 w 1st av, 25x102.2, three-story brick dwell'g. Ottinger Bros. (Amount due, abt \$6,600).....	7,000
97th st, n s, 150 w 9th av, 25x100.....	4,650

BUILDING MATERIAL MARKET.

BRICK.—Some fluctuations have occurred during the week, but no permanent advantage can be claimed for either buyer or seller up to the present writing. The weather has had quite an important position as an influence upon supply especially toward the close when it becomes evident that most of the more distant yards are virtually shut off by the ice, and whatever stock now comes forward will be from the "Bay" and possibly from Jersey, Staten Island and Long Island. The cold weather has also checked consumption work, proving impossible, but there has not in the meantime been any serious falling off in the demand, as quite a number of dealers were still in want of stock, and contractors have continued to purchase and pile out against future wants in pretty much all cases where this latter course could be adopted, and it is claimed that not many cargoes carry over unsold. Still, it is evident there has been an ample offering for the present requirements of the market, and sellers securing any kind of a respectable bid have not hesitated long about accepting. On Haverstraws some quotations are made at \$7.50 per M., but \$7.35 is nearer the average cargo rate, and "Up Rivers" nominally, at \$7 per M. Pale brick have no city demand to speak of, but they are taken for other points to about the extent of the offering, and command full former rates, or say \$3.00 @ 3 50 per M according to quantity. Fronts are very firmly held, and for the choice North River brands somewhat fuller rates are talked of.

CEMENT.—Even after the preliminary warning, supplies appear to have been shut off rather suddenly after all, and there is not much of an accumulation at this point, with many shipping orders waiting to be filled. The tone naturally is firmer, and \$1 per bbl. now quite generally asked for Rosendale. Foreign grades are also firmer but no higher, the better tone being stimulated only by the diminution in the arrivals.

HARDWARE.—Business continues somewhat uncertain on the general market. There is something in the way of uniformity and fair volume to the call for holiday goods, but outside of this buyers are quite indifferent, and about the only demand made is for small parcels to satisfy special necessity. In a general way values are called steady but the yearly revision of lists has commenced and a few changes are already announced. The Lock Manufacturers have decided the discount on Locks, Knobs, etc., at 45 per cent.—a slight advance—and the list is changed on Mineral Knobs to \$1.80 and Porcelain Japanned do. to \$2.25.

At a recent meeting of the Manufacturers of Wrought Butts and Hinges the discounts were arranged as follows: Strap and T Hinges, 50 and 10 per cent.; Reversible Butts, 55 and 10 do.; Narrow Butts, Light Narrow Butts, Light Inside Blind Butts and Table Hinges and Back Flaps, 45 and 10 do.

The J. L. Mott Iron Works have announced discount on plumbers' iron ware as follows: iron soil pipe and fittings, all sizes, 40 per cent.; plain, galvanized and enameled sinks and sink fixtures, 30 per cent. All other goods of their manufacture remain unchanged for the present.

LATH.—The confidence of holders has been endorsed by the results of the week, and the full figures of the late advance were maintained with further sales of cargo lots at \$2 per M., leaving buyers still on the market unsatisfied. Indeed, receivers generally express themselves with confidence over the situation, and assert that according to present advices the offerings from the Eastward, at least, must now be small, and all instructions are to hold for full prices. It is, however, evidently not deemed expedient to push matters too severely lest a rate be reached calculated to attract supplies from irregular sources.

LIME.—Eastern continues to be quoted at former figures, and while every thing offered found a market, neither this fact nor the lateness of the season appear to have given a stimulating influence. State lime is firmer. The supply here is about all in second hands, and receivers who have certain parcels caught by the closing of the canals and the river cannot bring them forward except they realize at least 90c. and \$1.15 respectively for the two grades.

LUMBER.—Business in a wholesale way does not amount to a very heavy aggregate, as the general pressure of supplies is now over and offerings are of an irregular character. Anything desirable, however, attracts fair attention and commands former rates with evidences that buyers could be found even were the supply larger. In fact, most lumber of standard quality and dimensions is looked upon as good stock to have on hand, and while dealers are naturally reasonably well supplied at this season very few would hesitate to make attractive additions to their accumulations. There is nothing as yet shown to neutralize previous expectations of a full winter trade, indeed, it is good now, all things considered, and the early Spring wants promise to exhaust pretty much every thing carried over. Exporters are a trifle slow at the moment, but it is expected will be good customers at the opening of the new year.

Spruce is wanted to about the extent of the present supply where quality is anyway attractive, and even some rather poor lots can be placed without much difficulty. Indeed, as a rule, the seller retains the advantage for prompt delivery and the position is firm. Some few calls for specials are made and the opportunity to meet them is very small owing to the shutting down of all but a few leading mills, and a portion of their capacity is already under engagement.

White Pine is in very good and well assorted stock, but under control, and holders in no way anxious to realize. They will, of course, meet customers on any fair basis but prefer that business should develop naturally rather than through coaxing, and also they expect bids at full market rates. All previous indications, both for home and foreign trade, are likely to hold good, and in some cases a further increase of shipping orders is talked of. We quote \$17@20 per M. for West India shipping boards; \$23@25 for South America do.; \$15.50@16.50 for box boards; \$17@17.50 for do. wide and sound do.

Yellow Pine is still occasionally contracted for where a special cut is required, and agents also place a few cargoes for export direct from the point of loading. Beyond this, however, the demand is moderate and uncertain, and on several accumulations it is intimated that holders would be pleased to realize even at low figures. It is reported that several sales from stock have recently been made to go Eastward. We quote random cargoes at about \$23.50@25 per M.; ordered cargoes, \$24@26 do.; green flooring boards, \$24@25 do.; and dry do. do. \$25@26.50. Cargoes at the South \$14@17 per M. for rough, and \$19@20 for dressed.

Hardwood continues in moderate supply with a good demand extant and prices firm. We quote at wholesale rates by carload about as follows: Walnut, \$77@85 per M.; ash, \$33@36 do.; oak, \$35@40 do.; maple \$30@35; chestnut, 1st and 2d, \$30@35; do. do. culls, \$18@20 do. cherry, \$45@47 do.; white wood, 1/2 and 5/8 inch, \$25@27.50, and do. inch, \$33@35 do.; hickory, \$35@45 do., for Western, and \$65@75 for good nearby stock.

Shingles have sold well to home outlets until quite recently and continue in fair export demand with prices firm. We quote C, press at about \$6 for saps, and \$8.50@9 for hearts; pine shipping stocks, \$4 for 18 inch, and Eastern saw grades at \$2.50@4.50 for 16 inch as to quality and to quantity. Machine dressed cedar shingles quoted as follows: For 30-inch, \$16@22.25 for A, and \$28.75@33.25 for No. 1; for 24-inch, \$6.50@16 for A and \$16.75@23 for No. 1; for 20-inch, \$5@10.50 for A and \$11.25@11.75 for No. 1.

Yard dealers are doing a good seasonable business and on all grades of stock securing full rates, the market ruling firm. Supplies in a few cases already appear somewhat broken.

From among the lumber charters recently reported we select the following:

An Am brig, 350 tons, from Wilmington, N. C., to Rio Janeiro, lumber, \$20 net; an Am barque, 654 tons, from Fernandina to Montevideo, for ordered lumber, \$18.50 net; an Am brig, 406 tons, from Apalachicola to Sagua, lumber, \$8, Spanish gold; a Br brig, 486 tons, from Doboy to Lisbon, boards, \$17, and hewn timber, \$19; an Am brig, 283 tons, from Tuspan to New York, cedar, \$7.50 per ton measurement; a schr., 384 tons, from Pensacola to Port Spain, lumber, \$9; a schr' from Pensacola to Matanzas, lumber, \$7; an Am schr' 140 M lumber, from Pensacola to Vera Cruz, \$11; a schr, 156 tons, from Philadelphia to Wilmington, N.C., coal, \$1, thence to Grenada, lumber, \$9.50; a schr, 250 M lumber, from Pensacola, Pascagoula or Apalachicola to Boston, \$9; a schr, 230 M lumber, from Darien to Philadelphia, \$6.75; a schr, 250 M lumber, from Brunswick to Baltimore, \$6; a schr, 363 tons, from Wilmington to New York, lumber, \$6.50; a schr, 175 M lumber, from Jacksonville to New York, \$8.50; a schr, 240 M lumber, from Darien to New York, \$7; a schr, 100 M lumber, from Washington, N. C., to Philadelphia, \$6; a schr, 210 M lumber, from Cedar Keys to New York, \$9.50, or Boston, \$10.50; a schr, 165 M lumber, from Norfolk to New York, \$1.50; three schrs, hence to New London, yellow pine lumber, \$3; a schr, from Portland to Philadelphia, pickets, \$1.50 @ M; a schr, from Portland to New York, heading, 8 c. @ pair.

Exports of lumber from the port of New York:

TRE TIMBER SUPPLY.

To the Editor of *The Toronto Globe*.

SIR—I endeavored to draw the attention to the question of the timber supply of the United States and Canada in various communications to the press here and in a pamphlet published by me some four years ago; and, notwithstanding the question is one which is destined, at no distant day, to dwindle all others—political, commercial, and economical—into utter insignificance in comparison, it has hitherto been totally ignored by our political economist, boards of trade, and authorities. Not so with our neighbors across the line. Almost immediately after the publication of the pamphlet referred to I was written to from the Bureau of Statistics at Washington for a copy to which I replied by forwarding half a dozen; and shortly after I was applied to for some additional copies, and I again mailed them another half dozen. Since that time I find a Bureau of Forestry has been inaugurated at Washington, with Professor Sergeant at its head, and, from the books and papers which that gentleman has been good enough to send me on the subject, it is evident they are alive to the necessity of husbanding their lumber territory, and using every effort to replace what has been already used and destroyed. To this end I find no less than 2,193,181 acres of timber culture lands were taken up by settlers during the past year alone.

You are quite correct in your remarks about the state of things in the great lumbering district of the Saginaw Valley, which furnishes five-sixths of the pine lumber consumed in Ohio, New York, and the Eastern States. It is within three years, at the farthest, of closing accounts in that direction. And I would now, with your leave, make a few corrections in the timber statistics of other points with which you have been furnished. You were told that "the Alpena district will, at the present rate of cutting, be stripped in fifteen years." On this I would remark that the timber in that district is chiefly in the hands of the operators at Alpena, who estimated it at 1,000,000,000 feet some two or three years ago, and as the yearly cut amounts to 100,000,000 feet it will be seen that seven or eight, instead of fifteen, years would exhaust the district; and as they will soon be called on to supply an amount equal to the falling off of the cut in the Saginaw, an end of their stock will soon be reached. And now with reference to the statement of the Mississippi lumberman, fixing the timber supply of Wisconsin and Minnesota at "forty years," an estimate was made and published in the *Northwestern Lumberman* of Chicago, five years ago, which gave the standing pine of those States at 32,278,000,000 feet, which was considered by some as in excess of the existing amount; but admitting it as correct, as the annual cut is 2,500,000,000 feet, which in the five years now past would amount to 12,500,000,000 feet, and deducting this from the above estimate of the *Lumberman*, would leave 20,000,000,000 feet, it follows that at the same rate of cutting, and without taking into account any increase for the requirements of the millions of consumers who will be added to the population—eight, instead of forty, years would make a clean sweep of all the pine in those States; and I am confident that, should the consumption be all left to be supplied by themselves, there would not be a stick of pine left, not only in those States, but from the Rocky Mountains east to the Atlantic seaboard, and north of Mason and Dickson's line, in the eight years. The whole three pine supplying States—Michigan, Wisconsin, and Minnesota—had not as much standing pine when the first axe was put to it as would amount to the present yearly cut of 2,500,000,000 of the two latter States alone for forty years.

A fear that a clamour would be raised by consumers for free trade in Canadian lumber, may be stated as the reason why the manufacturers and speculators persist in magnifying their own timber resources many times beyond their actual state, and hence an eight years' supply is made to do duty for forty years. Canada is also pointed to by them as possessing an inexhaustible supply, to be admitted free when their own runs out; and a wiseacre in timber statistics has recently come to their assistance in the *Bankers' Magazine*, of New York, who tells the consumers that there is yet left in the Province of Quebec alone 76,747,200 acres of timber (just 2½ times the area of the State of New York), 30,086,800 acres of which are under license,

28,250,794 acres are yet in the hands of the Government, and the remainder is private property, and this ridiculous nonsense is paraded through their lumber papers, and assumed besides, to be all merchantable timber, to keep the consumers from clamouring for, as I said, the admission of Canada lumber free of duty, to eke out the time of exhaustion of their own rapidly diminishing stock. Paying a bonus on importations of Canadian lumber would certainly be a wiser course for Congress to adopt in the interest of their people, than driving away so indispensable a material to be marketed abroad, by the composition of duties, which deprives them of the means of keeping alive the industries of the country to that extent.

The average size of their logs in Michigan was reduced from 4 to the thousand feet of lumber a few years ago to 7½ last year—showing that they are reduced to slaughtering their sapling poles to stock their mills and supply the consumption—and the clear lumber was reduced from 16½ per cent. to 5 per cent. in the same time, and those of the manufacturers who altered their mills, at great expense, to fit them for cutting clear deals, to drive, as they and their lumber papers threatened, the Canadians out of the British markets, are not now able to supply enough clear lumber out of the cutting of the whole Northwest to supply their own country, where it is now higher than it is abroad.

And now when we look at the vast number of industries to be supplied—the number of hands employed, and the necessities of the whole community—the prospect of a timber famine so near at hand becomes fearful to contemplate.

The census returns of the United States of 1870 show that there were 25,817 mills, which turned out 12,750,000,000 feet of sawn lumber in that year, and if we add to this what is used in shingles, and square, flatted, and round timber, for all purposes, with the increased supply required for the ten millions of consumers added since then to the population, the forests must now be turning out equal to 20,000,000,000 feet—which would amount to 25,000,000 tons—and more than would load all the steam and sailing craft of every description in the whole world, while the whole crop of wheat of the Union available for exportation would require to be duplicated to meet the cost of purchasing and transporting from abroad the lumber requirements of the Western States alone. In 1870 there were 63,938 establishments manufacturing articles made entirely of wood, employing 393,378 persons, and using material worth \$309,921,401 annually. There were, besides 109,512 industries in which wood is an important part, for example, carriages, furniture, bridges, and ships, etc., employing 700,915 persons, and using material worth \$188,530,814.

The 20,000,000,000 matches required for their manufacture 250,000 cubic feet of the best clear pine. At least 125,000 miles of fencing were required to enclose the railways of the country, which, says Professor Sergeant, could not have cost less, on an average, than \$700 a mile, one-half of which would barely represent the wood employed, or \$42,000,000, while they must take lumber, annually, to the value of \$10,000,000 to keep them in repair. It required the stripping of 36,000 acres, principally pine, to burn the brick of that year. The value of pine packing-boxes was \$1,000,000 in 1850, in 1870 they were valued at \$8,200,000. The value of lumber converted into agricultural implements in 1850 was \$8,000,000 while in 1870 their value had reached the enormous sum of \$75,000,000 of which the forest must have furnished \$20,000,000. And now if we add to the foregoing—which compose but a portion of the industries in which wood is used—fifty per cent. of industries, labor, and consumption, at the present time, some idea may be formed of the state of things that will exist amongst our neighbors when their commercial timber is exhausted. They have, to be sure, valuable forests of pitch pine in some of the Southern States; they are also undergoing rapid depletion and destruction; their product in lumber and timber is now being marketed, to a large amount, in the West India Islands, South America, and Great Britain, and in the home cities of St. Louis, Baltimore, Philadelphia, New York, and Boston. In the two latter cities its price is now higher by the cargo than the mill run of either the Northwestern or our own pine, and—fortunately for them—the Southern forests are not subject to be devastated by fire, there being no brushwood to keep alive and spread the devouring element, as in the Western and our own pineries; but, on the other hand, their timber is, as is complained of by their press, being destroyed at the rate of ten per cent. a year, by the turpentine farmers, so that, on the whole, the supply cannot be counted on for many years.

Turning attention now to the consideration of the question of our own commercial woods, we have made a clean sweep of our oak and elm, which were spoken of not many years as inexhaustible. The supply for the British market now shipped at Quebec is drawn from Ohio and Michigan. Our

remaining supply of pine is, as you state, confined to the Muskoka, Ottawa, and St. Maurice districts, and the question of their condition to supply our home consumption and respond to the foreign demand is one that we should look fairly in the face, so as to arrive as nearly as possible at the actual facts, and not deceive ourselves with regard to our forest wealth. And what does the whole supply amount to? There is not—and I fear not contradiction to the statement—as much pine timber fit for market in Muskoka and the St. Maurice together as is got out in a single year in Michigan alone; nor is there now remaining on the Ottawa and its tributaries as much merchantable pine as is cut in Michigan, Wisconsin, and Minnesota in the short period of two years. It amounts in sawn lumber, shingles, and round, flatted, and square timber, equal to 12,000,000,000 feet of boards, and enough to supply the cut of all the mills in the Ottawa valley for twenty-five years; and I am sure few of our lumbermen themselves will be found to assert that ours will hold out that time. Every stream on the west side, as far north as Lake Nipissing, has been lumbered on to its source, and forest fires have destroyed about as much as the lumbermen's axes cut up—one fire a few years ago sweeping through an area of ten miles in width by fifty miles in length. There is no merchantable timber of any kind north of the head waters of the Ottawa and its tributaries and for miles down them. It is all a rocky, scrubby barren, and with the exception of a few limits on the Upper Ottawa, the whole territory on both sides has been culled over to such an extent that its production of square timber, which averaged a few years ago from 80 to 100 cubic feet to the stick, is now brought down to from 40 to 50 feet, and to secure a raft of the latter dimensions requires the culling over of a large extent of territory. The larger timber shipped from Quebec to the English markets is now got out on the southern shore of Lake Superior, in the upper peninsula of Michigan, which also supplies board timber for the same market. The last pine limits the Government of Quebec had left to dispose of were sold at auction a few weeks ago, and had they placed a fence around them they would have shown more wisdom than thus throwing them on the market, affording facilities for a new batch of operators to assist in keeping the markets glutted, and wasting what never can be replaced.

I stated in my pamphlet, on the timber supply question already referred to, that in five years from the time of its publication pine lumber would be higher on this side of the Atlantic than in Britain, and we have now, in four years, reached that condition—lumber is now higher, as I will proceed to show, in the Albany, New York, market than it is in London, England.

	Albany.	London.
The three upper grades of lumber, equal to deals of the same quality.....	\$18 to \$60	\$42 to \$52
Selects, equal to 2d quality of deals.....	33 to 45	00 to 36
Good box boards, equal to 3d quality of deals.....	00 to 28	00 to 26

From the above figures, it will be seen that lumber now ranges at much higher rates on this side than in England; and when our sawing capacity is doubled and trebled, as it soon will be, to meet the increased American demand occasioned by the falling off of supplies from the West, with the requirement, of the millions of consumers added to the population in the States, and the demand that will be made on our resources from our own treeless prairie country, it should, surely, be within the comprehension of the most stolid, that lumber must reach a price at no distant day double what it is at present; and yet we find our lumberers all over have gone into the woods, with double force, to slash away as if life depended on how soon they could strip the country and bring on a timber famine as calamitous to Canada as it will be to the United States.

J. LITTLE,
Cote St. Antoine, Montreal, Nov. 17th 1880.

THE WEST.

SAGINAW VALLEY.

LUMBERMAN'S GAZETTE,
Bay City, Dec. 6, 1880.

While the main attention of manufacturers is directed toward balancing accounts and preparing for next year's business, there is yet a good deal of business being done in selling lumber as well. Some very considerable sales for next season's delivery have been made, among which was some 9,000,000 feet to go to Chicago. This market only buys the best of our stock and pays outside prices. Another lot for the East amounted to 4,000,000 feet and was sold at \$7, \$14 and \$35. A quantity has been sold at \$16 straight, to be cut and to be choice stock. Good fair stock can be bought at \$14 straight, and low grades at \$6, \$12 and \$28@30. Several parties from

The East have been in the valley the past week. Present indications are that quite as much lumber will be sold ahead this winter as last.

The cold weather continuing, work in the woods is progressing favorably. There is not a great amount of snow, but the steady cold renders the task of keeping the roads in good condition comparatively easy, and quite an amount of hauling has been done.

The yard men are doing a good business and shipments by rail are all that the railroads can accommodate.

A full statement of the shipments of lumber, lath and shingles, by water from the Saginaw river, shows as follows:

	1879	1880
Lumber.....	668,363,866	769,573,900
Lath.....	33,690,95	34,280,950
Shingles.....	220,552,500	168,145,400

The following from the Lumberman's Gazette, was accidentally omitted from our last, and shows the shipments of lumber from Bay City and Saginaw for the periods named:

	1878.	1879.	1880.
April.....	49,278,000	18,215,447	85,909,913
May.....	88,786,000	73,111,441	89,925,926
June.....	60,541,612	105,487,953	97,573,065
July.....	68,550,325	111,566,808	130,776,070
August.....	71,466,442	90,774,581	111,419,000
September.....	61,738,845	100,595,743	108,821,611
October.....	71,803,075	108,919,304	88,579,613
November.....	54,405,842	70,810,619	48,965,114
Total.....	526,550,041	679,481,896	761,970,312

The San Francisco Journal of Commerce has the following:

Total receipts since Jan. 1st:

Lumber, ft ...	170,998,342	Staves.....	14,799

The year will close with a light stock and good prospects. There will, however, in the normal state of things, be no room for any advance, but prices will be stiff. There are a considerable number of buildings going up and the Spring will witness a much increased activity both in city and country.

We quote cargo rates—Pine—Rough, \$16 @ M ft, \$16; 1 flooring and stopping, \$24.50. Redwood—rough, \$16; surface, \$23. Retail rates—Pine—No. 1 flooring and stepping, \$30; rough, \$20. Redwood—rough, \$20; surfaced, \$30; No. 1 Rustic, \$30; flooring, \$27.50; tongued and grooved beaded, \$27.50; fancy pickets, \$20; rough pointed pickets, \$16, rough square pickets, \$14; Shingles, \$2.25 @ M.

The following extracts are from hardwood report of Northwestern Lumberman:

Trade for November started in rather light, but unexpectedly, it steadily increased during the month, and some of the yards are now having all they can do, and all are busy. One firm informs us that their sales were three times as large as for November of last year, and nearly all report an increase. Prices remain the same, with the exception of bolsters and reaches in oak, which are a little easier, and two-inch ash has advanced \$3 and is now worth \$38. Walnut newels are wanted, the stock being very light. There are some 6x6 and 7x7, but we are not aware that a yard in the city has an 8x8. Basswood is exceedingly scarce, and many of the yard men, as well as manufacturers, would be glad to get it. Of late it is used to quite an extent in sewing machine tables, and small as that industry at first thought may appear, it consumes an immense amount of lumber. These tables are made of two or three thin boards of basswood, the grain running in different directions, with a walnut veneer on each side, and are really better than solid walnut.

Walnut continues generally scarce. A few dealers have received liberal supplies, but such are exceptions. Fully three-fourths of the walnut sold in this market is not more than one-half dry, and much of it not even that.

The stock of walnut in Indianapolis is very light, not exceeding one-tenth the amount usually piled there at this season of the year. While some claim that it need not now be centered there in order to obtain satisfactory freight rates, others see in it a sign of the coming time when walnut will be scarcer than it is now.

The stock of staves in this market is fairly large, and prices for some time have remained unchanged. Old hoops are practically worked up.

In Quebec, ash is exceedingly scarce, and the market is bare of staves. In some of the Canadian districts manufacturers are paying from \$45 to \$50 per 1,000 cubic feet, or about \$4 superficial feet for elm, which in many localities is being rapidly exhausted.

In Boston Nos. 1 and 2 walnut counter tops have advanced \$2, and basswood, both in 5/8 and 1 inch, \$2.

The following we take from the weekly summary of the Northwestern Lumberman:

Whatever hope may have lurked in the heart of

the over sanguine that the cold snap, which has now lasted eighteen days, would so far let up in severity as to enable one more effort to be made at putting things in good shape for winter, is now wholly dissipated, and a full realization of the fact that winter has come in good earnest, is experienced in all quarters. There are a few vessels still outside their ports of destination, but with solid ice of from 8 to 12 inches in thickness in all the bays of the lake shores, and bodies of ice 6 feet in thickness near the mouth of the Chicago River, while all the rivers of the north, extending well down to the southern regions, where ethereal mildness seldom gives place to frost, are ice bound, the conviction becomes a certainty that the summer is over, and that no further facilities for water navigation may be hoped for until another season's work begins. It must be confessed that operators on the great northern chain of lakes would have much preferred a few days' additional navigation, to enable them to get their vessels to the desired ports for laying up, or to move to their yards a little more of the lumber which had been counted upon for the winter's stock. The sudden and unlooked for closing down, however, caught a large amount of lumber at the mills, and a large number of vessels away from home, where they will remain for the winter. It has shortened up the receipts of Chicago from 70,000,000 to 100,000,000 feet of lumber. It has caught a large number of vessels in positions resulting in shipwreck and disaster; and 1880 will long be known upon the lakes as the terrible year for shipping. The Erie canal closed with nearly 1,000 loaded boats stretched along its course, all bound for the tide-water, which none of them are destined to reach this year. Among this large fleet are many lumber loaded boats. Still, the lumber stocks of the West and of the East are in good condition for the winter's business, and, unless the winter is lengthened into spring, will probably suffice for the demand.

LUMBERMAN AND MANUFACTURER, MINNEAPOLIS, Minn.,

The storms and cold of the week have somewhat interfered with the lumber trade of all the markets, still the orders which have been accumulating have taken all cars which the transit companies could furnish. That December 1st should bring so heavy a demand for building material is remarkable. It is now apparent that the assortments at all points will be badly broken up by the beginning of the year. At Chicago the receipts up to the 25th have been 1,466,997,000 feet, being an increase of 127,000,103 feet over last year, while the estimated shipments are 59,579,681 in excess of last year, which it is said is more than absorbed in the increased local trade and leaves the stock on hand hardly what it was at the close of the season of 1879. Prices are not only firm but the outlook is favorable for a winter advance of from 50 cents to \$1, a thing unknown to the history of the business. The early fall of good snow for log hauling in Wisconsin, Michigan and Minnesota, make it sure that there will be no lack of logs for sawing. Much more attention is being given to the matter of cutting long logs than there has been heretofore. Still we again suggest to all the loggers that there will be no surplus of long stuff, and it will be wise to cut all timber into the greatest lengths that it will bear which can be driven out.

The railroad mills are preparing to run all winter and will be a much more important factor in the case next year, however we still adhere to the opinion that unless there shall be a failure of crops the sawing capacity of the West is not sufficient to create any burdensome surplus of lumber in 1881.

In the northwest the trouble to obtain cars has been greatly increased by the lack of fuel among the settlers on the prairies, which has forced the railroads to furnish all the cars possible for wood and coal. To prevent suffering and death along their lines. This is somewhat offset by the grain blockade at Chicago, which compels the roads of the northwest to decline to receive grain for that point, as they cannot get rid of it.

THE EAST.

The Boston Journal of Commerce says:

Despite the good consumption which is in progress, prices do not seem to improve. The market, however, evinces considerable stability, and the demand is sufficient to absorb receipts. The increasing export movement at the South has been instrumental in strengthening the positions of Southern pine here, and prices promise to advance. The demand both for flooring and dimension orders is quite active, transactions being effected readily, and stocks remaining in a depleted condition. Western grades command good full prices, but there is not the impetus to trade such as is necessary to stimulate an advance. The movement from the yards continues of a fair character. Eastern has been fairly active, but at no established change in values. Arrivals have met with a ready sale. Prices for desirable grades of spruce are firm, but odd cargoes are difficult to move at existing rates. Shingles are steady, with an advancing tendency to extras and clears. Hemlock boards are in fair request, and prices are firm. Clipboards are in rather limited request, although the market has not receded, and quotations are unchanged.

FOREIGN.

The London Timber Trade Journal says:

The deliveries last week from the Surrey Commercial Docks show a falling off of about 400 standards of deals, 200 standards of flooring, and 600 loads of timber, as compared with the week previous, and

although the figures more closely approach those of the corresponding week last year, yet there is no question that trade is dull, confirmation of which we receive from other quarters.

It would seem that there is some activity in the export department from London, as we notice that several considerable parcels of sawn wood have lately been despatched to the colonies, in addition to which some large lots of mahogany, teak, walnut, and other hardwoods have been sent to various parts of the Continent. It is also noteworthy that veneers are being forwarded to New York, and, what is more remarkable still, about 100 loads of timber have been shipped to Sandefjord, in Norway, which closely resembles the fact of sending coals to Newcastle.

LIVERPOOL.

The business of the past week has been somewhat quiet, so far as regards actual sales made in this time, but a fair amount of timber, deals, &c., has been forwarded to the country in fulfillment of orders which have been on hand and are now waiting completion from the cargoes just arrived.

Prices remain virtually without change, for, while spruce deals may fluctuate a trifle, there will probably be little, if any change from their present position during the present import season, whilst for Canadian goods sellers will be firm, not only because the stock on hand is moderate to meet the usual wants of the trade until next season's imports set in, but there is a great possibility that high prices will be wanted abroad when the time for purchasing arrives.

Liverpool Timber Sales.—Messrs. A. F. & Mackay offered several parcels of spruce deals and other wood goods, but the attendance was limited, and but a very small quantity was sold.

Spruce deals, New Richmond, N. B.—16 to 26 ft, 3x11, £7 17s 6d; 16 to 26 ft, 3x9, £7 15s; 12 to 15 ft, 3x9, £7 5s to £7 7s 6d; 9 to 11 ft, 3x9, £7 5s; 9 to 15 ft, 3x7, £7 5s; 9 to 21 ft, 3x13 to 18, £7 10s; 9 to 22 ft, 3x8 and 10, £7 7s 6d.

Spruce deals, Miramichi—9 to 27 feet, 2½x7, £7 10s; 9 to 28 ft, 3x8, £7 5s.

Spruce deals, Farrisboro—12 to 15 ft, 3x7, £7 9s 6d.

GLASGOW.

The import season, which is now far advanced, has been fairly active since its commencement. Importers, forecasting the wants of the market, have provided a liberal supply of all merchantable woods. The total imports of this last week to Clyde ports amount to say 10,600 loads, chiefly log timber, and at Grangemouth 1,200 loads, mostly deals and battens.

AUCTION SALES.

On the 16th inst., at Greenock, Messrs. Singleton, Dunn & Co., brokers:

Quebec yellow pine deck-plank wood, 75 c ft, av per log, 2s 2d c ft; do selected yellow pine timber, 68 c ft, av per log, 1s 5d c ft; do yellow pine joisting, 35 c ft, av per log, 1s 3½d c ft; do, 30 c ft, av per log, 1s 3d c ft; do ash timber, 72 logs, 2s 2½d c ft; sawn pitch pine timber, 30 c ft, av per log, 1s 5½d c ft.

NAILS.—Supplies are ample for all present calls with a fair amount to spare, and the market remaining rather tame. Most holders are anxious to realize, and there is steady competition to secure the orders coming upon the market. As yet, however, there is no further reduction on cost so far as known, and the general quotation remains at \$2.75 per keg for 10d to 60d, with usual additions for small lots.

PAINTS AND OILS.—Buyers are not plenty, and the general market retains rather a dull sort of tone all around. The wants of consumers are light for the present, and jobbers are meeting the call whenever possible, from stocks in hand, in order to work down accumulations, preparatory to taking inventory at the close of the year. Some irregularity is shown on values, but no changes of a radical character take place. Linseed Oil has been only moderately and rather weaker, especially on City, under pretty free offerings. Holders, however, are not forcing matters as a rule, and some refuse to concede. Quoted at about 55@56 for City, and 58@61 for Calcutta.

PITCH.—Business moderately active, the offering of stock fair but not excessive, and prices ruling firmly. We quote at \$2.15@2.25 per bbl. for City delivered.

SPIRITS TURPENTINE.—Only a fair jobbing demand reported, and at somewhat irregular rates. In a wholesale way trade has also been dull without much strength shown on values owing to unfavorable advices from the Southern markets, and a partial withdrawal of exporters. As this report is closed, the quotations stand at about 45@46c. per gallon, according to the quantity of stock handled.

TAR.—Holders still have only a small stock to carry, and are looking for full prices with firmness, but buyers meet them only on the compulsion of actual necessity, and trade is slow. Southern accounts are, as a rule, sustaining. We quote \$4.00@4.12½ for Newberne and Washington, and \$4.00@4.25 for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows: 1st—Q. C. is an abbreviation for Quit Claim deed i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

ALPHABETICAL INDEX.

NOTE.—Names in SMALL CAPITALS convey property from husband to wife.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date

DIRECTORY OF

RELIABLE REAL ESTATE AGENTS.

We have carefully investigated the responsibility of all Real Estate Agents named in this Directory, and find them to be in every way competent and responsible. We therefore recommend them to capitalists and real estate operators generally as being the best agents to be secured in their respective section, as shown by letters from prominent business firms, which may be seen at the office of the REAL ESTATE RECORD.

REAL ESTATE IN 1880.

The end of the year now rapidly approaching enables owners of property, dealers and brokers, to take a retrospective view of the year's business in real estate. In fact, "it pays" to take such a glance backward, at a time when books must be posted, balances settled, and when arrangements are generally entered into for new combinations and new enterprises.

Standing as we do, therefore, to-day, within sound almost of the Christmas bells, it is but just that we should permit the business of 1880, so far as New York realty is concerned, to pass before us in review. At the very start we may be met with objections by the over-sanguine dealers who bid us to wait a while, but THE RECORD prefers to do everything in its proper time and when occasion calls for it. That occasion has now arrived and account of stock must be taken. On several occasions during the year now about expiring have we congratulated owners and dealers at the constantly improving condition of the market, and yet there are to-day many of them not satisfied with the actual condition of affairs. These last, however, constitute the fag-end of a clique, which, seven years ago, brought investors to the very verge of ruin. They imagined, when in February and March matters began to set in lively, even on some portions of the West Side, that real estate would get along "booming" from one end of Manhattan Island to the other, and they found out only their mistake a month or two later, when for the last time, it is hoped, they ascertained to their cost that this market no longer was a football to be tossed into the air or lowered to the ground at the mere whim of players.

It was not until the great sale held by the Mutual Life Insurance Company that anything like market values were established. The buyers there were *bona fide* investors, and what they there and then decreed became the basis for subsequent transactions during the summer. The prices there established, it is true, were low compared even with values of previous inflation years, but they were nevertheless with unanimous consent accepted as a guide for subsequent operations. As summer passed along and but few transactions of importance were recorded, the "boomers" of February and March took back seats. Honest investors

continued to crowd to the front, however, and in almost every instance they succeeded in getting considerable real estate for very little money.

The autumn at once revealed the basis upon which rests the strength of the real estate market in New York and suburbs. The simple question of supply and demand began to tell. Builders, who only a year ago thought they had entered upon venturesome enterprises, found a ready sale for all of those houses, the construction of which came up to the expectations of the buyers of the period. The more houses were sold, the more vacant lots were disposed of, this time, too, with occasional heavy profits. While speculation did not dare to raise its head defiantly, the simple investment demand gave unusual strength to the market. Capitalists who had in the last few years improved their vacant lots and fared well by them, doubled their purchases and increased the number of their improvements, thus reflecting in the very best manner possible the increasing growth of New York, Brooklyn and Westchester.

Even the exciting canvass which preceded the Presidential election did not deter *bona fide* investors from making more and more purchases of real estate in and around Manhattan Island. The large supply of money on hand here and elsewhere lowering the price which capital usually commands at this season of the year, has since increased the number of new investors in our market, as has been shown regularly in these columns from week to week. Merchants and professional men, schooled by the experiences of the past few years, have learned where to place their surplus funds, and they do so now with care and caution and after carefully studying the situation.

While the year ends therefore with no large profits in the pockets of the speculators, it leaves the real estate market in as strong and healthy condition as could possibly be desired. The very absence of speculative control of the market places it in a position more inviting to investors than ever before. It is indeed a rising market, and not many days of the new year will have been passed before the effect of the present constantly increasing demand for real property in our midst will be felt not only in New York, but in adjoining towns and villages.

THE OUTLOOK FOR REAL ESTATE.

All the indications point to the year 1881 as seeing the commencement of the greatest advance in real estate known to the history of the country. This enhancement of the value of realty will not be confined to city or town property. It will include as well cultivated farms and wild land. The year

1881 will see more railway projects started than any previous twelfth month, and a greater mileage of roads constructed than any previous two years in our history. The great prosperity of the West is due mainly to the enhancement in value of land, which, in turn, is due to the railroads started and completed or partially completed previous to the panic of 1873. Nearly all these enterprises had a legitimate basis provided the times had continued good. They were meant to supply a real want, but the collapse of our paper currency, the reduction in values brought about by the demonetization of silver, chilled and for a time killed the railway enterprises, and when they became restored to life by the resumption of specie payments and the addition to our currency of the vast stores of gold and silver, not only in this country but outside of it, this occurring simultaneously with immense crops here and poor crops abroad, resulted in an enhancement in the values of agricultural land as well as of railway property in the far West that suddenly enriched hundreds of thousands of heads of families and made whole sections of the Union prosperous beyond precedent. It is now settled that America is ahead of Russia and the rest of the world in the production of grains and provisions. Russia finds herself unable to increase the amount of wheat which she sells to Western Europe, for the surplus is stationary, taking the last twelve years together, while the United States has increased its output regularly every year.

The great facts of our time are the additions to our currency, the immense emigration and the wide extension of our railway system. These are the factors, together with the rapid increase of our population, which are going to enhance the value of realty beyond any precedent in the past history of the country. We have already explained how the telegraph makes money cheap throughout the world, as it makes available the treasures of one nation for employment in other nations. It is now settled that money will be so abundant that investors must be satisfied with three and a half, four and four and a half per cent. Hence it follows that owners of productive realty will see their property largely advance in value, while real estate, well located and in the line of improvement, will shortly be in eager demand as soon as it is understood that stocks and readily negotiated bonds have reached their maximum value. Every period of inflation is closed by what, in common parlance, is known as a "boom" in real estate. It was so in the paper money era. When we recall the high price for Boulevard lots and other unimproved property at the upper end of this island, we have some ink-

ling of what is in store for us in the real estate market. Then the property was unimproved. The Boulevards and Parks had to be built; the side streets opened. There was little sewerage done in this city. The Tweed ring stimulated activity in real estate and gave us some magnificent improvements. To-day this property, curbed, guttered, sewerage and opened is already for occupancy and the price is still moderate.

Out of town there is necessarily a better feeling due to the stretching out of the elevated and surface roads to the surrounding country. The area available for improvement by persons who do business in New York and the other leading cities has been greatly extended within the past few years, hence not only urban but suburban property has a very large margin for a rise.

We have already pointed out why farm lands are a purchase at present prices. The Middle and Eastern States have suffered somewhat from competition with the West. The railroads were forced to lower their rates on through freights until it really gave the farmer in the far West an advantage over his rival living, nearer the East coast, but as business increases railroad rates advance, and the unnatural rivalry created by the railroads cannot last much longer. As farm lands advance in value in the West, and as the frontiers are pushed out still further to the sunset, there must be an improvement in arable soil nearer to the great points of consumption. Hence the enhanced value in farm lands will not be confined to the cheap properties of the West, but will be felt also here, in the East. Taking into view the whole situation, there is scarcely a question but the safest and surest investment to-day is in well located real estate. Any city property, if possible, if not, then any land near growing localities, while farms at the prices which obtained for the last three years are excellent investments.

ALL FOR THE BEST.

The recent changes in municipal offices will at least have a beneficial effect upon contemplated public improvements. There will be no disagreements between the Department of Public Works and the Comptroller's Office, thus obviating the delays that have heretofore so seriously interfered with the progress of work in the upper part of the city. It is also quite likely now that the dead-lock in the Department of Parks will be broken and the work so long deferred in the annexed district, under the jurisdiction of this department, will no doubt be shortly proceeded with. Property owners care but little which political party controls the public offices, so long as these offices are properly filled by competent men, and so long as there is a willingness on the part of the various municipal departments to co-operate for the good of the city. Heretofore there has been too much jarring of interests, and too much bickering between the departments, and it strikes us that the changes recently effected will have a salutary effect upon property, which until now could not be improved owing to the absence of prelimi-

nary work that must be done by the city government.

A MUCH NEEDED IMPROVEMENT.

The time is not far distant when some relief must be given to the traffic that now crowds not only the junction but the vicinity of Broadway and Fifth avenue at Twenty-third street. It is no longer as it used to be ten years ago, the grand concourse of promenaders on fine afternoons, when ladies and gentlemen elbowed their way through the passing crowds. The elevated roads and quick transit have virtually put an end to this promenade. Instead of this, however, there has grown up, almost unnoticed, an accumulation of traffic, that bids fair, if it does not now, to outrival the traffic in the lower section of Broadway, during its busiest hours. The reason for this is evident to any one who has watched the progress of wholesale and retail trade of our city. The section bounded by Fourteenth street and Twenty-third street, Broadway, Fifth and Sixth avenues, now virtually controls the entire retail business of New York worth looking after by those who have money to spend on purchases of value. The leading retail jewelry, drygoods and fancy goods establishments are all concentrated within the quadrangle mentioned above, and ladies of wealth, as well as ordinary "shoppers" find it to their advantage to visit that section to make their purchases. Add to this the fact that the Fifth Avenue and a dozen of minor hotels in the immediate vicinity pour out their hundreds of guests all bent upon business or sight seeing in this identical locality, and it is no wonder that day after day it taxes the ingenuity of a number of stalwart policemen to keep this junction under anything like proper control. The very fact that it is a junction into which pours all the traffic not only from the upper part but also from the lower part of the city, only makes the situation the more aggravating, and in a manner that makes it more so as there continues to be an increase of retail establishments in lower Fifth avenue and along Twenty-third street.

The late Mr. Tweed at one time designed to cut Madison avenue through to Union square, so as to afford relief to the section now complained of. Whatever of personal or pecuniary interest he may have had in view at the time we know not, nor do we care to know. The idea, however, taken upon its simple merits and looked at in the light of our own actual days, was a grand one. It strikes us just now that something of this sort will have to be done ere long, and that, too, with the simple purpose of relieving Broadway and lower Fifth avenue, now daily becoming far too crowded for the comfort of pedestrians and the proper accommodation of the steadily increasing traffic. Views may differ as to the actual cost of such an improvement, but even the expenditure of a few millions of dollars by our city government will find ready returns in the increased valuation of property on the east side of Broadway, while to the city at large a new and broad outlet for the circulation of its traffic will be furnished in a

locality that is, indeed, to-day the very centre of the Metropolis.

TELEGRAPH STOCKS.

Every civilized government in the world, save alone the United States, owns and operates its telegraph systems, as a part of the postal service of the several countries. As a consequence, telegraphing in Europe is at once more efficient and cheaper than in this country. There is no prohibition abroad of private lines or companies, but every one finds that it is cheaper to rent wires from the government than to build them for himself. In this country we have alternately high and variable rates; messages are charged at the maximum rate upon every fresh consolidation and at minimum rates when a new company is trying to establish itself or force the existing monopoly to buy it out. For the end is the same in every case. The new company, whether it be called the Automatic, the Franklin, or the Atlantic & Pacific, is certain in the end to be bought up or consolidated into the Western Union.

Mr. Jay Gould got possession of the Atlantic & Pacific, not to give the public cheap telegraphy, but to use it to make the stock of the Western Union lively; that is, to mark it up or down as it suited his speculative purpose. Wall street operators will remember that the consolidation with the Western Union was against Jay Gould's wishes, and was effected by Russell Sage and James R. Keene. Keene subsequently charged Gould with playing false and making \$400,000 out of him by the transaction. The story goes that the Californian drew a pistol and that Russell Sage was the peacemaker. But Keene is understood never to have had pleasant relations with Gould since that time.

But Jay Gould, without a telegraph company to play off against Western Union, was unhappy. He has evidently set his heart upon controlling the telegraph system of the country. This, he understands, can best be accomplished by running an opposition company and breaking the stock down, rather than by purchasing it in the open market and thus bidding it up. Hence, the recent break in Western Union and the marking up of the price of American Union. Of course the market price has nothing to do with the intrinsic value of either property. If there was no construction account, Western Union could pay ten per cent. on its share capital for its business, at present, is indubitably profitable. American Union, from a profit point of view, is just worth nothing at all; for the little business it has, is mainly unremunerative. True, its capitalization is small compared with its rival, and if it perseveres it may in time secure one-third of the telegraph business of the country. But, of course, there can be no such thing as real and permanent competition in telegraph and transportation lines. They are natural monopolies, and the owners of rival lines always finally agree to exploit their common victim, the public. The community finally has to pay the additional cost of the rival organization and the interest on the debts of the consolidated

companies. Rival telegraphs are always fought out or consolidated and the fights among transportation lines is simply to secure a larger percentage of the final pooling arrangements.

What lends interest to the course of prices in Western Union is the fact that William L. Vanderbilt, D. O. Mills and others of the largest holders of the stock, sold their holdings from 105 down. It is a moot point in the "street" whether this was done after an understanding or a quarrel with Jay Gould. Rumor has it that an arrangement had nearly been perfected for the two telegraph companies working together, which would have put telegraph stock up; but Vanderbilt and his friends suddenly sold their Western Union stock to the loss of Gould and his friends, who were long. All that is really known is, that Vanderbilt did sell out, and there is a suspicion that the two great speculators had a private understanding, Gould to give Vanderbilt control of the Union Pacific and Vanderbilt breaking the price of Western Union to enable his friend Gould to get possession of the telegraph system. And here comes in a consideration which should never have been lost sight of. The telegraph transmits the news of the world; it gives the price daily, nay, hourly, of every article bought and sold by the human race. Other governments protect the community against manipulation of the markets by the persons who control telegraph lines. It is more than probable that before one year is over, Jay Gould will have the whole telegraph system of this country in his hands. The press will be at his mercy; he will be able to control the prices in every Exchange and market in the land. In a day, by doctoring quotations, he could make fortunes larger than the Rothschild family could build up in a century. Gould probably understands that were there any danger of his getting this absolute control of the telegraph system, that the country would unanimously demand the purchase of the telegraph system by the government, and what he buys for a few millions he probably expects to sell for a hundred millions.

If the present Congress was wise, it would offer a fair price for the Western Union as it now stands. If that was refused, it could order the construction of a new, national telegraph line. The nucleus of a national line already exists in the wires now owned by the government to perfect its weather-signal system. Of course, it would not be profitable for a telegraph company to run wires to the top of mountain peaks; but the signal stations were forced to use the telegraph, and many thousand miles of wire are to-day owned and operated by the government, but generally in out of the way and unprofitable places.

As to our international cables, those running under the seas of the world, they clearly ought to be owned by the governments interested, and operated exclusively for the benefit of the commerce of the several nations. Some local statesman should start an agitation for the purchase of the telegraph lines by the government,

and the Secretary of State who would bring about an international telegraph system, would render himself illustrious for all time.

THE TALK OF THE STREET.

Mr. Yerkens, a well-known Philadelphia stock broker, was in town on Thursday and he expresses a very favorable opinion of the future prospects of New Jersey Central. He says the public do not as yet begin to appreciate the importance of the Baltimore & Ohio connection. So far, the Pennsylvania road has succeeded in embarrassing the running arrangements between the Baltimore & Ohio and the New Jersey Central, but eventually that matter will be adjusted and a very large addition will be made to the revenues of the New Jersey Central. It is true that the New Jersey Central will shortly lose the oil traffic of the Standard Company, which will soon begin to pour its oil through its own pipe line, but this will be more than offset by the growing business of the road in other respects. Mr. Yerkens is also of the opinion that the coal roads are a purchase. There is an immense and growing demand for coal. The cessation of output at the mines does not mean a stoppage of labor, for the mine is being opened and developed when the work of taking out the coal is stopped. Mr. Yerkens thinks that the market has not yet reached its highest figures. He is a believer in Green Mountain, Cherokee and Gold Stripe mining properties.

It is stated upon the highest authority that James R. Keene is "long" of Western Union at \$95. President Norvin Green bought 5,000 at \$92. General Thomas Eckert is also known to be "long," at about the same figures. All these people say that Western Union is really earning eleven per cent. and they do not think that any competition could reduce its profits to less than the seven per cent. which they now generally pay. But the stock continues weak because it is known that Vanderbilt has sold out, and that all the Californians, save Keene, have followed his example.

A well-know operator was asked what he thought of Iron Mountain. "I won't deal in it," said he, "because it is a Gould stock. Texas railway property ought to be a purchase, in view of the rapid development of that State, but the Gould stocks always hang fire. Wabash to-day is cheaper than it was last year. So is Missouri, Kansas & Texas, and if a road is constructed to the City of Mexico it will be out of the profits of the roads running East and North. In other words the stockholders of Missouri, Kansas & Texas, who now have a valuable property, will have to pay for the running expenses of the unprofitable road which is to be built through Mexico. Jay Gould gets his profits in building railroads and consolidating poor roads, which he does own, with good roads which he don't own. No, I prefer not to deal in Mr. Gould's stocks."

A correspondent says that the silver dollar is worth only 88 cents; but then the paper dollar is worth just nothing at all. Yet, if one wants to buy a house, a horse, a ship or a barrel of flour, you can tender gold dollars, silver dollars or paper dollars and the seller is forced to take whatever is offered him, as they are alike legal tenders under our laws. Nine-tenths of the transactions of daily life are in coins of less than a dollar, the intrinsic value of which is far below that of the gold dollar. It is a waste of time to be discriminating between the varying values of gold and silver and paper, when each will be equally useful in the purchase of commodities. The real phenomenon, which has occurred in the relative values of gold and silver, is not the depreciation of silver, but the enhancement of the

value of gold. When Germany decided to use an exclusively gold unit of value, France was forced to stop the coinage of silver. This led to the greater employment of gold by the commerce of the world. Simultaneously there was a falling off in the actual production of the yellow metal, and this led to the over-valuing of gold, which showed itself in the reduced price of all commodities, silver included, which lasted from 1873 to 1878. Silver, during this period of depression, as was shown by the East Indian Parliamentary Commission, would purchase as much of every commodity as ever it did, but, as the course of prices showed, gold would purchase more because of its enhanced valuation. From what is taking place in France and Germany, it seems tolerably certain that silver will be restored to its old position on the Continent, and we will again see it quoted on the London market at 61d., which would make the silver dollar three per cent. premium over gold, as it was when demonetized in 1873 and for some time previous.

ABOUT MINES.

THE STATE LINE.

The California people, who achieved so much discredit in connection with Chrysolite and the other Leadville mines, have purchased a property known as the State Line Mine, situated in Southern Nevada, near the boundary. The insiders have taken up the stock, and in due time it will be offered to the public; but meanwhile the most extravagant stories are told of its fabulous wealth, &c. All our information is to the effect that the mine is a "flake," to use a mining vulgarism; that it has some rich ore, but the formation is broken and but little depth has been reached in the several openings. George Roberts and his friends will probably make a good thing out of selling the stock; but we advise investors to give it a wide berth.

The past reputation of the owners of the stock ought to be sufficient. Then the mine itself is situated in a locality which is unget-at-able. Again, we say, avoid the State Line Mine.

THE BOSTON CONSOLIDATED.

We have, time and time again in these columns warned investors against Boston Consolidated and the persons who were manipulating it. So bad was the reputation of the latter that, more than a year ago, the New York Mining Exchange declined to list this property. Then itself may in time get on a paying basis, but until it passes into other hands the stock should not be touched. Despite our warnings and the bad character of the manipulators, a deal was gotten up last week in this swindling stock, in which the members of both mining boards participated. It resulted, as those who read the daily papers know, in a number of brokers being badly injured in their pockets. It served them right.

THE SILVER CLIFF REGION.

And now news comes that a very rich strike of chloride ore has been made in the Silver Cliff region. So far, the ore in this region has been low grade, although there was an abundance of that. It cannot be denied that so far this district has been a sore disappointment. When the new mills get to work at the Silver Cliff, and it is expected they'll be running by February next, there will probably be a deal in the stock.

The Silver Cliff, the Platte Verde and the other mines in that region ought to prove excellent properties, if expert testimony of the highest character is to be believed. But there seems to have been some difficulty about working the ore. This, of course, will in time be overcome.

THE PLUMAS COUNTY MINES.

The Gold Stripe has declared a dividend of 15 cents for the quarter ending December 15; but very little of this stock has been sold lately. In-

deed Cherokee, Rising Sun, Green Mountain as well as Gold Stripe continues under a cloud, due to the death of Col. Bidwell.

The principal stockholders of these four companies had a friendly dinner at Delmonico's last Wednesday evening, the host being L. D. Cortright. They proved to be wealthy and some of them distinguished people.

Prof. W. P. Blake, Mr. Wm. E. Thomson, Mr. W. Powhattan, Mr. S. B. Mathews, of Philadelphia, testified to the great value of these properties from personal and repeated inspection. The officers of the companies who were present seemed to be wealthy and reputable gentlemen.

THE MALACHITE.

We see a stock bearing this name has been listed and is largely dealt in on the American Mining Board. The writer visited the region of country in which this mine is said to be situated about two years since, but no such property was then in existence. The Malachite is said to be situated in Esmeralda County, Nevada, not far from the well-known Northern Bell mine. The difficulty with the Columbus district, as it is called, is, that it has neither wood nor water and the Malachite must be unsuitable for working even if it has ore.

Until further informed, we advise investors to give Malachite a wide berth.

ON DITS.—Some day a movement is promised in Bull Domingo; as high as 11 or 12 is talked of for the stock. It is now selling under 5.

There are good reports from the Jones bonanza, which is situated upon the same ledge as the Ontario. The stock has tripled in value.

Look out for a lively time in Silver Cliff, when the new mill commences to run, in the month of February.

Green Mountain, Gold Stripe and Cherokee are all booked for a rise. It is not unlikely that Cherokee and Green Mountain may be consolidated under the title of the Bidwell Mining Company.

MUNICIPAL NOTES.

The water-front above Twenty third street is to be improved without delay, so as to dispose of the docks at a good rental to ocean steamship companies.

Defective drainage, unventilated sewers, privy vaults and bad plumbing are officially set down as the causes for diphtheria now prevailing in Brooklyn.

Brooklyn is threatened with a gas monopoly just about the time that we in New York are about to try the experiment of electric lights in our public streets.

The change in the weather has caused numerous accidents to water pipes at various points in this city and Brooklyn. Plumbers are proportionately happy.

Five cent fares on the Elevated Roads hereafter from 5:30 to 8:30 A.M. and from 4:30 to 7:30 P.M. This will relieve the five o'clock crowding at five o'clock in the afternoon.

There will be but one Washington place hereafter, to be known as West Washington place, beginning at Broadway and ending at the junction of Barrow and Fourth streets.

Bids ranging from \$41,000 to \$52,000 have been handed in for the construction of the new Sixth Precinct Station house. As yet the new Comptroller has not made any award.

Proposals are asked for to be handed in on or before Friday, 21st instant, for the construction of a wall about the Kings County Jail in Brooklyn,

and for the removal of the County Morgue. The Clerk of the Board of Supervisors will give more information.

Taxpayers are apt to grumble not loudly, but effectively, occasionally, and yet when the Board of Estimate and Apportionment remained in session for several days during the week to hear suggestions in regard to the estimates for the coming year only one taxpayer made his appearance.

Mr. Jefferson M. Levy has come forward in the public prints, refuting the statement in "Parker's Historical American" as to a feeling said to have existed between Washington and Jefferson. He offers \$250 towards the erection of a colossal bronze statue of Thomas Jefferson somewhere in New York.

Hugh N. Camp and Alderman-elect James L. Wells, have requested the Board of Estimate and Apportionment not to make any reduction in the proposed appropriation of \$50,000 for the maintenance of roads in the Twenty-third and Twenty-fourth Wards. They state that the appropriation ought to be doubled rather than cut down, for the roads were all in an almost impassable condition. Unless the work of repairing was done very much better next year than it had been done in the past, they believed it would all have to be done over again the following year. Out of the proposed appropriation of \$50,000, \$7,500 was for salaries, and they thought that was a pretty large salary list for the expenditure of \$50,000. Most of the 180 miles of road in the district had been virtually neglected for years, and were in a very bad condition.

Judge Van Brunt, in the Court of Common Pleas, before whom the Bureau of Buildings of the Fire Department instituted proceedings to have the present Fulton Market building torn down and a new building erected upon the same site, received a report from Messrs. David Jardine Lucius Scudder, architects, whom he had appointed as a commission to inspect the building and determine which portions should be torn down as incapable of being repaired. The commissioners reported that on December 10th they visited the market building in company with Inspector Esterbrook of the Bureau of Buildings; that they found that portion of the building which overhung the Fulton street sidewalk, for 100 feet westward from the northwest corner of South and Fulton streets, is dangerous to life, because likely to be broken down by a heavy fall of snow, or torn away by a high wind. They also condemn the portion of the building at the corner of Front and Beekman streets. Judge Van Brunt issued an order directing the Fire Commissioners that the portion of the building referred to be torn down immediately. And, in accordance with this order, the work of demolition has since been inaugurated to the bitter disgust of fishmongers and their numerous adherents around Fulton Market.

UNJUST TAX OF REAL ESTATE.

To the Editor of THE REAL ESTATE RECORD.

SIR: I am glad to see that in you the real estate interests of the city have such an able champion, and that you do not hesitate to expose every abuse that is calculated to retard the building up of the city.

Permit me to call your attention to a great injustice. I refer to the law that compels capitalists who loan money on bond and mortgage to pay a personal tax. A man who borrows on his property is forced to pay in the first place a heavy tax upon it when he attempts to borrow upon such property; he is compelled to pay a high rate of interest to cover the personal tax of the loaner—in other words, he pays tax directly and another tax indirectly upon all property upon which he secures a loan. This is manifestly a great wrong which keeps back the improvement of the city's waste places, and I, in common with other real estate owners, ask your able advocacy of such a

change in the law as will free the capitalist of the tax upon such property as is invested in bonds and mortgages. Very truly yours,

MYER FINN.

MARKET REVIEW.

REAL ESTATE MARKET.

For list of lots and houses for sale see pages v and vi of advertisements.

The Real Estate Exchange was exceedingly well attended during the week, though the approaching end of the year retarded not only a number of offerings now on the auctioneers' hooks, but somewhat halted the spirited bidding noticed during the previous weeks. A very large number of investors and dealers surrounded the stand of Messrs. E. H. Ludlow & Co., where the northwest corner of Broadway and Duane street was offered on Tuesday last. The upset price was \$250,000, and some time elapsed before an advance could be had. It was finally offered in the shape of a \$100 bid by Mr. E. J. N. Hale, who already owns Broadway property corner of Leonard street, and it was knocked down to him without opposition at \$250,100. The southwest corner of Fifth avenue and One Hundred and Twentieth street, 100.10x123x100.10x136, was disposed of on the same day by Mr. Boyd for \$32,650.

Mr. Harnett sold during the week a very fine corner on Fifth avenue and Sixty first street, vacant, 175x100, for \$28,000; and the same auctioneer disposed of a plot of ground leading from Macomh's Dam to Fordham Corners at about \$200 per lot. No. 533 Madison avenue, northeast corner of Fifty fourth street, was sold on Wednesday last by Mr. Stevenson for \$75,000.

On Tuesday next Mr. Harnett will sell at auction the brown stone house No. 10 East Seventy-third street and several brick houses on the same street, near Lexington avenue, also four full lots on the southeast corner of Fourth avenue and Eighty-third street, and three lots on One Hundred and Seventeenth street, between Eighth and Ninth avenues. Further particulars will be found in our advertising columns.

GOSSIP OF THE WEEK.

There have been reports and rumors in the street during the past week of numerous transactions closed by various brokers, but owing to the renewed attempt to revive speculation in vacant lots, all these reports, unless substantiated by fact, must be taken with considerable caution. We supply, even under this "Gossip heading," only those reaching us from authentic sources.

The largest amount of vacant property disposed of during the week, has been sold by Messrs. Mordecai & Bellamy. The contracts closed by them up to noon yesterday, aggregate \$550,000 to \$600,000. Of these, however, they only furnish the following for publication: Eight lots on the south side of Seventy-sixth street, 200 feet east of Fifth avenue, for \$160,000. These lots are to be improved without delay. Four lots on the south side of Seventy-sixth street, 100 feet east of Madison avenue, for \$52,000; four lots on the north side of Eighty-second street, between Madison avenue and Central Park, for \$39,000; six lots on Eighty-first and Eighty-second streets, three on each street, between Eighth and Ninth avenues, for \$50,000. In addition to the above sales, the same firm has sold several West Side lots, details of which are as yet withheld. Late yesterday afternoon the same firm closed a contract for the sale of two lots on the north side of Eighty-ninth street, 125 feet west of Eighth avenue, for \$5,000 each.

Tracy & Russell, the brewers, have sold four lots on the south side of Seventy-second street, 100 feet west of Lexington avenue, to Oppenheimer & Metzger for \$48,000. The latter have resold them since, with a builder's loan for \$54,000. Messrs. Tracy & Russell have also sold four lots at private contract on the south side of Seventy-second street, 100 feet west of Fourth avenue, for \$18,000 each to Dinkelspiel & Lightstone.

Mr. Tiffany, the jeweler, has sold eight lots on the north side of Seventy-second street, 100 feet west of Fourth avenue, for \$160,000, to Dinkelspiel & Lightstone. The latter firm, it is stated, has since resold these lots for \$180,000, to Mr. Lynd, the builder.

Three lots on the south side of Seventy-ninth street

between Lexington and Fourth avenues, are reported sold to Mr. Hamilton, builder, for \$27,000.

It is also reported that the southeast corner of Lexington avenue and Seventy-second street, 162x100, has been sold for \$84,000, and the southeast corner of the same avenue and Seventy-ninth street, 25x100, for \$33,000.

Two lots on Fifth avenue, between One Hundred and First and One Hundred and Second streets, purchased two years ago by Mr. H. Newwitter, have been sold by him during the past week, for \$16,500 each. This sale, it is stated, was effected by Scott & Myers.

Two lots on Eighty-seventh street, near Ninth avenue, have been sold during the week by Jere. Johnson, for \$4,000 each.

Nos. 5 and 7 Beaver street, two four story brick stores, and Nos. 18 and 20 Broadway, a five story brick store, have been sold at private contract by Mr. Wm. E. Chisholm to Horatio N. Hunnewell of Boston, for \$100,000.

No. 37 West Eighteenth street, 560 feet west of Fifth avenue, has been sold by Juliette wife of General Viole, to Adolph Schalk, for \$25,000.

Messrs. Ottinger Bros. have sold to Mr. Alaire, No. 60 East Eighty sixth street, 15x50x102, a three-story high stoop brown stone house, for \$14,000.

The three-story, twenty-two feet front house, No. 163 Lexington avenue, near Thirtieth street, has been sold during the week to Mr. William Palmer, at \$13,000.

Messrs. Ruland & Whiting have sold at private contract for the Mutual Life Insurance Company, the well-known Ben. Halliday place, consisting of 714 acres at White Plains, Westchester County. The figure of the sale is not given, but the place is said to have cost about half a million. The same firm have sold for the Equitable Life Assurance Company, the Newbern property on Greene avenue, Brooklyn, to A. J. Rauch, for \$14,250.

Mr. Leonard J. Carpenter has sold during the week at private contract, to Thompson W. Decker & Sons two lots, 50x100, at the northeast corner of Fourth avenue and Sixty-third street, for \$26,000; also to Baldwin & Stanbach, the foundry premises, 100x100, on the south side of Twelfth street, 100 feet west of Avenue C, for \$18,000.

The Lelands have once more secured the lease of the Sturtevant House, at \$50,000 per annum.

Notwithstanding the winter season, it will be seen in the list of projected buildings, that our builders intend to be active even during midwinter. Mr. Croft has filed plans for the construction of five four-story dwellings, at the northeast corner of Park avenue and Seventieth street, and Mr. William Noble has filed plans for five four-story brown stone dwellings on Seventy-sixth street, east of Madison avenue, and ten more on the same street, south side, west of Madison avenue, the latter to cost about \$30,000 each. Plans have also been filed for some sort of a studio building, at No. 30 East Fourteenth street, by Mr. Demorest, and for the reconstruction of the Madison Square Garden, the latter to cost about \$25,000.

The new factory to be erected by the Ansonia Clock Company, at Seventh avenue, Twelfth and Thirteenth streets, Brooklyn, will cost \$100,000.

Phipeas T. Barnum and his wife have executed to the Emigrant Industrial Savings Bank, last Monday, a mortgage for \$200,000 upon their property on the northeast corner of Broadway and Houston street. The mortgage was originally \$250,000 and at the reduced amount is payable in one year, with interest at 6 per cent.

Mr. Robert Minturn has sold his West Brighton (L. I.) house to Mr. George Bonner, the banker, for \$30,000.

The following are the sales at the Exchange Sales-room for the week ending December 17:

* Indicates that the property described has been bid in for plaintiff's account:

Broadway, n w cor Duane st, 75x105, two and three-story brick buildings. E. J. N. Hale. (Public auction sale).....	\$250,100
Elizabeth st, No. 61, w s, abt 48 s Hester st, 26 x34, three-story brick tenement. Charles Gerlach. (Amount due, abt \$5,700).....	10,000
*Mott st, No. 133, w s, 25x100. Walter H. Beebe. (Amount due, abt \$13,350).....	13,000
*Macombs Dam road, e s, near 190th st, abt 61 city lots. Eloise L. Lawrence.....	9,925
Macombs Dam road, near 190th st, abt 28 city lots. James B. Murray.....	5,350
*22d st, s s, 375 w 10th av, 25x98 8, leasehold. Benjamin Moore, committee. (Amount due, abt \$4,350).....	1,000

*22d st, n e s, 75 s e 4th av, 20x98 9. Ed. P. Kammerer. (Amount due, abt \$1,200) ...	18,000
*61st st, sw cor 1st av 175x100 5. Elizabeth R. B. King. (Amount due, abt \$66,000)...	28,200
*67th st, n s, 100 e 10th av, 25x100 5. New York Savings Bank. (Amount due, abt \$2,950)...	5,552

*Yates av, n e cor Monroe st, 16.8x80. Sarah E. Cruger.....	1,500
*Two plots in New Utrecht adj lands of Bogart, Van Dusen and Cowenhoven, and containing 1/4 acre 29 perches and 1/4 of an acre respectively. N. Y. Fire Ins. Co. ...	600
Total.....	\$21,075

BUILDING MATERIAL MARKET.

BRICK.—Not much change has taken place in the general form and character of the market for Common Hards since our last report. Supplies from "Up River" are all shut off, and the wants of operators are now met almost solely from Haverstraw Bay, with only a stray cargo now and then from other points. For about everything offered a demand has been found, and in about the old form, cargoes not required for immediate consumption finding sale either to dealers or to builders, who can pile them up against future necessities. The accumulation made in this way, however, increases slowly as the weather has been less severe, and the consumption more rapid and general than last week, especially so on jobs nearing completion as there is a natural anxiety to get them out of the way before another protracted "cold snap" sets in. Prices have remained about the same, making \$7.25 an average top rate, and only exceeded on choice lots of stock. Pale brick can be placed without much difficulty, and remain steady at \$3 (0) 3/4 25 per M. for the desirable lots. Fronts quiet, beyond ordinary small sales making from yard.

CEMENT.—The scant supply left within reach by the sudden closing of the river and a continued good demand give the market a very strong position, and holders continue to increase the cost. At the moment \$1.10 is the lowest on Rosendale and not many sellers at this. On the foreign market there is more strength, but no positive advance asked.

HARDWARE.—Demand is without much animation from any quarter, and the market as a whole has a dull, uncertain sort of tone. As a rule, however, we find dealers speaking confidently and there appears to be an expectation that trade will set in with improving volume soon after the commencement of the new year. In the meantime, however, values are very fairly preserved, and manufacturers are revising their lists on a basis of full valuations. Mallory, Wheeler & Co have reduced the list rate of door knobs to \$1.50 per dozen for Nos. 216, 218, 218, 252, 253 and 253, and \$2.25 per dozen for Nos. 236, 238, 238, 254, 255 and 255. They also publish a new list of locks, bronze trimmings, &c., and their discounts are at 45 per cent for all goods, except padlocks and padlock keys, which remain at 40 per cent. An advance of \$1 per dozen has been made on the list of razor blade drawing knives, and the new figures stand at \$17. \$18, \$19, \$20, \$21, \$22, \$23, \$25, \$25, \$27, and \$29 per dozen for 6 inch, 7-inch, &c., up to 16-inch, inclusive, with discounts as before. The agent for J. V. Biglow & Co quotes mallets at 15 per cent. discount and chisel handles and door stops 30 per cent. discount from list.

LATH.—Some few sales were made, but as a rule the tone of the market remained quiet. This, however, was apparently due more to a dearth of supplies than any absence of demand, and there is reason to believe that a considerable larger amount of stock could have been disposed of if available. Indeed, buyers have been inquiring for cargoes to arrive and with some little show of anxiety. Stocks are higher, it is said, even allowing for such parcels as may be piled out in first hands, and many dealers have accumulated less than they anticipated, with present prospect unfavorable for any important additions. Up to the present writing we learn of no sales in excess of \$2.00 per M., but receivers are asking an advance over this for parcels to arrive, with an appearance of much firmness and determination.

LIME.—On Rockland no change is still reported, and while the demand is good enough to quickly exhaust all that is offered and probably more beside were it here, no disposition to advance rates has been shown. State lime continues in demand, and receivers report to us that they are getting 90c. and \$1.15 per bbl. for the grades respectively on parcels brought through by rail.

LUMBER.—The advantage of the general situation remains with the selling interest, but there is no very great amount of animation at the moment, and the market shows few features of positive interest this week. Indeed, until after the turn of the year, it is not expected that either buyer or seller will make much of an effort toward negotiation, except under pressure of immediate necessity, or to dispose of some coastwise arrival, and the tendency to quietness is simply seasonable. All desirable supplies appear to be under good control, and holders confident in asking full former rates, while buyers are submitting without much opposition. The export demand thus far this month has been very good, indeed, rather better than expected, and this adds another cheerful feature to the position. The "slaughter of the forests" goes on freely wherever work is possible, and there is no doubt the cut will be full.

Spruce tends to a general steady position. Most of the recent arrivals are understood to have been on contract, and the actual supply available was therefore small, an advantage which kept matters in a favorable position for the selling interest. Buyers, however, were a little particular over quality and insisted upon some favors where imperfections were shown. Some few special specifications are offered, but not many contracts have been closed of late. About \$17 is an inside rate on any random stock, and \$18 and above asked for the best, with specials quoted at \$21@22 as to cut and delivery.

White Pine on home account is not very active beyond the ordinary run of orders, but these keep up well, and, in one way or another, afford an outlet for a considerable quantity of stock. Export demand is reported quite equal to expectations and taking out supplies at full rates on desirable goods. The additions to stock have been very small, and are not likely to increase. We quote \$17@20 per M for West India shipping boards; \$23@25 for South America do.; \$15.50@16.50 for box boards; \$17@17.50 for do. wide and sound do.

Yellow Pine without much change. Quite a number of specifications are understood to be under consideration, and some have been closed, for both railroad and dockage work, as well as for building purposes, with full prices obtained, the tempo of sellers remaining quite steady. Buyers, however, do not appear to find many attractions in the present stocks, and for these the demand is uncertain, and values to a considerable extent nominal. We quote random cargoes at about \$23.50@25 per M.; ordered cargoes, \$24@26 do.; green flooring boards, \$24@25 do.; and dry do. do. \$25@26.50. Cargoes at the South \$14@17 per M. for rough, and \$19@20 for dressed.

Hardwoods have remained firm, and it is likely that rather a larger quantity of choice stock could be placed, as some of the local manufacturers are short on accumulation. Holders offer indifferently, and a few fix valuation higher than can at present be realized. Walnut and Ash appear to show the greatest strength. We quote at wholesale rates by carload about as follows: Walnut, \$77@85 per M.; ash, \$33@36 do.; oak, \$35@40 do.; maple, \$30@35; chestnut, 1st and 2d, \$30@35; do. do.; cills, \$18@20 do.; cherry, \$15@47 do.; white wood, 1/2 and 3/4 inch, \$25@27.50, and do. inch, \$33@35 do.; hickory, \$15@15 do., for Western, and \$65@75 for good nearby stock.

Yard business is not very active, but quite as much doing as could be expected for the season, and on all grades full former rates are obtained without difficulty.

It is reported that the lumbermen in this vicinity and in the northern part of the State are to form a combination to organize a new steam towing company between this city and Albany, to be known as the Knickerbocker Towing Company. New steamers, it is understood, are to be built and placed on the route in time for the opening of the canal next spring.

From among the lumber charters recently reported we select the following:

An Am brig, 350 tons, from Pensacola to North side Cuba, lumber, \$7; an Am schr., 153 tons, Jacksonville to St. Thomas and a second port, lumber, \$10; an Am brig, 443 tons, from Wilmington, N. C. to Porto Rico, lumber, \$9; an Am barque, 463 tons, from Pensacola to Port Spain, lumber, \$9; an Am brig, 420 tons, hence to Port Spain, shooks, 23 1/2; a Swe. barque, 300 M lumber, from Doboy or Union Island to Rio Janeiro, \$18 net; a schr, 197 tons, from Jacksonville to Point-a-Petre, lumber, \$10; a schr., 210 M

lumber, from Savannah to Washington, D. C., \$6.50; a schr, 455 tons, from Cedar Keys to New York, lumber, \$9.50; a schr, 111 tons, from Richmond to New York, white oak lumber, \$5 per M; a schr, 109 tons, from Norfolk to New York, lumber, \$3.50; two schrs, each 100 M lumber, same; a schr, 200 tons, from Norfolk to New Haven, lumber, \$3.75; a schr, 180 tons, hence to Noank, Conn., lumber, \$3.50; a schr, 325 tons, from St. Mary's to Philadelphia, lumber, \$7; a schr, 400 M lumber, from Wilmington, N. C., to Boston, \$6.75; a schr, 200 tons, from Wilmington to New York, lumber, \$7; a schr, 414 tons, from Wilmington to Boston, lumber, \$7.

Exports of lumber from the port of New York:

COMPARATIVE STATEMENT OF RECEIPTS AND SHIPMENTS.

From Jan. 1 to Dec. 6, inclusive, 1879 and 1880:

	Receipts.	Shipments.
	Lumber. Shingles.	Lumber. Shingles.
1880.....	1,522,431,000 637,913,000	765,946,763 117,942,000
1879.....	1,423,347,897 641,498,000	704,702,285 136,273,000

At the close we are in receipt of the following:

To the President and Board of Directors of the Lumberman's Exchange.

GENTLEMEN: I beg to present herewith the result of an attempt which has been made to ascertain the quantity of lumber that was sold in this city on the 1st of the current month, but which had not been shipped. Returns have been received from all but two or three of the smaller yards; they foot up as follows: Lumber sold, but not shipped, December 1, 46,364,028 feet.

This does not include lumber sold to city yards. The above amount should be deducted from the stock as given in my regular report, to show the quantity on hand unsold. It is to be understood, of course, that the above is not an absolutely exact statement, but it is believed to be nearly enough correct for all practical purposes. Respectfully,

A. H. HITCHCOCK, Secretary.

LUMBERMAN'S GAZETTE OFFICE,
Bay City.

J. Little, of Montreal, has been writing to the Toronto Globe about the timber supply, and his article has been copied by the Eastern press. He asserts, with great gravity of style, that the Saginaw Valley is within three years of closing accounts in the direction of supplying Ohio, New York and the Eastern States with pine, and that the end is not more than seven or eight years off in the Alpena district. It is equally near, according to his calculations, in Wisconsin and Minnesota. This may be the reason why there has been such an unexpected inquiry for lumber the past week. It is not usual to find the demand so active at this time, when the year's business is being figured up and account of stock taken. We suspect it is, rather, as the New York REAL ESTATE RECORD says: "There is nothing yet shown to neutralize previous expectations of a full winter trade; indeed, it is good now, all things considered, and the early spring wants promise to exhaust pretty much everything carried over." In fact, most lumber of standard quality and dimensions is looked upon as good stock to have on hand. Another consideration is, perhaps, that the early birds catch the worms, get their pick of the stock. To do this they have to pay at the present time \$7, \$15 and \$35. Sales have been made the past week of 1,700,000 feet at \$7, \$14 and \$35, 1,000,000 feet at \$14.50 straight, and 1,200,000 feet at \$7, \$14 and \$35; 800,000 feet at \$14 straight and 1,500,000 feet at \$6.50, \$13 and \$28. These figures show the range prices are taking, and the early inquiry for next season's stock indicates a con-

fidence in the future condition of the market which will operate to maintain prices. The weather continues favorable for work in the woods and operations are going forward satisfactorily. There is only a limited amount of snow, but lumbermen can get along without it, and only ask for continued cold weather during the winter and plenty of rain in the spring to raise the streams. The general outlook for the trade is very favorable, and all things point to a succession of prosperous years which will only be interrupted by a general business depression.

From the weekly summary of the Chicago Northwestern Lumberman we extract the following:

The cold weather has now continued for a steady and continuous four weeks, effectually closing down all operations in the line of manufacturing lumber, where the logs were in ponds or water ways. We hear of some land mills still operating, but the intelligence comes more in the way of accidents to machinery and the breakage of saws in their contact with the hard frozen timber, invited by the ignorance or carelessness of filers, who leave square throats at the base of the tooth to invite a catastrophe. As to navigation, it is a thing of the past, and the ponds and rivers are inviting from a commercial standpoint only, to the ice men, who, in many sections, are already harvesting 14-inch ice for summer use. The cold weather is a blessing to the lumbermen, and roads in the woods were never in a better condition of solidity. In some localities, notably northern and western Michigan, there is snow enough for economical work, and good hauling is in progress. In nearly all localities there is sufficient snow to insure convenient and easy skidding, while the weather is sufficiently bracing to keep men steadily at work in order to keep warm. Altogether, from present prospects it will be most remarkable if the endeavor to get out the highest crop of logs ever seen in the Northwest, is not found in the spring to be extraordinarily successful. Still every foot of lumber which can be passed through the mills and find its way to market will be most surely wanted. The immense immigration which may confidently be predicted, in a volume even in excess of that of the past year, will add fully three quarters of a million to our population, and as the class of emigrants which is now seeking this country is almost universally fore handed, the \$35,000,000 which it is said the past year's emigrants brought with them will probably be increased to nearer \$50,000,000 during the next year. The number of itself will make an increase of at least 200,000,000 feet in the demand for lumber, and if we figure upon all the attending and resulting effects, in the demand of the railroads for cars, bridges, depots and fences, with the resultant effects of the immigration upon our present population, probably an increase of not less than 500,000,000 feet of lumber may be confidently predicted as the result of the natural increase of population from immigration. Our cities are building up as never before, and the demand for lumber increases in greater proportion than does the population, as more luxurious habits develop and more extensive operations are undertaken.

In all the Southern country, the export demand is represented as large and increasing, and in some cases the mills are so well filled with foreign orders as to be careless regarding orders from the North. Of course, under these circumstances prices are firm. Philadelphia suffers a decline in trade owing to the extreme cold weather, as do several other points, if not the entire list of leading markets. At this point the coarser grades of supply are badly broken with light receipts of yellow pine. Prices generally are reported firm.

Canadian advices are unchanged as regards the strenuous efforts which are being put forth to fill the streams with logs for another season. The epizooty is said to be raging in the Ottawa district.

Muskegon has fairly outdone all previous efforts to decimate the pine forests, her cut for 1880 being 624,558,526 feet, an increase of 120,000,000 feet over 1879. About 70,000,000 feet remain on the docks over winter. The Muskegon Boom Company have turned out 577,000,000 feet of logs, and the White Lake Boom Company handled 93,415,461 feet. The total lumber production of Muskegon county for the year, foots up 750,000,000 feet.

Michigan and Wisconsin report equal activity in the matter of logging, the former having in many parts of the logging districts fully as much snow as is desirable for economical lumbering, and the logs are going into the streams at a rapid rate. Wisconsin does not as a whole seem to have as much snow, but the frost has fitted the ground in an extraordinary degree for any snow fall which may come. It is to be hoped that the "eleven feet of snow on the 17th of December," which some wiseacres are predicting, may fall farther south than the logging districts of the Northwest, if it must come at all. The tone of the markets of the entire Northwest is of a uniformly favorable character, and the situation may be summed up in the statement, a good demand at full prices, with a great shortage of cars. On this point we learn that private parties are offering to supply to the railroad companies is some localities one quarter of the cars needed, if the roads will supply the balance. It is undeniable that the business of the country has expanded far beyond the ability of the railroads to do the carrying, and that a more liberal feeling in the way of providing rolling stock must be inaugurated by them. Many of the roads were allowed to run down during the depression in business of the panic period, and the country at large has recuperated beyond the ability of the roads to do its business. It is but just to the roads, however, to say that the car shops of the country are taxed to their utmost capacity in the endeavor to fill the orders which have been thrust upon them. The present outlook is for a continued increase in the demand for

cars, in a ratio greater than the ability of the roads to obtain additional rolling stock, and we fear that we are to see another season of as great shortage as the past has been, and as the present is.

The Northwestern Lumberman has the following on Hardwoods:

For the week the demand has been good and receipts light. The latter would have been heavier but for the scarcity of cars, which is a serious drawback just now in the hardwood as well as in the pine trade. Not only are the assortments more broken than they would be under freer arrivals, but dealers are unable to place orders, which is discomfiting to them and harrassing to the manufacturers who depend upon them. Dry flooring in ash, walnut and cherry is very scarce, and ash wagon poles are firmer.

Birch is a small factor in the hardwood trade in this city; so small, in fact, that little pains is taken to obtain it. The higher grades are selling from the yards at from \$20 to \$25 per thousand, and at present mills in Wisconsin are selling it at from \$9 to \$10, mill run, on cars at the mills. Yellow birch is used for chairs, perforated seats, school furniture, car manufacture and wagon-making in a small way. The chair factories at Cheboygan, Wis., use probably 400,000 feet annually. A veneer mill will be in operation at Tigerton, Wis., some time in January, that will cut large quantities of birch veneers, which have been contracted to New York car manufacturers. In England and Canada it is used largely for furniture and joinery work. As a wood for ornamental purposes, it deserves to receive more attention in this country, and, as hardwoods become scarcer, it doubtless will.

Wagon felloes cut from red or black oak do not find a market here. They are required to be of either white or swamp oak. Willow oak has been used for that purpose, but dealers in wagon materials consider it of little value. Hickory whiffletree sticks should be cut three feet long by 2x2 3/4 inches for oval, and 2 1/2 x 2 1/2 for round whiffletrees. If we had maple for this market, we should certainly cut it into flooring, which is in active demand; but different conditions may govern the market most accessible to our Eastern correspondent.

LUMBERMAN AND MANUFACTURER,
MINNEAPOLIS, Minn., }

The remarkable feature of the lumber market is the fact that notwithstanding the winter has set in in solid earnest, the demand continues so strong as to equal or at many points exceed the supply of cars to carry it. The December sales will exceed the disposals of any preceding year. Of course this has a material influence in strengthening prices at all river cities. It is not to be expected that any condition of things would so satisfy Chicago to the extent of preventing them from cutting each other's throats, a little especially under the influence of newspapers who give currency to mere rumors that prices are being slaughtered, which the so-called lumber sheet of that city did last week. The lake is closed, having nearly 100,000,000 feet back at the mills, which was designed for the Chicago market. The stocks there are not large in comparison with other years, considering the demand, besides which it is well known that competing stocks on the river are from 15 to 20 per cent. short of last year's supply, while the demand is far greater. If under such circumstances the rumor which has been made public should prove true, a commission in lunacy ought to investigate the sanity of the market butchers of Chicago.

The lumber business of St. Louis continues to be all that the shipping facilities will permit. The lack of cars is felt in the city as much as at any other place in the West, which prevents any effort on the part of dealers to extend their business. There are no road men out from St. Louis, and none are wanted. The stocks in the city are fully 15 per cent. less than they were at the corresponding time last year, while the assortment is equally short. There is now on the river between St. Louis and Dubuque 35,000,000 feet in the raft in winter quarters, some 12,000,000 feet of which is destined for this port. Some forty-five strings of lumber were caught by the recent freeze up in the water, but on Wednesday last the river opened out, and it will be all out of the water this week. There is some 3,000,000 feet in Alton Slough. There is no disposition to shade prices at any of the yards, with the official figures showing the logs turned out at Minneapolis, printed in our last issue, verifies our estimate of last spring that 200,000,000 feet of lumber would be cut here. The log scale being 180,881,980 feet, and the overrun at 10 per cent., making a total of 207,770,178 feet of sawn lumber, an excess of 43,820,180 feet over last year's cut. The actual shipments exceed those of 1879 by 18,130,000 feet, while the local trade has been more than sufficient to absorb the difference and leave the city with less stock on hand than one year ago. With such a situation there is no probability of a drop off in prices here.

News from the pineries indicate that log hauling is progressing on excellent snows, with nearly a month's start on last years work. This will give 25 per cent. addition to the cut.

An exchange has the following to say respecting the lumber supply of Puget Sound: "Our territory contains an area of almost 42,000,000 acres, including its mountain ranges, water courses, timber and prairie lands. Of these probably 5,000,000 acres of the most available lands will average 50,000 feet of good timber to the acre, or in the aggregate will yield the enormous quantity of 250,000,000,000 feet. On the remaining 37,000,000 acres probably as much more can be obtained with fair profit, a total aggregate of 500,000,000,000 feet of lumber. This is an enormous quantity, as much has been consumed in all the shipyards, on all the railroads, and in all the housebuilding of

the United States during the past 100 years. If properly conserved the forests of Washington Territory will undoubtedly yield double the quantity named in the foregoing. To do this the ruthless destruction of timber that is constantly encountered must be stopped; forest fires must end, and the sapplings must be allowed to mature."

THE EAST.

The Boston Commercial Bulletin reports:

The market for Western pine continues inactive, but prices are well maintained. The receipts are light but sufficient for the present wants of the trade. The views of Western holders have not weakened in the least, and some are asking an advance, but this is not readily acceded to by the trade. Hardwoods are quiet but strong. Walnut is scarce and firm, and cherry is also in good position. There is a steady demand for desirable kinds of Eastern lumber. The receipts have been small but ample for the requirements of the market.

THE PROVINCES.

The Lumberman of Quebec are finding great fault with the recent advance in the tariff of Crown duties, and are moving in an effort to have the evil complained of remedied. The following are the duties collected under the old and new tariffs:

OLD TARIFF.—Oak and walnut, per cubic foot, 3c; maple, elm, ash and tamarac, 2c.; red and white pine, birch, basswood, cedar, spruce and other square timber, 1½c.; pine logs, 12½ feet long, measuring 17 inches or more in least diameter, each, 15c.; pine logs, 13½ feet long, measuring less than 17 inches in least diameter, each, 10c.; spruce logs, 13½ feet long, each, 5c.; staves, pipe, per thousand, \$7; staves, W. I., per thousand, \$2.25; cordwood (hard), per cord, 16c.; cordwood (soft), per cord, 8c.

NEW TARIFF.—Oak and walnut, per cubic foot, 4 cts; maple, elm, ash, tamarac, red and white pine, birch, basswood, spruce, cedar and other square timber, per cubic foot, 2 cts; pine logs, 13½ feet long, measuring 17 inches or more in least diameter, including culls, each 26 cts; pine logs, 13½ feet long, measuring less than 17 inches in least diameter, including culls, 12 cts; spruce logs, 13½ feet long, each 6 cts; staves, pipe, per thousand, \$7; staves, W. I., per thousand, \$2.25; cordwood, hard, per cord, 16 cts; cordwood, soft, per cord, 8 cts; cedar rails, 10 to 12 feet in length, per 100, 25 cts; cedar pickets, per 100, 15 cts; cedar or pine shingles, long, per 1,000, 15 cts; cedar or pine shingles, short, per 1,000, 8 cts; cedar telegraph poles, 6 cts; cedar fence posts, per foot in length, ½ ct; cedar poles for block fence, per foot in length, ¼ ct; cedar hoop poles, per 100, 20 cts; rails of other wood than cedar, per 100, 10 cts; pickets of other wood than cedar, per 100, 5 cts; railroad ties of any kind of timber, each, 2 cts; hemlock lathwood, per cord, 15 cts; hemlock bark, per cord, 32 cts; hemlock logs, 13½ feet in length, each, 6 cts; balsam logs, 13½ feet in length, each, 5 cts; hardwood logs, round, same as pine, each, 45 cts; tamarac logs, round, same as pine, each, 15 cts; birch flooring, generally 28 feet in length, each, 25 to 30 cts; knees, according to size, each, 5 to 15 cts; futtocks, according to size, each, 10 to 35 cts; cedar for shingles, per cord, 16 cts; pine for shingles, per cord, 25 cts; hoom timber, spruce, round or sided, per lineal foot, ½ ct; hoom timber, pine or tamarac, sided, per lineal foot, 1 ct; small round spruce spars, less than 10 inch, lineal foot, ¼ ct; small round pine or tamarac spars, less than 10 inch, per lineal foot, ½ ct.

The Montreal Journal of Commerce:

As we intimated last week, lumbermen and farmers accustomed to winter work in the woods are jubilant over the prospects for the season. Large contracts have been made in the Ottawa district, and men are in demand at \$45 per month.

FOREIGN.

From London Timber Trades' Journal as follows:

LONDON.

The deliveries at the Surrey Commercial Docks last week again show a considerable falling off, being no less than 700 standards of deals, &c., below the quantity which went out during the corresponding week last year. The deliveries of flooring boards, however, were 270 standards in excess of last year, and this had need be, considering the large stock still on hand. The gross quantity of sawn wood of all kinds delivered from these docks was 4,874 standards, as against 5,318 standards last year, which would show a falling off of nearly 500 standards, while as regards floated timber the quantity was about equal.

Another large fleet of vessels has come forward since that last recorded, bringing something like 40,000 standards of one sort and another to fill up any gaps that the recent heavy sales and other influences may have caused in the dock stocks, for we may assume that with very few exceptions the majority of them will be landed in the great reservoirs north and south of the Thames. Making due allowance for an odd cargo or so that has gone direct perhaps from the ship's side into consumption, and others that may have been barged to the private yards without incurring landing charges, we may fairly reckon that at least 35,000 standards have been added to what was in stock previously.

LIVERPOOL.

The arrivals of vessels laden with wood goods have continued to a degree quite unexpected, and the result is, as will be seen from another column, that the importation, especially of spruce deals, has been very large, especially of lower port goods.

Several of these cargoes have been forced off at low prices, as the owners appear unwilling to hold them and face the heavy charges which would be incurred

in case they decided to store the deals; so that, whilst several cargoes have changed hands at figures below those recently ruling, the sales appear to partake more of the nature of forced sales than that of a natural market.

At the same time it cannot be disguised that, whilst upon all sides we were being told that the supply of all kinds of wood goods would be short, we have had far more poured into the market than was necessary. The tale told by the Swedish and Russian houses in early spring of short supplies and consequent high prices has been taken up by our colonial brethren, and with a very similar ending, that, so far from the predicted supply being short, there is not only sufficient to fill all the contracts made on the faith of the reports put out, but a considerable surplus is left over, and which is now being put on the market, and some low sales are reported to have been made for inferior classes of deals, notably Quebec pine.

METALS.—COPPER.—Ingot continues under strong control, and the tendency is gradually upward. The agreement between the companies and the manufacturers has finally culminated, and some 6,000,000 pounds were taken, the deliveries running up to April next largely at 19c. it is understood, but in some cases higher. At the close Lake is quoted stiff at 19@19¼c., with reduced offerings. Manufactured copper in good general demand and firm at full former rates. We quote as follows: Brazier's Copper ordinary size over 16 oz per square foot, 28c. per lb; do do do. 16 oz and over 12 oz per square foot, 30c per lb; do do, 10 and 12 oz, per sq foot, 32c per lb; do do, lighter than 10 oz per sq foot, 34c per lb; circles less than 84 inches in diameter, 31c per lb; do 84 inches in diameter and over, 34c per lb; segment and pattern sheets, 31c per lb; locomotive fire box sheets, 28c per lb; Sheathing Copper, over 12 oz per sq foot, 26c per lb and Bolt Copper, 28c per lb. IRON.—Scotch Pig shows no change of importance. Demand is moderate and somewhat uncertain, but no more so than usual at this season, and holders remain very firm in asking full former rates. We quote at \$21 50@24.50 per ton, according to brand, delivery and quantity. American Pig has been quite slow of sale on the spot, and only small jobbing parcels reported. Offerings, however, are also light and holders in about all cases remained firm at full former figures. Consumers show considerable anxiety to contract for next year's delivery, but sellers are unwilling to name a price. We quote at \$25@26 per ton for No. 1; \$21@22.50 do do. for No. 2; and \$19@20 for forge. Rails have met with a good demand, extending into the autumn of next year, and with scarcely any unengaged capacity to use, sellers have been compelled to refuse many orders. It is reported that large quantities of English steel rails have been engaged for arrival soon after the turn of the year. We quote at \$15@48 for iron and \$58@62 for steel, according to delivery. Old rails \$26@28 per ton; scrap, \$26@28. Manufactured Iron has found more or less neglect, and the tone of the market was weak and unsettled under strong competition between imported and domestic lots. We quote Common Merchant Bar, ordinary sizes at 23@24c. from store, and Refined at 25@26c.; wrought beams at 3c. Fish plates quoted at 29@34c.; track bolt and nuts, 3½@3½c.; railway spikes, 3c.; tank, 3@3.1c.; angle, 3c.; best flange, 6c.; and domestic sheet on the basis of 3½c. for common Nos. 10@16. Other descriptions at corresponding prices, with 1-10c. less on large lots from cars. LEAD.—Domestic Pig has been selling quite slowly and mainly in small lots, as wanted for immediate use. Stocks in the meantime were offered with some freedom, and prices eased off on even the best, closing unsettled and to some extent nominal. We quote 45@47½c. The manufacturers of lead are steady and quoted: Bar, 6c.; Pipe 6½c., and Sheet, 7c., less the usual discount to the trade; and Tin lined pipe 15c. Block Tin pipe, 40, on same terms.

TIN.—Pig, as a rule, is in strong hands, and owners not anxious to operate, but demand moderate and uncertain, and some of the irregular "outside" lots were offered at a concession. We quote 20½@21½c. for Australian, 20½@20½c. for Straits, 20½@20½c. for English Refined, 20@20¼c. for do. Common. Tin Plates have sold fairly for immediate, and with greater freedom for future delivery, but offerings ample, and the increase of movement due as much to better terms offered as anything. We quote I C. Charcoal, third cross assortment, \$5.75@5.00 for Allaway grade, and \$6.12½@5.37½ for Melyn grade; I. C. Coke \$5.00@5.12½ for B V. grade; \$5.12½@5.25 for Yspitty grade; Charcoal terme \$5.25@5.50 for Allaway grade. 1 x2; \$11@11.12½ for do., 20x28; Coke terme, \$4.50@5.00 for Glais grade, 14x20, and \$10@10.12½ for do., 10x28—all in round lots. Spelter in light demand and barely steady in tone. Quoted at 4¼@5c. for desirable brands. Sheet zinc in limited demand and favoring buyers at about 7@7¼c. according to quantity.

NAILS.—Demand has been somewhat unsettled and without any great volume, buyers in most cases confining themselves to early and actual wants. Amounts available are ample and well-assorted, and the tone on values continues easy all around. About \$2.75 per keg for 10d. to 60d. remain as the nominal wholesale valuation, but small lots cost somewhat higher up to say about \$2.90 per keg.

PAINTS AND OILS.—On most kinds of stock the volume of business is moderate and uncertain, and the market, as a whole, rules dull. Dealers, however, consider this as a seasonable condition of affairs, and are not much influenced, though in some cases odd and broken parcels would probably be closed out cheap in order to straighten stocks for the close of

the year. As usual, leads are the most unsettled of any class of stock offering, and meetings of manufacturers and revisers of list rates bring no remedy, as cutting and under-selling are constant. Indeed, we learn that all combinations on lead, as well as on whiting, have now been abandoned, and goods are to be offered for what the market justly warrants. Dry is said to have sold below 6c., and in oil below 7c., and not very large parcels in either case. Linseed Oil continues to sell moderately in small lots as wanted for early use, and prices hold steadily. Quoted at 55@56 for city and 59@61c. for Calcutta.

PITCH.—The demand without animation and confined to the ordinary trade orders, with prices showing no important change. We quote at \$2.15@2.25 per hbl. for City, delivered.

SPIRITS TURPENTINE.—The market has again been comparatively dull during the greater portion of the period since our last. Speculation was careful, consumption wants small and buyers generally manifested quite an indifferent tone. Supplies, however, were offered somewhat indifferently and holders refusing to make any important concession, as the accounts from both primary and dependent markets were sustaining. As this report is closed, the quotations stand at about 45@46c. per gallon, according to the quantity of stock handled.

TAR.—The market remains firm, in view of the small amount of stock offering, and holders generally are indifferent operators. Demand, however, is quite moderate and buyers will not move beyond immediate wants. We quote \$4.00@4.12½ for Newberne and Washington, and \$4.00@4.25 for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows: 1st—Q. C. is an abbreviation for Quit Claim deed i.e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which the covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

ALPHABETICAL INDEX.

NOTE.—Names in SMALL CAPITALS convey property from husband to wife.

GRANTORS.

Altmayer, Aaron.	Gaffney, Deborah L., wife of J. H.
Arras, William.	Gallup, Jane A., wife of A. S.
Barker, Prelate D.	Grant, H. L.
Barnes, R. W.	Griffin, Henry.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded. Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date

DIRECTORY OF

RELIABLE REAL ESTATE AGENTS.

We have carefully investigated the responsibility of all Real Estate Agents named in this Directory, and find them to be in every way competent and responsible. We therefore recommend them to capitalists and real estate operators generally as being the best agents to be secured in their respective section, as shown by letters from prominent business firms, which may be seen at the office of the REAL ESTATE RECORD.

C. W. SWEET.

No. 137 BROADWAY

The extension of the commission hours, that is the two additional hours each day when only five cents is charged, has led to an increase in the receipts of the elevated roads, so much so as to advance the price of the three classes of stocks. Why should not these roads change their method, charging five cents all day for points below Fifty-ninth street and ten cents for greater distances?

Then, why should not the elevated roads add to their revenues by having elevators at the principal stations. Ladies would gladly pay an extra cent to avoid climbing the high stairs. Many a lady would prefer to walk a mile on a level, rather than go up the One Hundred and Sixteenth street or One Hundred and Twenty-fifth street stairway. With reduced fare and a system of elevators, the roads might add very materially to their incomes.

THE GROWTH OF NEW YORK AND THE PRICES OF REAL ESTATE.

[From the San Francisco Bulletin.]

New York at this time seems to be going ahead faster than any other city in the United States. In consequence of the narrowness of the island on which it is located, it has always been slopping over. Its surplus population built up Brooklyn, a city of 500,000 population. Williamsburg and Hoboken are also offshoots. In later years towns distant sixty miles in other States have taken on the character of suburbs of the great metropolis. But the elevated railroads have evidently brought this centrifugal movement to an end. The growth of New York until all its outlying settlements are called on will perhaps be quite as marvellous as its original start. That city had not more than 30,000 inhabitants when Washington landed at the foot of Wall street to be inaugurated first President of the United States. The old Federal Hall, now the Custom House, from the balcony of which Washington delivered his inaugural, was considered to be the centre of the town. But now we hear of streets rising as high as the two hundredth. Quick transit is giving to New York all the growth out of which she has been so long kept.

"Quick transit" of course is helping Manhattan Island enormously, but it is not the only factor in New York's growth. As prospers the entire country, so prospers the metropolis, containing the very essence of the wealth, the brain and energy of the entire Union. It is the fountain heart of the Republic, the financial centre so to speak for all of the vast enterprises that have explored the West and the South. And in this connection we like to reproduce the words of a prominent lawyer and large real estate owner, who only yesterday stated that the price of land in New York, would be, ere

long, higher than it ever had been before. Upon being requested to give the reasons for his assertions, he said, "If during the last inflation years when we had only \$700,000,000 in circulation; real estate could reach such high figures, why not higher figures with \$1,100,000,000 in circulation? It has never yet failed in the past, but that after each panic, the price of real estate rose at least fifteen per cent. above the previous tide of prosperity. With the resources now at the command of our country, with the constant influx of foreign capital and foreign immigration, with our bonded debt nearly all held by our own people, with labor in demand everywhere and the country generally prosperous, all being reflected in this very city, where vacant lots are day after day decreasing in number, the price of real estate must go up, and that, too, very soon. Indeed we are already in the midst of a rising market. People say a great deal about the wilderness on the West Side, but where could private capital build there while public improvements were neglected by the municipality? During the past year some salutary changes have been instituted in this respect and now municipal improvements are going right along. While the East Side is virtually built up, it needs only the enterprise of two or three energetic builders and you will soon see the West Side built up as closely as is now the East Side."

CHICAGO REAL ESTATE.

Chicago has had several surprises lately: one was the ruin of a great number of speculators in grain and provisions and the other was the sudden demand for houses and stores. Indeed, the extraordinary statement is made, that so enormous was the demand for residences, that there is not a single vacant house in that city. The building, next spring, promises to be phenomenally large. Accounts from all the other centres of population are to the same effect. Seasons of great business activity always enlarge the population of the urban at the expense of the rural districts. Our own city builders are all employed, but they will not be able to supply the demand for houses during the coming year. Some morning New York will wake up to find a demand for several thousand more houses than the market can supply. The growth of our population is shown in the overcrowded schools, and in the fact that there are 5,000 more children than can be accommodated in the upper wards.

New York will hereafter be forced to grow along the lines of the elevated roads; we are packed in between two rivers and the line of growth will be from the south north, and from the east to the west. Chicago can grow

literally in every direction, north, west and south. Hence it follows, that the speculative activity will be greater in this city, as it will be confined within certain well defined limits. So far the demand for lots in New York has been for builders, and when speculation sets in, the present prices will seem very low.

A NEW TAX COMMISSION.

The proposition of Mr. Alvord to convene an extra session of the Legislature for the purpose of amending the tax system of the State shows that our law makers have heard at last the loud demands for reform, made not only by corporations but by institutions. The question arises, however, whether any ordinary legislature is of sufficient intellectual calibre to grasp such an important question in all of its bearings. Instead of calling an extra session of the Legislature, would it not be well to create a commission with power to sit during the summer months and devise a scheme of taxation that will suit all the interests of this state. Such a commission should be composed of men who have made this question a study for years past. No novices, not even ordinary business men, can at all comprehend the infinite details that must be considered in devising such a scheme. Men like George H. Andrews, Isaac Sherman, Abner Bartlett, would have no difficulty in arriving at satisfactory conclusions and, if authorized to do the work, they would submit to the Legislature of 1882 a new set of taxation laws, based upon the experiences of the past and the requirements of the immediate future.

A SECOND BROOKLYN BRIDGE.

Matters are so far progressed that we are enabled to state that a new bridge is shortly to be commenced over the East River. It will cross at the upper end of Blackwell's Island, and it is part of a general scheme which will have important consequences to Brooklyn, New York and Jersey City. In point of fact, it is a movement in the interest of the New York Central & Hudson River system of roads and is intended to break the monopoly which, it is feared, may be secured by the concentration of the Baltimore & Ohio, Pennsylvania Central, Delaware & Lackawanna and Erie system of roads on the Jersey waterfront. In a few years the New York & New Jersey Riparian Land and Dock Improvement Company expect to complete a series of magnificent improvements for the benefit of the railroads now centering in Jersey City. They will have every advantage over the terminal facilities of the Central on the Hudson River. The only rival possible to Jersey improvements is to be found

in Gowanus Bay and the Atlantic and Erie basins adjoining. The new bridge over Blackwell's Island is to be constructed with a special view to conveying freight, which is to be continued on a belt road running over viaducts for thirteen miles until it reaches Gowanus Bay. In other words, the intention is to divert the freight, or at last such part of it as is to be shipped to Europe, from the Hudson River to the docks and elevators in South Brooklyn. This scheme may not have originated with the directors of the Central road, but large stockholders of that company are understood to be interested in it. The elevated viaducts to be constructed around Brooklyn, are to be similar to those so long in use in London. This new road, including the bridge, is to be completed within two years, so as to profit by the enormous travel from Brooklyn and Long Island to the World's Fair, and this also shows how powerful an interest will be arrayed in favor of Inwood as the site. In this connection it may be not amiss to state that when the site is finally determined at Inwood and a sufficient amount of money is subscribed by other parties, that Mr. William H. Vanderbilt will personally give one million of dollars, while the Central road will donate one-sixth of its large surplus, which amounts to one million more. At least this is the report. The new bridge will be a far less pretentious and costly affair than the one now building, but it will be vastly more useful because of its connection with the Gowanus docks and the general business of the country.

THE LONG ISLAND RAILROAD.

After being under a cloud for several years Long Island Railway property is beginning to look up. After ruining many capitalists and combinations of capitalists, the various companies passed into the hands of a receiver, and now Drexel, Morgan & Co. represent a large interest, which is purchasing all the railroads with the intention of consolidating the whole railway interest of the island. The new blood comes from the people who have made so much money at Coney Island. It is now seen that the taste for these sea bathing resorts grows on what it feeds upon, and that other localities on the South Side are certain to become popular with the pleasure and health-seeking public. The growth of these summer watering places is giving an impetus to market garden farming on the island. More clams, fish, vegetables, chickens and eggs will be needed year after year. The millions who go to the sea-shore must be fed, and the bulk of perishable articles will come from the soil and surrounding waters of Long Island. It is a pity that there could not have been some combination among the large owners of property to run the railroad in the interests of the community rather than of a company. It is the misfortune of all corporate management that its principal aim is to increase dividends without respect to the prosperity of the section it serves. Hence poor communities are taxed unduly to swell the profits of the transportation companies. Some day the experiment will be tried of

running a railroad for the benefit of the public rather than a combination of capitalists, and it is to be regretted that the first experiment could not be on Long Island. It is admirably fitted for testing a problem of this kind, but it seems it is not so to be, and we will have the railway system of the island subordinate to the interests of the pleasure resorts on its eastern end.

THE ASSOCIATED PRESS.

This important organization consists of seven New York papers: The *Herald*, *Tribune*, *Times*, *Sun*, *Express*, *Journal of Commerce* and the *World*.

This great news-gathering agency collects European news as well as general items of interest from all parts of this country, including the markets. This news is re-sold to other press associations outside of New York City.

A surprising piece of news comes out in connection with this organization. It seems Jay Gould aspires to own the associated press. He already owns the *Tribune* and the *World*, and negotiations are on foot for giving him the franchise of the *Express* and *Journal of Commerce*. This would not only put the *Herald*, *Times* and *Sun* at his mercy, but would give him autocratic power over the press of the entire country. If he should also get possession of the telegraph system, as seems not unlikely, it would give him opportunities for wealth beyond the dreams of avarice. For the price of every commodity in the country could be manipulated by the most daring and conscienceless speculator the world has ever seen.

It must be borne in mind that all our information respecting prices is monopolized by the telegraph and the press, and he who controls those holds the key which unlocks the wealth of the world.

THE PRICE OF MONEY AND THE MARKETS.

The recent outcries of the bull speculators against Secretary Sherman and the banks, because of occasional tight money, is very absurd. For the past three months we have placed upon record the prediction that December would show high rates for money. This occurs every year, for reasons which we have repeatedly set forth. The fact that stocks have remained high and even advanced in the face of a tight money market, leads many old street operators to suspect that when money becomes easy in January stocks will go off; for it is the unexpected which generally takes place in the street. But the easy money will relieve the merchants and we may expect to see grain, provisions and cotton exported in immense quantities as soon as the rate for money falls back to 4 and 5 per cent.

We announced recently that there was likely to be a move in the metal market, and we ventured to predict much higher prices immediately after the holidays. It now leaks out that a syndicate of copper manufacturers have made contracts with the companies for the delivery of nine million pounds of lake between now and March

15. The consumption, it seems, is enormous, not only of copper but of all the metals. The consumption of copper alone amounts to 60 million in 1880, against 48 million in 1879. Speculation has been dead since the disastrous experience of last spring; but it has already revived and we may expect to see a speculative market and advanced prices due to the same general causes which have put up the price of stocks.

The last advices from Europe show so great an increase in the iron trade, that employers are about to concede an advance of 10 per cent. to the wages of their workmen. Now that the leading manufacturers have been supplied with copper, the outsiders will soon have to pay from 22 to 24 cents a pound. The new electric lights, should they prove a success, will involve a vast consumption of copper. Indeed, some speculators talk of 30 and 35 cents a pound sometime during the year 1881, and so of the other metals, especially iron.

THE POSITION OF WESTERN UNION.

The situation in this favorite speculative stock may be summed up as follows:

I. William H. Vanderbilt, D. O. Mills, all the large California operators but James R. Keene, and the followers of these magnates, have sold out their holdings in Western Union stock.

II. This action was due to a belief on the part of the large holders that a company capitalized and bonded for over fifty million, could not successfully and permanently compete with an organization that could supply the same facilities to the public which was capitalized for less than one fifth of that sum.

III. The new owners of Western Union are out-of-town investors who have picked up the stock, thinking it cheap at present prices. We understand there are 400 new names on the books of the Western Union, representing out-of-town holders of one and two hundred shares each.

IV. On its present business Western Union can pay 10 per cent per annum. Nearly two million was spent last year on construction account. By saving this expense, Western Union can easily fight any opposition and pay 7 per cent. for several years to come.

It follows that Vanderbilt and his friends may have been sound in selling out, and yet those who bought below 90 may get a fair return for their outlay.

THE IRON MOUNTAIN ROAD.

We have repeatedly pointed out in these columns that Jay Gould would be forced to secure the Iron Mountain Road to successfully carry out his schemes for building a trunk line to the city of Mexico. On December 11th we said: "A glance at the map will convince any one that the trunk line to the Laredo Pass will not be the M., K. & T., but the Iron Mountain. The opening of the Indian Territory, as foreshadowed by Secretary Schurz's report, would make the stock of the M., K. & T. very valuable, but, for all that, it is not unlikely that Gould is at present using the stock of the one road to

December 25, 1880

depress the other, in order to buy it in and so control all the traffic to the City of Mexico." As far back as November 13, in an article headed "On to Mexico," we said, among other things:

"On looking sharply at the map it will be noticed that the shortest line from St. Louis to the city of Mexico or to the Laredo Pass, is by way of the Iron Mountain road, so that perhaps, after all, it is the latter property which will profit most by the extension to the city of Mexico. Indeed, it is whispered that the one great object of Jay Gould is not so much to get possession of Missouri, Kansas & Texas (for, indeed, that is under his control), but to in some way seize upon the Iron Mountain road. Those who know Gould personally say that his ambition is to take passengers on palace cars in the city of New York bound for the city of Mexico, without any change of cars or detention on the way. The business of both the Iron Mountain and the Missouri, Kansas & Texas will be very largely increased by the building of these extensions and the branches which will run into them. These two roads have now a monopoly. * * * It is manifest that the Iron Mountain road will monopolize most of the Mexican trade, from the fact that the line is shorter than it possibly could be by way of the Missouri, Kansas & Texas."

Not a word of this was in any New York paper until last week, when a despatch appeared announcing that Jay Gould had secured all of Mr. Allen's stock as well as a portion of Mr. Marquand's. It seems Gould got the Iron Mountain people into a corner by getting possession of the extensions of the road to the Southwest. When this became known he sold the stock rapidly short, broke the price down to 41, whereupon the Iron Mountain people capitulated and Gould captured the road, upon which the stock reacted to 55.

But is the stock now a purchase?

That question is hard to answer. Jay Gould's policy has rarely been to buy stocks. If he works it and wishes to purchase more, he breaks the price of the stock down by short sales. Or, he may sacrifice the present stockholders in the interest of the extension of the road to the city of Mexico. The through line will cost a great deal of money to construct, and from San Antonio to the City of Mexico, is not likely to be a paying property for twenty years to come.

It is not until roads pass out of Jay Gould's exclusive possession that they reach their highest figures, as witness all the organizations with which he has been connected, from Erie to Union Pacific. But the extension of our railroad system into Mexico is a good and beneficial work, and though stock operators may not profit, the two countries will.

THE BREAK IN CHICAGO.

People who remember the experiences of former years, have been looking for a setback in prices towards the close of December. They have not been disappointed so far as the provision and grain trade are concerned. Chicago is in a state of semi-panic and the shrinkage of values in grain and provisions, following so close upon the failures in the tobacco and coffee business, should attract and is attracting a good deal of attention. Last year it was the speculators in metals and cotton goods who were caught out; the grain market and the provision trade was sustained by James R. Keene and other large speculative holders. Will this depression extend to our stock market? The prices are

high and they have had a large advance. It is true they are maintained by potent causes: the continued shipment of gold coin to this country and the probable passage of the three per cent. funding act by Congress. Although we live in "bull" times it does not follow that prices are always going up or that they will not have serious declines.

ABOUT MINES.

HAVERLY'S MINING EXCHANGE.

Report speaks well of the group of mines owned by Haverly, the theatrical manager, but we cannot recommend any one to invest in them. A good mine is only one factor in an investment property. There must be, besides, intelligent management as well as honesty. A man who runs eleven theatres in different cities, who has eleven different bank accounts, the funds of which can be drawn upon by as many different managers, not the owner, stands in a rather perilous position. Haverly is a very enterprising person and we have not heard anything against his honesty, but he is in a very risky business, and his mines cannot have the advantage of his personal attention.

THE ARCHIE BORLAND AND THE COOK'S.

The deal in Alta has resulted in a tremendous disappointment. The victims are many and they are of course all wrathful. Among others, Archie Borland, who purchased some 5,600 shares at high figures, is naturally very angry. He promises to follow the Cook Brothers to their grave. Archie is an "honest" miner, one who accumulates a large fortune by getting the best of people he has had dealings with. He is an Irishman, as are all the members of the bonanza firm, as well as the most prominent mine owners and operators in San Francisco. Borland has lost a great deal of money within the last two years, while the Cooks admit that they are behind hand \$400,000 on the Comstocks alone. They have probably, however, recouped themselves by the late deal in Alta. New Yorkers have reason to complain of the Cooks for the Bulwer deal, for it is they who profited by the marketing of some 40,000 shares of Bulwer on this market at from \$10 to \$14 a share. Bulwer now sells for less than \$2, and did not cost the Cooks more than 50 cents. But it will probably sell for more by-and-by. There will be little sympathy felt for Archie Borland by those who had dealing with him.

THE CHRYSOLITE.

While generally discrediting the Leadville stocks, our readers will bear witness that we have always spoken well of the Chrysolite and its future. While it was selling at \$4 a share we said it was very cheap. All the inside reports are good, but the management is conservative, and will not declare any dividend until it can have a surplus of \$250,000 after the dividend is declared. This it is hoped the mine will be able to do next March. The net profit is said to be \$5,000 a day, and the mine never looked better. Should the mine prove to have over seven millions of ore on its levels, it will be a great personal vindication of Prof. Rossiter Raymond, whose standing as an expert had been injured by the ill-repute in which the mine had fallen under its California managers.

Those who have been surprised that Mr. Kelly continues to keep his seat in the new Assessment Commission, should remember that one of the sections in the act creating the commission reads as follows:

"Edward Cooper, the present Mayor, John Kelly, the present Comptroller, and Allan Campbell, the present Commissioner of Public Works, of said city, together with John S. Lawrence,

Geo. H. Andrews, and Daniel Lord, Jr., of said city, are hereby appointed commissioners, etc.

THE SALE OF THE TONTINE COFFEE HOUSE.

The premises known as Nos. 84, 86 and 88 Wall street, now constituting a fine office building, but originally known as the Tontine Coffee House, will be sold at auction by Messrs. A. H. Muller & Son on January 11, in accordance with a decree of the Supreme Court, confirming the report of Wm. B. Winterton, Esq., referee, a suit in partition to determine the right, title and interest of various parties having been brought in 1873.

Mr. Winterton's report, upon which the decree of partition is based, is one of the most carefully written and most elaborate documents that has ever come under our observation, and it traces, though in legal phraseology, the history of this property, which is almost co-equal with the history of our city. It was on or about June 4, 1794, that several persons purchased some lots of land in the Second Ward, erected a building thereon called the Tontine Coffee House, to be kept and used as such. Conveyances were taken in the names of John Broome, Julian Verplanck, John Delafield, William Haight and John Watts. The property in the land, buildings and furniture was divided into 203 shares. It was then and there agreed that "the owner of each share is to receive the profits of such share during the natural life of the person named and described opposite to his name as his nominee for such share. Upon the death of any such nominee, the share which depends upon the life of such nominee is to cease and the whole profits of the premises are continually to go to and be equally divided among such of the said owners whose nominees shall be living on first day of May in every year until the said nominees by death be reduced to seven, when the whole of the said property is to vest in the persons then entitled to the shares standing in the names of the seven surviving nominees; and the trustees or their heirs, in whom the fee of the said land and premises shall then be vested, are then to convey the same to the persons so entitled in fee equally to be divided between them."

Annual meetings were held on the first Monday in June "at eleven of the clock," when five members were selected as a committee of management. At these meetings one person had only one vote no matter how many shares he possessed. It was also agreed that until "the nominees" be reduced to seven, each share shall be considered as personal estate. This remained so until the death of John P. De Wint, in November, 1870. During this year, James F. De Peyster and Hamilton Fish were acting as trustees and the time had arrived for the conveyance of the property in fee simple to the nominees, their heirs or assigns. There being no other way of disposing of the property, a partition suit was brought, and Mr. Winterton, referee, in his report, determines the shares to which the various parties in interest are entitled. Among these are the following: Wm. T. Horn, one-seventh; Frederick De Peyster, seventeen seventy-sevenths; Elizabeth J. Lynch, one-seventh; Marshall H. Bright, one-seventh; Charles Ray King, one-forty-ninth; John Alsop King, one-forty-ninth; Richard King, one-forty-ninth; Elizabeth Ray Van Rensselaer, one-forty-ninth; Caroline and Cornelia King, each, one-forty-ninth. Other parties are mentioned, but the above constitute the major part.

"The conclusions of law" arrived at by the referee, after a long and carefully arranged statement of facts, embrace the circumstances leading him to the designation and allotment of the various interests in this property, and among

these are to be found the very best names which our city has ever produced.

The sale, aside of its historical interest, will, no doubt, command great attention, as the old coffee house is now a stately building in the very centre of the busiest part of New York.

MUNICIPAL NOTES.

Mr. Wm. L. Strong, a very strong man in the World's Fair Committee, has resigned.

The work upon the superstructure of the Brooklyn Bridge will be begun next month.

Surveyors are at work in the annexed district, laying out the route of the suburban rapid transit road.

An effort is being made in the Board of Aldermen to change the name of "Park row" to "Publishers' row."

The business of the Department of Public Works is now transacted at No. 31 Chambers street. Water rents must, however, until further notice, be paid at Room 10, City Hall.

Eighty-second street, from Ninth avenue to the Boulevard is to be lighted, and One Hundred and Twelfth street, from Madison to Sixth avenues, is to be regulated, graded, flagged and curbed.

The receipts of the Manhattan Railway Company during the past week, have averaged about \$2,000 a day in excess of the daily receipts of the previous week, owing to the extension of the commission hours.

The macadamizing of the road from Kingsbridge to Yonkers, one of the most pleasant drives out of New York City, which has been allowed to deteriorate greatly of late, is being urged upon the Board of Estimate and Apportionment.

In reply to the question of a lawyer, whether the petitioner asking for the vacation of assessments must pay witness fees or whether the city would pay them, the Assessment Commission stated recently that the city had nothing to do with such charges.

SPAULDING'S SIXTY-FIFTH STREET HOUSES.

The greater part of the excellent block of houses on Sixty-fifth street, between Madison and Fifth avenues, has been built by Mr. B. Spaulding, so well and favorably known in the building trade. The block is now almost completed, and many of the houses were sold when only partially constructed. It may be said that Mr. Spaulding has virtually monopolized the erection of houses on this block. Only three of them remain as yet unsold, and they also will no doubt be shortly disposed of before the increased values of next spring begin to rule the market.

These houses are very uniform in their construction, of fine and carefully cut brown stone throughout, bay windows extending to the fourth stories. The porticoes and balustrades, especially, are of a superior finish, and give the houses a very cheerful aspect. The cellars are all light, airy and concrete, with ample and due arrangements for heating and ventilation. The main halls are marble tiled, roomy, and give at once a correct impression in regard to the interior construction. Ample mirrors are found in the main parlors, and the decorations of the dining rooms are in perfect keeping with the purposes in view. The entire first and second floors are, in fact, finished in hardwood. Elaborately designed mantles, of the same material, ornament these two stories.

The upper stories contain large and airy bedrooms, with ample wardrobes and closets, all finished in a manner which Mr. Spaulding considers has no other equal for a first-class residence. The grates, andirons, etc., are from the well-known house of Conover, in Canal street, and are quite ar-

tistically designed. The plumbing work throughout these houses is in accordance with the best scientific and sanitary method, and the various details of construction have been finished under Mr. Spaulding's personal supervision.

We would recommend those requiring a first-class residence to examine them. Mr. Spaulding considers them according to location and style of house, price, etc., cheaper than other houses put on the market this season. These houses measure as follows: No. 25, 22x65x100.5; No. 21, 22x60x100.5, with butler's pantry extension; No. 19, 25x60x100.5, with same extension. The houses will be sold for less than the ground can be purchased for and the houses built for at present.

MR. DOYING'S MADISON AVENUE HOUSES.

Quite a number of purchasers, desirous of securing an elegant house on what is now considered one of the most attractive avenues in New York, have visited Mr. Doying's new block on Madison avenue, between Sixty-second and Sixty-third streets, since our announcement of the fact that the row was virtually finished and ready for the market. Negotiations are pending for several of the houses, but in so far as the supply is not equal just now to the demand for eligible houses, the owner is unwilling to lower his prices of \$45,000 for the inside and \$55,000 for the corner houses. It ought to have been stated in our previous article that Mr. Doying has, owing to the excellent finish of his houses in the cross streets, between Madison and Fourth avenues, acquired a reputation for honest work which now is appreciated in the building trade. The houses now offered surpass those he actually built for reputation in this market. Having established that reputation he has now demonstrated that the success of previous work done has only urged him on to do still better, and hence he feels satisfied that the houses now offered and at the price given will meet the expectations of *bona fide* investors. Every part of the work has been done under his personal supervision; double doors in the various stories, plumbing by day's work, and nothing in the shape of modern improvements has been overlooked, and the improvements have been finished with solidity, ingenuity and ample care.

MARKET REVIEW.

REAL ESTATE MARKET.

For list of lots and houses for sale see pages v and vi of advertisements.

The past week, though bordering on a holiday, reflected in a thorough manner the healthy condition of the real estate market. There was every day a very large attendance of capitalists, dealers and brokers in the real estate market, but unfortunately the offerings at auction were very inconsiderable. The advantage of buying at auction, when decisions must be made sharp and short, appeared to be understood by several investors, and those who did take hold of the few parcels offered cannot but be satisfied with their investments. It is outside of the auctioneer's stand, however, that the quiet but healthy tone of the market can be observed, and there it is that one meets now with builders, notably those who have improved the West Side of Harlem during the current year, that expressions of dissatisfaction are heard at the low prices at which they disposed of their houses during the past two months. In the Exchange Salesroom during the week Mr. Harnett's sale of Johnson & Shepard's property may be set down as quite favorable to purchasers. The southeast corner of Eighty-third street and Fourth avenue was disposed of for \$10,000 and three adjoining lots on Fourth avenue for \$8,800 each. Two lots on the same avenue, south of Eighty-first street, were sold for \$8,500 each, and three lots on One Hundred and Seventeenth street, between Eighth and New avenues, for \$2,500 each. This last purchase, the lots being excellently located and actually on the line of speedy improvements, must shortly result in substantial profit to the buyer. Mr. Raymond sold at auction during the week Nos. 1022 and 1024 Third avenue for \$3,400. Other sales were made of improved property by Boyd and also by McGuire, full details of which will be found at foot.

The Planet Mills, consisting of several large buildings between President, Carroll, Hoyt and Bond

streets, Brooklyn, owned by Buchanan & Lyall, was sold at a nominal sum to the original owners, the suit instituted in the Supreme Court for the purposes of partition being a friendly one, so as to enable the concern to run the mills as a private firm instead of a stock company.

GOSSIP OF THE WEEK.

As stated above, it is outside of the auctioneer's rooms now that the actual volume of business controlling the real estate market can be properly ascertained, but the various brokers only now and then are disposed to communicate transactions before they are placed on file. Nevertheless, this very refusal to furnish the information required only leads others to be more determined in sounding the bottom of the market. Of course, it requires caution while investigating reports, as they are given by uninterested parties, but, in almost every instance, dealers and others, when once they are informed that their transactions are known in the street, willingly add the requisite details.

Naturally all sorts of rumors abound, and as such only we give them, when alluding, for instance, to the report now prevalent that both Mr. W. H. Vanderbilt and Mr. J. M. Mackey's agent are bidding for the Fifth avenue block adjoining the Cathedral, now occupied by the Catholic Orphan Asylum. Mr. Vanderbilt is said to be anxious to secure that block for a private park opposite his house, and Mr. Mackay seems to be disposed to construct his new residence there.

Mr. John Jacob Astor has purchased the southwest corner of Fifth avenue and Thirty-sixth street, known as the Barmore flats, "furnished and equipped," for \$212,000. The dimensions are 39.5x100 on the avenue and 25x67.5 on the street. There are three buildings all six stories, two on the avenue and one on the street.

Mr. Isaac Honig has sold for Mr. Alexander H. Stevens the plot of land, 162x103x141x100, on the south side of Ninety-seventh street, 175 feet east of Fifth avenue, to Mr. Isadore Confield, for \$50,000. These lots, as will be seen in our advertising columns, are again offered for sale by Mr. Honig. The same gentleman has sold for Mr. Feuchtwanger the four-story brown-stone house with lot, 20x100, No. 60 East Sixty-fifth street, to Wm. Beuthner, for \$32,000.

Mr. Crawford, of Third avenue, reports the sale of four lots in Eighty-sixth street, between Fourth and Lexington avenues, for \$23,000, to Moritz Bauer; also four lots on the southwest corner of Seventy-sixth street and Fourth avenue, to Tracy & Russell, for \$12,000. The same broker reports the sale of six lots on the southeast corner of Fourth avenue and Ninety-first street, for \$37,500; also No. 39½ Seventy-second street, between Third and Lexington avenues, for \$14,000.

Mr. T. H. Walter has sold his five lots on the Ninth avenue, 25 feet north of One Hundred and Twenty-fifth street, and four lots on One Hundred and Twenty-sixth street, in the rear, for about \$35,000.

The northeast corner of Sixth avenue and One Hundred and Twenty-seventh street, 99.11 on the avenue and 110 on the street is reported sold to Mr. Hamberger for \$30,000. Three lots on the north side of One Hundred and Twenty-sixth street, 235 feet west of Fifth avenue, have been sold to Mr. Brown, for \$7,000 each.

Two lots on the west side of the Boulevard, between Sixty-eighth and Sixty-ninth streets, about 56 feet north of Sixty-eighth street, dimensions irregular, have been sold for \$12,000 each to the Hoffman estate.

Eight lots on Sixty-seventh street, between Fifth and Madison avenues, four of which belong to Mr. Chas. D. Barney, are reported sold with builder's loan for \$30,000 each.

Mr. S. M. Blakely has sold house and lot, No. 135 East Thirty-Sixth street, northwest corner Lexington avenue and Thirty-sixth street, 20x74.7, for \$20,000 to Dr. Charles P. Murray. The owners are the Austin family.

Mr. C. S. Crank has sold at private contract No. 120 East Fifty-seventh street to Alderman James Reid, of Jersey City, for \$23,000. The house is a four-story brown stone, 16x100.5.

Mr. John A. Monsell has sold the plot of land 90x200 on the southwest corner of Union street and Eighth avenue, Brooklyn, to Mr. Edward Packard for

\$26,000; and has purchased from Mr. Packard No. 350 West Twenty-third street for \$25,000.

Mr. Lionel Froehlich has sold at private contract three houses, Nos. 233, 235 and 239 East Seventy-second street, to Henry Hildbrin for \$37,000.

Bernard Smyth has sold at private contract Nos. 61 and 68 Leroy street, of irregular dimensions, being a large tenement, to Ottinger Bros. for \$22,000.

The following are the sales at the Exchange Sales-room for the week ending December 24:

* Indicates that the property described has been bid in for plaintiff's account:

*Ella st, s w cor Butternut st, 164.3x209.8x227.6 x—. Martha A. De Lancey.....	\$4,850
Front st, No. 319, n s 20x70, four-story brick tenement. Peter Murray. (Amount due, about \$1,700).....	3,050
Gay st, Nos. 9 and 11, e s, 76.1 n Waverly pl, 33.9x65, two three-story brick dwell'gs. Hugh Curry. (Amount due, abt. \$10 20).....	10,650
*Washington st, e s, 25 n Jane st, 25x54.7, four- story brick dwell'g. James Bowen et al. (Amount due, about \$7,250).....	7,800
19th st, No. 44, s s, 314 e 6th av, 21x92, four- story brick dwell'g. Alphonse J. Cazet, admr. (Amount due, about \$5,121).....	20,200
32d st, No. 116, s s, 204.2 e 6th av, 20.10x98.9, three-story stone front dwell'g. W. T. Ryerson. (Amount due, about \$12,550).....	13,300
*36th st, n s, 120.1 w 3d av, 46.6x98.9. Presi- dent, &c., Yale College. (Amount due, about \$46,300).....	36,050
36th st, No. 52 W., s s, bet 5th and 6th avs, 20x 93.9, four-story stone front dwell'g. N. G. Miller. (Public auction sale).....	25,000
*47th st, No. 453, n s, 225 e 10th av, 18.9x100.5, four-story stone front dwell'g. Ellen T. Donahue. (Partition sale).....	9,800
73d st, No. 10, s s, 162.6 e 5th av, 22.6x102.2, four-story stone front dwell'g. George Alger. (Public auction sale).....	30,500
73d st, Nos. 156 to 162, s s, 70 e Lexington av, 100x102.2, two three-story brick houses and two two-story frame stables. N. & H. Andrus. (Public auction sale).....	31,600
117th st, s s, 70 e New av, 75x100.11. D. G. Croly. (Public auction sale).....	7,575
*119th st, n s, 380 e 3d av, 20x100.10. Harlem Savings Bank. (Amount due, abt \$4,950).....	5,500
*133d st, s s, 210 w 4th av, 20x99.11. Mutual Benefit Life Ins. Co. (Amount due, about \$6,900).....	7,000
Gerard av, s e cor Ella st, 50x150. J. H. Moran. *Gerard av, e s, 50 s Ella st, 100x150. Martha A. De Lancey.....	1,600
Gerard av, e s, 150 s Ella st, 50x150. J. H. Moran.....	450
*Lexington av, s e cor Prospect pl, 100x200 to Prospect av.....	
Worth av, w s, intersection of southerly line of Wm. Bisent's land, runs west 299.3 to Prospect av, x south 266 x east 214 to Worth av, x north 320 to beginning.....	5,500
3d av, Nos. 1022 and 1024, w s, 43.5 s 61st st, 32 x85, four-story stone front store and tene- ment. Samuel Phillips. (Amount due, abt \$26,650).....	33,400
4th av, e s, 51.8 s 81st st, 52.4x100. N. & H. Andrus. (Public auction sale).....	17,000
4th av, s e cor 83d st, 27.2x100. Ottinger Bros. (Public auction sale).....	10,000
4th av, e s, 27.2 s 83d st, 75x100. N. & H. An- druss. (Public auction sale).....	26,400
Total.....	\$308,135

BROOKLYN, N. Y.

In the City of Brooklyn, Messrs. T. A. Kerrigan and J. Cole have made the following sales for the week ending Dec. 22:

*Henry st, e s, 49.7 n Pineapple st, 22x100. Mu- tual Life Ins. Co.....	\$3,500
*Herkimer st, n s, 60 w Albany av, 20x100. W. H. Dunning, et al., trustees.....	2,600
*Hewes st, No. 145, n w s, 125 s w Lee av, 47.4 x100. Nassau Fire Ins. Co.....	6,800
Hewes st, n w s, 172.4 s w Lee av, 42x100, James Doover.....	3,200
Jefferson st, s e cor Bedford av, 28.6x142.4x42x 13.7. Henry L. Brevoort.....	1,000
*Monroe st, s s, 76 w Bedford av, 74x100. Wil- liam Fletcher.....	4,000
*Flushing av, s s, 19 w Carlton av, 20x83.8. George H. Smith.....	2,000
Greene av, s s, 75 e Grand av, 50x200, to Hickory st.....	
Quincy st, s s, 149.4 e Jamaica av, 25 x irreg. Jamaica av, e s, abt 39 s Quincy st, 15.11x irreg.....	2,200

*Wythe av, e s, 105 n Clymer st, 15x90. Ste- phen Rushmore.....	2,000
Total.....	\$32,000

BUILDING MATERIAL MARKET.

BRICK.—On Common Hards the same general features remain current as for some time past. Values fluctuate slightly, according to supply, but are on the whole fairly maintained, with sellers not likely to lose much advantage as matters now stand. As before noted, consumption is more or less checked by the natural inclemencies of the season, but the same influences tend to restrain and retard the supply, and a balance is thus formed which holds values quite uniform all around. There is also a continued pretty good demand from buyers, who, if they cannot use stock just now are willing to lay it away against the work they have planned out for the future, and this prevents much of an accumulation afloat. Within a few days the turn has been somewhat stronger and an improvement of about 25c. per M. is claimed as having been established, and indeed even more in some cases. On Haverstraws \$7.50 is about the average top rate as yet fully established, but sales have reached \$7.75, and this is asked firmly by many. Some Jerseys have been coming in and selling for \$6.50, but of late the cost has increased to \$6.50 per M., and the offering is not abundant by any means. Pales are firm and find fair demand, with not many parcels offering.

CEMENT.—As about all the stock is in second hands, there is scarcely any market at the moment. We are told, however, that a few parcels can be reached at \$1.25 per bbl. for Rosendale, but holders not anxious to realize.

HARDWARE.—Demand is moderate and mostly of a local character, with the selection still confined almost entirely to fancy seasonable grades, in fact not much of a movement can be expected until after the turn of the year, and the lull in demand will afford opportunity to wright up accounts, take inventory, etc. Prices quite generally hold their own on all lines of stock, and the revision of lists does not give the buyer many advantages. The Bolt and Nut Manufacturers have adopted the following rates: Machine Bolts, Bolt Ends, Long Screws and Skin Screws, discount 60 and 10 per cent.; Square and Hexagon Nuts, 7 3/4 cents off list; Washers, 7 1/4 cent off list. The manufacturers of Coil Chain have advanced prices 1/4c. per lb., and the new figures are: 5/16c. per lb. for 1, 3/8, 1/2, 5/8 and 9-16 inch; 5/8c. for 1 1/2 and 1 1/4 inch; 6c. for 3/8 inch; 7c. for 1-16 inch; 7 1/2c. for 1 1/4 inch, and 13c. for 3-16 inch.

LATH.—Receivers continue in a very confident mood, and an extreme limit of valuation is placed on all parcels. It is apparent that the accumulation in dealers' hands is by no means full or well distributed, and while the immediate consumption proves a little slow, the amount known to be wanted before spring is full; and against this the supply must in natural order run light. Indeed, the offering now is very moderate, and agents are asking an advance on parcels to arrive. So far as made public, the highest figure as yet obtained is \$2 per M., but the rate asked exceeds this by 10@15c. per M., and sellers are not anxious to operate even at the extreme.

LIME.—Demand continues good, and exhausts the supply available without difficulty, the market holding a firm tone on all grades. The product from the upper Hudson continues to be brought through by rail to some extent.

LUMBER.—The marks of the season are upon business, and we do not find much general animation. Occasionally something comes to hand, coastwise, and, if it be good, buyers at a fair price are comparatively easy to find; but, lacking in attraction, the offering is much more difficult to place than earlier in the season, when the yards are not so well stocked. In no case, however, is there what might be called a free or open demand in a wholesale way, and the jobbing and retail trade is settling down for the end of the year. On prices sellers retain all the advantage and preserve a generally steady tone for immediate deliveries, and are drawing pretty full bids on the specifications received for future. Already is there some contest to secure the promise of the first spring deliveries, especially from the Eastward, but agents are backward about fixing rates and rather stand off on negotiations.

Spruce remains about firm in tone and receivers are not prepared to offer anything afloat except at very full figures, and many are unwilling, as yet, to accept specifications for estimate, in view of the uncertainty in regard to the quantity of the next crop. The cut will be large, but the ruin of logs, or the prospect for banking them and getting them down, is the point at issue. Randoms are somewhat unsettled in value, but nothing of an attractive character can be reached below \$17 apparently, and some receivers talk higher figures at the close.

White Pine retains a pretty firm and well-maintained position, and is carried with confidence. The local consumption is slackening up somewhat, but no more than usual for this month, and as exporters continue fairly interested, holders of the supply are well pleased with the general situation. Business, in fact, is seasonably slow, with a cheerful expectation among the trade of revival in due time. We quote \$17@20 per M. for West India shipping boards; \$23@25 for South America do.; \$15 50@16.50 for box board; \$17.00@17.50 for do. wide and sound do.

Yellow pine remains much the same. The usual winter demand for special cuts against spring delivery has set in and shows comparatively full proportions, and there is also a fair outlet for choice random should they appear. This gives sellers advantage

enough to hold the position with a pretty firm tone, especially as they are farther aided by the fact that most of the mills at the South are busy getting out stuff for European orders. We quote random cargoes at about \$23.50@25 per M.; ordered cargoes, \$24@26 do.; green flooring boards, \$24@25 do.; and dry do. do. \$25@26.50. Cargoes at the South \$14@17 per M. for rough, and \$19@20 for dressed.

Hardwoods of choice quality have sure sale when offered, and the market is generally in a firm position. Offerings light from about all points. We quote at wholesale rates by carload about as follows: Walnut, \$77@85 per M.; ash, \$33@36 do.; oak, \$35@40 do.; maple, \$30@35; chestnut, 1st and 2d, \$30@35; do. do.; culls, \$18@20 do.; cherry, \$45@47 do.; white wood, 1/2 and 3/4 inch: \$25@27.50, and do. inch, \$33@35 do.; hickory, \$35@45 do., for Western, and \$65@75 for good nearby stock.

Shingles have not been very active on home account, but continue to meet with a few export orders and command full former rates. We quote Cypress at about \$6 for saps and \$8.50@9 for hearts; pine shipping stocks, \$1 for 18 inch, and Eastern saw grades at \$2.50@4.50 for 16-inch, as to quality and to quantity. Machine dressed cedar shingles quoted as follows: For 30-inch, \$16@22.25 for A and \$28.75@33.25 for No. 1; for 24-inch, \$6.50@16 for A and \$16.75@23 for No. 1; for 20-inch, \$5@10.50 for A and \$11.25@11.75 for No. 1.

At the yards there is a moderately active demand, with no special features to note, beyond the continued firm tone on prices for pretty much all grades.

From among the lumber charters recently reported we select the following:

A schr, 232 tons, from Cedar Keys to Matanzas, lumber, \$7.50; a schr, 173 tons, from Portland to Martinique, shooks, &c., \$800; an Am brig, 300 tons, from Portland to Matanzas, shooks and heads under deck, 22c, and empty molasses hogsheads and tierces on deck, 90c, and 50c.; an Am barque, 422 tons, same voyage, shooks and heads, 20c; a schr, 328 tons, from Portland to Cardenas, shooks and heads, 22c; a schr, 325 tons, from Portland to Cardenas or Matanzas, shooks and heads, 20c; option of Havana, 27c; an Am brig, 335 tons, from Portland to Caibarien, shooks and heads, 22c; a schr, 180 tons, hence to Jacksonville, stone, \$1 35, and back with lumber, \$8.50; two schrs, 110 and 180 M lumber, from Jacksonville to New York, \$8.50; a schr, 260 M lumber, from Cedar Keys to New York, \$9; a schr, 250 M lumber, from Savannah to Philadelphia, \$6; a schr, 200 M lumber, from Fernandina to New Haven, \$7.

Exports of lumber from the port of New York:

	This Week, feet.	Since Jan 1, feet.
West Indies.....	791,044	28,356,779
South America.....	302,254	18,825,063

Europe, Continent.....		2,857,021
Europe, United Kingdom.....	315,204	8,267,200
Total.....	1,408,502	66,124,920

THE WEST.

The weekly summary of the Chicago Northwestern Lumberman contains the following:

From Maine we learn that the Penobscot river will carry over about 50,000,000 feet of old logs, and that indications point to a new supply amounting to 150,000,000 feet, so that with a favorable spring for driving, that stream will turn out 200,000,000 feet next year, which is from 30 to 50 per cent. above its usual average. The same general result is aimed at on the Androscoggin and other streams.

St. John, N. B., shipped 205,831,000 feet of lumber in 1880, an increase of 63,000,000 feet over 1879, and the operators in that region will strive to do an equally large business in logging this winter. Of the shipments of the past season, birch figures at 16,035 tons, and pine at 2,411 tons. The present status of prices is firm, and a good demand is indicated for next season's cut at full present prices, and possibly an advance.

Pbiladelphia has felt the influence of the cold snap in a duller market, but with no excessive amount of stock on hand. Prices are well maintained, and the outlook for the winter trade is highly favorable.

Baltimore advices are to the same effect. At Buffalo, stocks are reported from 8,000,000 to 12,000,000 feet below expectations, and firm prices are prevailing.

Cleveland, Sandusky and Toledo, as well as Detroit, report no excess of stocks, but a general apprehension of a shortage, and this general feeling is well exhibited in the condition of affairs on the Saginaw river, where our correspondent reports the presence of a large number of buyers, and an active demand for lumber, seldom experienced so early in the winter. If it was a month later, we should not be surprised to learn that buyers from all directions were in the market picking up all desirable lots; but that, in the month of December, not only the better grades of cut lumber should be in demand at the range of the past season's prices, but that coarse stocks were being freely taken, and large contracts entered into for the cut of another season, is certainly anomalous, and can indicate only that stocks in the retailing yards are nowhere excessive, and that dealers have full faith in the markets of another year, whatever the outcome of the winter may bring forth in the way of a large log crop.

Turning westward, we find in all directions a complaint that the early closing of the season has prevented such accumulations at producing points as other months sawing was expected to supply, and we cannot learn of one which boasts a supply adequate

to the present and prospective demands of trade. Throughout the West we learn that the retail yards are all in low condition in the volume of accumulations, dealers having been unable to obtain transportation in sufficient volume to fill their yards during the fall, and this leads to a fear that with better transportation, in a larger supply of cars, the accumulations at points of supply will be found inadequate to the demand which present appearances indicate.

From Wisconsin points we learn that the mills have found a market for their lumber, in a region more northerly than heretofore, and that the bulk of the lumber of Wisconsin and the upper Mississippi will probably be wanted during next season among the States of our northern border, to which an immense immigration has been for the past year, and is still flowing. The stocks of the markets on the river south of Dubuque are none of them large, and the freezing in of several large rafts at Quincy, Hannibal and St. Louis, as well as some other points, is felt to be a misfortune in the curtailment of trade, as the lumber cannot be pulled and piled until spring, in place of being made available for late winter and early spring demand. We learn that St. Louis is already seeking extensive supplies at this point. On the whole, the outlook for winter trade is most encouraging at every point, and we see no indication of weakness anywhere along the line. We refrain from speaking of the work in the woods as our columns are this week replete with information from all parts of the logging district, all of which shows favorable progress being made. That strenuous efforts will be made to take care of all the stocks which the river boom can run out, is indicated by the extensive repairs and enlargement of mills of which we learn from nearly all sections. Growing importance is attaching to the forest product of the Lake Superior region and Northeastern Minnesota, induced largely by the demand of the rapidly settling regions on the line of the Northern Pacific Railroad, and as well in the British possessions of the Manitoba and Winnipeg regions. The mill capacity of the west end of Lake Superior, it is said, will be increased 400 per cent. over last year. Notwithstanding a largely increased mill capacity in many portions of the lumber district, it must be borne in mind that while the market demand for consumption is rapidly increasing, the capacity of the rivers and their booms to supply logs is limited, and that in a majority of cases that limit has already been attained.

CHICAGO.

There have been light receipts during the past week, amounting to 3,419,000 feet, a smaller amount than during the corresponding week of 1879, when they were 5,315,000. The shingle receipts have been but 2,055,000 against 9,370,000 for the corresponding week of last year. This brings the total for the year to 1,526,825,000 feet of lumber and 640,218,000 shingles. The future arrivals of the year will be by rail, and in small quantities. We shall probably have somewhat to add each week until the opening of navigation. We elsewhere analyze the trade of the past season, so that a repetition of remarks upon this subject is not necessary.

LUMBERMAN AND MANUFACTURER, MINNEAPOLIS, Minn., }

The most important item which the week has brought to light is the discovery that there was 519,000,000 feet of lumber on hand at Chicago on the first of December, of which there was sold and waiting shipment over 100,000,000 feet and that there was another 100,000,000 feet of refuse, dead and unsaleable stock, making the available stock only 319,000,000, or enough to give each dealer two cars a day until April to exhaust the entire stock. This is supplemented by the further fact that orders are a long way ahead of shipments, and coming in about as fast as cars can be had to ship with. These things have been brought to light by the Lumbermen's Exchange, and it is thought that they will be sufficient to stop all cutting. A visit to Chicago this week satisfies us that the report of cutting prices which we referred to last week were greatly exaggerated. Chicago is in a comfortable frame of mind once more. They are shipping about 2,500,000 feet per day although the humbug report in fashion shows less. Reports from Saginaw, Toledo, and eastern cities are of the most favorable character. In the west the situation is not encouraging. In Minnesota many millions of bushels of wheat are in store waiting shipment and many more in the hands of farmers. The roads are getting settled and lumber will be called for in large quantities all winter and paid for out of the proceeds of the wheat. The winter so far has been most favorable for loggers in all the pine regions. At least 1,500 men are in the woods cutting and hauling logs into the waters of the Mississippi, with the prospect that the cut will average 100,000 to the man or a total of 1,500,000,000 feet, being a large excess over last year's cut.

From the Hardwood report of the Northwestern Lumberman we extract the following:

Trade has been good at unchanged prices. Some dealers complain of the scarcity of cars, others assert that it hinders them more to get the lumber than it does to get it brought to town. Several of the yards have no walnut suitable for inside finishing, and carpenters are at much trouble to obtain it. In our last rounds of the yards the proprietor of quite an extensive concern assured us that he was receiving ample supplies of a satisfactory quality, but when, a few minutes later, we saw a customer turned away who wanted a few boards suitable for moldings, we set it down mentally that the proprietor's conscience and statements should rank with the genus caoutchouc.

We learn that considerable walnut, considering the supply, has been cut in Indiana, the weather favor-

ing hard roads and work in swamps not accessible when the ground is soft. In Tennessee, the state of affairs is just the reverse. We know operators who are ready to swear that during the fall it rained every other day in that state, consequently logging has been greatly retarded, and in some sections it is at a stand still. A mill man who is lumbering a large tract in Obion County tells us that for six weeks a wheel in his mill has not turned, and that the hauling of a large number of logs which he expected to saw this winter will probably have to be postponed until spring. The wagons sink into the mud to the hubs, and the leaves on the trees are no commoner than fever and ague. There is a large supply of hardwood in some of the southern states, but there is no use in trying to disguise the fact that in some sections in order to secure it, one has to make as hard a fight as he would to conquer the flesh and the devil.

A correspondent writes us for information regarding black ash. It is not handled extensively in this city, but the demand is increasing, and some yards that have kept clear of it, now have it in stock. It is used principally by the furniture men; agricultural implements and manufacturers do not use it—when they know it—except in a small way. It is worth here about \$7 less than the white variety, and at some of the mills in Michigan, we learn, it sells for \$10 less. It is used largely for hoops, and much that has been cut in the Saginaw district has been shipped East for that purpose.

THE EAST.

The Commercial Bulletin reports the Boston market as follows:

In Western lumber the volume of business has been small—a state of things to be expected at this season. The statistical position of the market is strong and an advance on some kinds is talked of at the West. The receipts have been light, and but for the dullness would be far below what the trade require. There has also been a quiet week in Eastern lumber. The arrivals have been few, many vessels being delayed by the weather. Most that has come in was sold for arrival. The dealers are generally well stocked, sufficiently so to carry them over the first of the year.

The Boston Journal has the following:

The lumber dealers are talking up among themselves with the view of securing from the next Legislature a change in the lien law, so that they shall be placed upon the same footing as the mechanics and the labor contractors in the matter of liens upon buildings. These have liens upon any building they may work upon, or for which they may supply labor, but for materials furnished the builder or contractor the lumber dealer has no lien; but he must first give thirty days' notice to the real estate owner that he will place a lien upon the property. Of course such a law would secure the lumber dealer, who should be up in his business and know whether his customers are reliable and worthy of credit, and would place the whole responsibility upon the real estate owner. Under such a law we can imagine every rascally builder would be able to get trusted for materials, and the real estate owners would be at their mercy more or less. Such a law would check building operations and react against the lumber interest. Lumber must be treated the same as any other merchandise, and instead of devising legislation to check building operations the lumber dealers can be more profitably employed. They have now the same power to discriminate in giving credit that any other traders have, and they certainly should not shirk the responsibilities of their business and seek to place them upon those who contract with builders for buildings. We find a decided difference of opinion in the trade as to the desirability of seeking to obtain any change in the law, and it is possible the whole matter will be dropped.

The Northwestern Lumberman has the following:

From Maine we learn that the river drivers, with about 6,000,000 feet of logs, were about 10 miles above Lewiston when the bottom fell out of the thermometer. Old Jack was relentless, and just as the drive was reaching port after a long summer's fight, against all kinds of bad luck, the Androscoggin solidified and they were stuck—probably for the winter. Some of the drivers have gone home, some are in Lewiston and some have started for the woods. The lumbermen do not hardly hope for a thaw and are discussing what to do with the logs. There is a good chance, the drivers say, to cut out and pile 2,000,000 or 3,000,000. If the ice happens to go out on a high flood next spring, the logs will be very likely to hurry down to sea.

THE PENOBSCOT.—There are many difficulties in the way of collecting reliable information concerning the logging outlook on this river. The timber land is largely owned by capitalists who do not cut any logs, but permit small operators to do so at a fixed price per thousand feet, and they put in teams and cut and haul the logs to the streams, and in the spring drive them into the boom, where they are sorted and rafted, and then sold to the manufacturers. The business is thus divided among three distinct classes, as a general rule, though there are a few exceptions; a very small per cent. of the manufacturers cutting their own logs. From information gleaned from some of the most prominent lumbermen, and from my own observation, I should say, that with a favorable condition of things, there will be cut on this river the present winter not far from 150,000,000 feet of logs, divided about as follows: 100,000,000 feet of spruce, 15,000,000 feet of sapling and old pine, 15,000,000 feet of hemlock, 5,000,000 feet of cedar and 15,000,000 feet of coarse pine for box boards. There will be about 50,000,000 feet of old logs carried over including those left over in the streams, booms, and at the mills. With a favorable spring for driving, so that the logs all come in, we

shall have 200,000,000 feet for our next year's stock, 125,000,000 feet of which will be spruce. This estimate is based on favorable conditions. There are many contingencies which may arise to cut down the estimate, such as deep snows, extensive thaws, lack of water for driving, etc. The swamps are in good condition and the weather, so far, has been very favorable. We have some eight inches of snow and a good bottom; a little more snow would improve the roads. There never has been a season when there were so many logs yarded—or skidded as it is called in the West—so early in the winter as now. Provisions are 2½ per cent. higher, and labor fully 25 per cent. higher than last year, and consequently logs will cost considerably more than for several years past.

I notice that your correspondent at Bangor indicated, in his market report last week, that a smaller stock will be on the market next year, but I think my figures will prove to be near the mark. The figures which I gave you last year early in the season were within 1,000,000 feet of the final summing up at the end of the season, and I have been as careful in my estimates given here.

NAILS.—Not much call for stock outside the ordinary run of small trade orders, and the market as a whole showing a dull tone. Offerings are fair and holders in pretty much all cases quite well inclined to operate, with values in consequence keeping easy. There was recently a meeting of the association but it reached adjournment without deciding upon a new card and the price remains an open one. Nominally we quote at \$2.75 per keg for 10d to 60d with a little shading made on a few large invoices and about the ordinary addition in a jobbing way.

PAINTS AND OILS.—There is scarcely any trade doing, except in the way of some parcels required for some immediate and unexpected necessity, and the demand principally from local and near-by points. Holders, as a rule, make a showing of firmness, but the position is really to a great extent nominal, with current quotations more likely to be shaded than advanced. Leads, in particular, continue uncertain, owing to the absence of any combination among the manufacturers. Linseed Oil shows no great change. The run of orders is small, with prices a trifle irregular, according to the make of stock. We quote at about 55¢ for City, and 60¢ for Calcutta, from first hands.

PITCH.—A moderately active trade doing, with the supply about equal to the call, but not in excess, and prices generally held with a steady tone. We quote at \$2.15 to \$2.25 per bbl. for City, delivered.

SPIRITS TURPENTINE.—A slow movement has been in progress on the jobbing market, with the sale confined mainly to parcels required on immediate wants. This has been reflected upon the wholesale positions, and few important transactions took place. Stocks were well under control and held quite firmly. As this report is closed, the quotations stand at about 45¢ to 46¢ per gallon, according to the quantity of stock handled.

TAR.—The demand has been about equal to expectations, the moderate supply was offered carefully and indifferently, and a generally firm and confident tone shown among holders. Supplies have increased a trifle of late. We quote \$4.10 to \$4.12½ for Newbern and Washington, and \$4.00 to \$4.25 for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows: 1st—Q. C. is an abbreviation for Quit Claim deed i.e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

ALPHABETICAL INDEX.

NOTE.—Names in SMALL CAPITALS convey property from husband to wife.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded. Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date

CO-PARTNERSHIP NOTICES.

NOTICE IS HEREBY GIVEN THAT A LIMITED partnership has been formed by the undersigned, pursuant to the Laws of the State of New York; that the name or firm under which such partnership is to be conducted is L. K. STROUSE & CO.; that the general nature of the business intended to be transacted by such partnership is the buying and selling of law books and stationery, and the publishing of law books; that the names of all the general and special partners interested in the said business are Lemen K. Strouse and William Henry Mackenzie; that the said Lemen K. Strouse is a general partner, and his place of residence is in the city of Brooklyn, and County of Kings, and that the said William Henry Mackenzie is the special partner, and his place of residence is the City and County of New York; that the amount of capital which the said special partner has contributed to the common stock is fifteen thousand dollars; that the period at which the said partnership is to commence is the 10th day of December, 1880, and the period at which it will terminate is the first day of January, 1885.

LEMON K. STROUSE, general partner.
WM. HENRY MACKENZIE, special partner.
Dated December 11th, 1880.

NOTICE IS HEREBY GIVEN THAT A LIMITED partnership has been formed by the undersigned, pursuant to the laws of the State of New York. That the name or firm under which such partnership is to be conducted is I HAMBURGER AND COMPANY.

That the general nature of the business intended to be transacted by such partnership is that of dealing in leaf tobacco and segars, &c.

That the names of all the general and special partners interested in the said business are Isaac Hamburger, Solomon Hamburger and Herman Hamburger; that the said Isaac Hamburger is a general partner and his place of residence is in the city and county of New York; that the said Solomon Hamburger is a special partner and his place of residence is in the city of Norfolk, in the State of Virginia; that the said Herman Hamburger is also a special partner and his place of residence is the city of Baltimore, in the State of Maryland.

That the amount of capital which each of said special partners has contributed to the common stock is as follows:

The said Solomon Hamburger has contributed the sum of seventeen thousand five hundred dollars, and the said Herman Hamburger has contributed the sum of seventeen thousand five hundred dollars, that the period at which said partnership is to commence is the first day of September, 1880, and the period at which it will terminate is the first day of September, 1885.

Dated New York, December 6th, 1880
Blumenstiel & Hirsch, Attorneys, &c., 330 Broadway, New York City.

ISAAC HAMBURGER,
General Partner,
SOLOMON HAMBURGER,
HERMAN HAMBURGER,
Special Partners.

State of New York, City and County of New York,

s. s.
Isaac Hamburger, of said city and county, being duly sworn, deposes and says, he is the general partner named in the certificate hereto annexed and that the sums specified in said certificate to have been contributed by each of the special partners therein named to the common stock of the said partnership, have and each of them has been actually and in good faith paid in cash.

Sworn to before me, this 4th day of December, 1880,
G. Montague, Notary Public, New York County.

ISAAC HAMBURGER.

THE
FIRE-PROOF BUILDING COMPANY
OF NEW YORK

LEONARD F. BECKWITH,

E. GILLET,

President & Treasurer.

Vice-President

Hollow blocks of any pattern, uniting strength and
resistance to fire and water. The Hydraulic Lime of
Teil (France), one of the strongest cements known, is
largely used in this manufacture. The blocks do not
conduct heat, cold or sound, and weigh 60 per cent.
less than brick.

Fire-proof partitions, floor arches between iron
or wooden beams, and ceilings under iron or wooden
beams erected in following buildings:

Western Union Telegraph, Orient and Queen's Insur.
Coal and Iron Exchange, Museum of Nat. History,
Equitable, Staats Zeitung, Hudson R. R. Freight Dep.
Williamsburgh Savings Bank, N. Y. Hospital, Boreel,
Windsor & Westm'r Hotels Cluny & Youngs H'ls, B'n
Syracuse Savings Bank, B'k N. Y. & Stevens B'ldg.
Columbia College, Tribune, Coryell & Vancorlear Flats
Baltimore Safe Deposit Co. Peabody Institute, Balt.
Peabody Museum, N. H. John Hopkins Hospital, Balt.
Sidewalks laid at Lenox Library, Tribune, etc.
Hollow burnt clay Bricks for Flat and Curved Arches,
Partitions, etc.; and Skewbacks for Brick Arches.

Sole Agents for the United States for HYDRAULIC

LIME OF TEIL, and LAFARGE PORTLAND CEMENT.

Sole Agents for the U. S. for METTLACH ENCAUSTIC

TILES, laid in Tribune, Staats Zeitung, Mineral Spa,

Central Park, Belvidere Hotel, etc.

Sole Agents for the Atlantic States for WIGHTS

FIRE PROOF COLUMNS.

Our fire-proof work is the only one approved by

the New York Board of Fire Underwriters and the

Superintendent of Buildings, after severe public tests.
